From the 494 B.C. plebeians' march out of Rome to gain improved status, to Gandhi's nonviolent campaigns in India, to the liberation of Poland and the Baltic nations, and the revolutions in North Africa, nonviolent struggles have played pivotal roles in world events for centuries. Sharp's Dictionary of Power and Struggle is a groundbreaking reference work on this topic by the "godfather of nonviolent resistance." In nearly 1,000 entries, the Dictionary defines those ideologies, political systems, strategies, methods, and concepts that form the core of nonviolent action as it has occurred throughout history and across the globe, providing much-needed clarification of language that is often mired in confusion. Entries discuss everything from militarization to censorship, guerrilla theater, pacifism, secret agents, and protest songs. In addition, the dictionary features a foreword by Sir Adam Roberts, President of the British Academy; an introduction by Gene Sharp; an essay on power and realism; case studies of conflicts in Serbia and Tunisia; and a guide for further reading. Sharp's Dictionary of Power and Struggle is an invaluable resource for activists, educators and anyone else curious about nonviolent alternatives to both passivity and violent conflict. "Gene Sharp is perhaps the most influential proponent of nonviolent action alive."--The Progressive "Sharp has had broad influence on international events over the past two decades, helping to advance a global democratic awakening."--The Wall Street Journal "[Sharp's] work has served as the template for taking on authoritarian regimes from Burma to Belgrade."--The Christian Science Monitor

Forgotten Dead uncovers a neglected chapter in the story of American racial violence, the first comprehensive study of lynching of hundreds of persons of Mexican origin or descent.

A Novel Rowman & Littlefield Pub Incorporated  
How two centuries of Indigenous resistance created the movement proclaiming "Water is life" In 2016, a small protest encampment at the Standing Rock Reservation in North Dakota, initially established to block construction of the Dakota Access oil pipeline, grew to be the largest Indigenous protest movement in the twenty-first century. Water Protectors knew this battle for native sovereignty had already been fought many times before, and that, even after the encampment was gone, their anticolonial struggle would continue. In Our History Is the Future, Nick Estes traces traditions of Indigenous resistance that led to the #NoDAPL movement. Our History Is the Future is at once a work of history, a manifesto, and an intergenerational story of resistance.

An Ethico-Political Bind Verso Books  
"Judith Butler is the most creative and courageous social theorist writing today." – Cornel West "Judith Butler is quite simply one of the most probing, challenging, and influential thinkers of our time." – J. M. Bernstein Judith Butler's new book shows how an ethic of nonviolence must be connected to a broader political struggle for social equality. Further, it argues that nonviolence is often misunderstood as a passive practice that emanates from a calm region of the soul, or as an individualist ethical relation to existing forms of power. But, in fact, nonviolence is an ethical position found in the midst of the political field. An aggressive form of nonviolence accepts that hostility is part of our psychic constitution, but values ambivalence as a way of checking the conversion of aggression into violence. One contemporary challenge to a politics of nonviolence points out that there is a difference of opinion on what counts as violence and nonviolence. The distinction between them can be mobilized in the service of ratifying the state's monopoly on violence. Considering nonviolence as an ethical problem within a political philosophy requires a critique of individualism as well as an understanding of the psychosocial dimensions of violence. Butler draws upon Foucault, Fanon, Freud, and Benjamin to consider how the interdiction against violence fails to include

lives regarded as ungrievable. By considering how "racial phantasms" inform justifications of state and administrative violence, Butler tracks how violence is often attributed to those who are most severely exposed to its lethal effects. The struggle for nonviolence is found in movements for social transformation that reframe the grievability of lives in light of social equality and whose ethical claims follow from an insight into the interdependency of life as the basis of social and political equality.

Why Militant Protest is Good for Democracy What Everyone Needs to Know(r)

Why Civil Resistance Works  
The Strategic Logic of Nonviolent Conflict  
Columbia University Press  
The Protest Psychosis  
University of Michigan Press  
This volume of cutting-edge research comparatively analyzes violent protest and rioting, furthering our understanding of this increasingly prevalent form of claim making. Hank Johnston and Seraphim Seferiades bring together internationally recognized experts in the field of protest studies and contentious politics to analyze the causes and trajectories of violence as a protest tactic. Crossnational comparisons from North America, Britain, France, Germany, Greece, Iran, Thailand, and elsewhere contribute to the volume's theoretical elaboration, while several case studies add depth to the discussion. This title will be of key importance to scholars across the social sciences, including sociology, political science, geography and criminology. Johnston and Seferiades's exciting book is a significant contribution to the study of rioting and violent protest in the contemporary neoliberal state. Police Violence Against Black Women and Women of Color  
Routledge  
This timely and very practical guide shows you how to plan, carry out and complete an effective out-of-court restructuring or "workout." Leading you step by step through the legal, business and procedural details, it answers your questions on the pros and cons of negotiating a workout as opposed to filing for bankruptcy. Fully explains the complexities of exchange offers and prepackaged plans and analyzes such essential matters as directors' liability,

lender's concerns, and taxation in the workout framework. Includes provisions revised or added pursuant to the Bankruptcy Abuse Prevention and Consumer Protection Act of 2005, Pub. L. No. 109-8 (2005). You'll find expert guidance through various workout procedures, including:

- Negotiating with creditors on behalf of shareholders
- Handling sales of claims against, or assets of, the troubled company
- Minimizing personal liability of directors
- Complying with legal requirements of various types of exchange offers

An instant New York Times bestseller! "Internment sets itself apart...terrifying, thrilling and urgent."--Entertainment Weekly  
Rebellions are built on hope. Set in a horrifying near-future United States, seventeen-year-old Layla Amin and her parents are forced into an internment camp for Muslim American citizens. With the help of newly made friends also trapped within the internment camp, her boyfriend on the outside, and an unexpected alliance, Layla begins a journey to fight for freedom, leading a revolution against the camp's Director and his guards. Heart-racing and emotional, Internment challenges readers to fight complicit silence that exists in our society today.

**American Resistance Oxford University Press**

A history of America's civil rights movement traces the pivotal influence of sexual violence that victimized African American women for centuries, revealing Rosa Parks's contributions as an anti-rape activist years before her heroic bus protest.

**A Girl's Guide to Joining the Resistance Michael O'Mara Books**  
Martin Luther King once insisted that 'a riot is the language of the unheard.' Since 2011 swathes of protest, rebellion, and rioting have covered the globe. A new, disenfranchised generation is fighting for its voice as once again scores of police line the streets and pop icons demand a political revolution. Challenging us to consider arson attacks against empty buildings, black bloc street-fighting tactics, and industrial sabotage, amongst an array of

other militant action, philosopher Stephen D'Arcy asks if it is ever acceptable to use or threaten to use armed force. Drawing a clear line between justifiable and unjustifiable militancy, *Languages of the Unheard* shows that the crucial contrast is between democratic and undemocratic action, rather than violence and non-violence. Both a consideration of the ethics and politics of militant protest and the story of dissidents and their actions post 1968, this book argues that militancy is not a danger to democratic norms of consensus-building. Instead, it is a legitimate remedy for elite intransigence and unresponsive systems of power that ignore, or silence, the people.

MLK's classic account of the first successful large-scale act of nonviolent resistance in America: the Montgomery bus boycott. A young Dr. King wrote *Stride Toward Freedom* just 2 years after the successful completion of the boycott. In his memoir about the event, he tells the stories that informed his radical political thinking before, during, and after the boycott—from first witnessing economic injustice as a teenager and watching his parents experience discrimination to his decision to begin working with the NAACP. Throughout, he demonstrates how

activism and leadership can come from any experience at any age. Comprehensive and intimate, *Stride Toward Freedom* emphasizes the collective nature of the movement and includes King's experiences learning from other activists working on the boycott, including Mrs. Rosa Parks and Claudette Colvin. It traces the phenomenal journey of a community and shows how the 28-year-old Dr. King, with his conviction for equality and nonviolence, helped transform the nation and the world. This book was published with two different covers. Customers will be shipped one of them at random.

**Languages of the Unheard Liveright Publishing**

There are so many books on so many aspects of the history of the United States, offering such a wide variety of interpretations, that students, teachers, scholars, and librarians often need help and advice on how to find what they want. The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography. Each of the 600 entries on topics in political, social and economic history describes and evaluates some 6 to 12 books on the topic, providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs. The entries are devoted to events and individuals, as well as broader themes, and are written by a team of well over 200 contributors, all scholars of American history.

"Explores protesting as an act of faith . . . How to Read a Protest argues that the women's marches of 2017 didn't just help shape and fuel a moment—they actually created one."—Masha Gessen, *The New Yorker*  
O, the Oprah Magazine's "14 Best Political Books to Read Before the 2018 Midterm Election" "A fascinating and detailed history of American mass demonstrations."—Publishers Weekly  
When millions of people took to the streets for the 2017 Women's Marches, there was an unmistakable air of uprising, a sense that these marches were launching a powerful new movement to resist a dangerous presidency. But the work that protests do often can't be seen in the moment. It feels empowering to march, and record numbers of Americans have joined anti-Trump demonstrations, but when and why does marching matter? What

exactly do protests do, and how do they help movements win? In this original and richly illustrated account, organizer and journalist L.A. Kauffman delves into the history of America's major demonstrations, beginning with the legendary 1963 March on Washington, to reveal the ways protests work and how their character has shifted over time.

Using the signs that demonstrators carry as clues to how protests are organized, Kauffman explores the nuanced relationship between the way movements are made and the impact they have. *How to Read a Protest* sheds new light on the catalytic power of collective action and the decentralized, bottom-up, women-led model for organizing that has transformed what movements look like and what they can accomplish.

*Stride Toward Freedom* HarperCollins  
When sixteen-year-old Rashad is mistakenly accused of stealing, classmate Quinn witnesses his brutal beating at the hands of a police officer who happens to be the older brother of his best friend. Told through Rashad and Quinn's alternating viewpoints.

*Forgotten Dead* Simon and Schuster  
A fresh argument for rioting and looting as our most powerful tools for dismantling white supremacy. Looting--a crowd of people publicly, openly, and directly seizing goods--is one of the more extreme actions that can take place in the midst of social unrest. Even self-identified radicals distance themselves from looters, fearing that violent tactics reflect badly on the broader movement. But Vicky Osterweil argues that stealing goods and destroying property are direct, pragmatic strategies of wealth redistribution and improving life for the working class--not to mention the brazen messages these methods send to the police and the state. All our beliefs about the innate righteousness of property and ownership, Osterweil explains, are built on the history of anti-Black, anti-Indigenous oppression. From slave revolts to labor strikes to the modern-day movements for climate change, Black lives, and police abolition, Osterweil makes a convincing case for rioting and looting as weapons that bludgeon the status quo while uplifting the poor and marginalized. *In Defense of Looting* is a history of violent protest sparking social change, a compelling reframing of revolutionary activism, and a practical vision for a dramatically restructured society.

*The Politics of Nonviolent Action*. with

the Editorial Assistance of Marina Finkelstein Bloomsbury Publishing  
Featuring contributions from top scholars and emerging stars in the field, the *Handbook of Protest and Resistance in China* captures the complexity of protest and dissent in contemporary China, while simultaneously exploring a number of unifying themes. Examining how, when, and why individuals and groups have engaged in contentious acts, and how the targets of their complaints have responded, the volume sheds light on the stability of China's existing political system, and its likely future trajectory.

*Street Spirit* Edward Elgar Publishing  
This volume traces the modern critical and performance history of this play, one of Shakespeare's most-loved and most-performed comedies. The essay focus on such modern concerns as feminism, deconstruction, textual theory, and queer theory.

*Radical Protest in Cold-War West Germany* Vintage

How does gender influence social movements? How do social movements deal with gender? In *Gender and Social Movements*, Jo Reger takes a comprehensive look at the ways in which people organize around gender issues and how gender shapes social movements. Here gender is more than an individual quality, it is a part of the very foundation of social movements, shaping how they recruit, mobilize and articulate their strategies, tactics and identities.

Moving past the gender binary, Reger explores how movements can shift understandings of gender and how backlash and countermovements can often follow gendered movement successes.

Adopting both an intersectional and global lens, the book introduces readers to the idea that gender as a form of societal power is integral in all efforts for social change. With a critical overview across different types of movements and gender activism, such as the women's liberation, #MeToo and transgender rights movements, this book offers a solid foundation for those seeking to understand how gender and social movements interact.

*Collier Business Workout Guide* Beacon Press

When no one's listening, it takes more than shouting louder to be heard. *Street Spirit* is a celebration of some of the most remarkable protests from around the world that have used humour, courage and creativity to bring about change.

Among the many instances of imaginative defiance within, you'll discover the surprising impact of Lego figures in Siberia, red-hatted dwarves in Poland and a donkey holding a press conference in Azerbaijan - not to mention the story of how Darth Vader helped to effect a global arms treaty. With over 100 photographs and accompanying commentary on the power of non-violent protest from human rights campaigner Steve Crawshaw, who has been an eye-witness to some of the most dramatic demonstrations of recent years, *Street Spirit* is a unique visual guide that will inspire, enlighten and entertain.
