Math at the Park Carson-Dellosa Publishing

How and Why to Read and Create Children's Digital Books outlines effective ways of using digital books in early years and primary classrooms, and specifies the educational potential of using digital books and apps in physical spaces and virtual communities. With a particular focus on apps and personalised reading, Natalia Kucirkova combines theory and practice to argue that personalised reading is only truly personalised when it is created or co-created by reading communities. Divided into two parts, Part I suggests criteria to evaluate the educational quality of digital books and practical strategies for their use in the classroom. Specific attention is paid to the ways in which digital books can support individual children's strengths and difficulties, digital literacies, language and communication skills. Part II explores digital books created by children, their caregivers, teachers and librarians, and Kucirkova also offers insights into how smart toys, tangibles and augmented/virtual reality tools can enrich children's reading for pleasure. How and Why to Read and Create Children's Digital Books is of interest to an international readership ranging from trainee or established teachers to MA level students and researchers, as well as designers, librarians and publishers. All are inspired to approach children's reading on and with screens with an agentic perspective of creating and sharing. Praise for How and Why to Read and Create Children's Digital Books 'This is an exciting and innovative book - not

least because it is freely available to read online but because its origins are in primary practice. The author is an accomplished storyteller, and whether you know, as yet, little about the value of digital literacy in the storymaking process, or you are an accomplished digital player, this book is full of evidence-informed ideas, explanations and inspiration.' Liz Chamberlain, Open University 'At a time when children's reading is increasingly on-screen, many teachers, parents and carers are seeking practical, straightforward guidance on how to support children's engagement with digital books. This volume, written by the leading expert on personalised e-books, is packed with app reviews, suggestions and insights from recent international research, all underpinned by careful analysis of digital book features and recognition of reading as a social and cultural practice. Providing accessible guidance on finding, choosing, sharing and creating digital books, it will be welcomed by those excited by the possibilities of enthusing children about reading in the digital age.' Cathy Burnett, Professor of Literacy and Education, Sheffield Hallam University **Primary English Curriculum Guide Carson-Dellosa Publishing** Book Features: • Ages 5-7, Grades K-2, Guided Reading Level J, Lexile measure 400L • 24 pages, 8 inches x 8 inches • Simple, easy-to-read pages with full-color pictures • Includes vocabulary list, photo glossary, and hands-on review activity • Reading/teaching tips and index included Math Learning Made Fun: In Math on My Path: Math at the Park, your beginning reader explores the ways math hides in the park. With dogs to count, toys to measure, and shapes to compare, this 24-page book helps kids see math all around them. Bringing Math To Life: Part of the Math on My Path series, the fun book helps kindergarteners through 2nd graders think like math detectives as they explore familiar places for basic math concepts, including addition, subtraction, geometry, and more. Build Math And Reading Skills: As your child improves their number sense, this kids' book also helps your child learn essential reading comprehension skills with guided pre- and post-reading questions, reading tips, and post-reading activities. Easy Nonfiction Books That Teach Key Phonics Skills Routledge

Foster fluency and comprehension with students in grades 2-3 using Partner Read-Alouds: Aesop's Fables. This 64-page book contains high-interest, low-readability passages that make reading fun. It includes 11 leveled stories, each for 3 days of reading together. Day 1 provides an opportunity for teachers to discuss new vocabulary words and the elements of fables. Day 2 allows for students to read, switch roles with their partners, and complete the Checking for Details question sheet. Day 3 instructs students to switch roles again and complete the Thinking About the Story question sheet. The book supports NCTE standards.

Literacy Matters Carson-Dellosa Publishing

'A roaring tale ... remains as vivid and exciting today as it was on publication in 1697' Guardian The pirate and adventurer William Dampier circumnavigated the globe three times, and took notes wherever he went. This is his frank, vivid account of his buccaneering sea voyages around the world, from the Caribbean to the Pacific and East Indies. Filled with accounts of raids, escapes, wrecks and storms, it also contains precise observations of people, places, animals and food (including the first English accounts of guacamole, mango chutney and chopsticks). A bestseller on publication, this unique record of the colonial age influenced Robinson Crusoe, Gulliver's Travels and consequently the whole of English literature. Edited with an Introduction by Nicholas Thomas
