Becoming a Teacher of Writing in Elementary Classrooms nurtures teachers' identities as writers, connects to the realities of writing instruction in real and diverse classrooms, and encourages critical and creative thinking. This text is about writing instruction as a journey teachers and students embark on together. The focus is on learning how to teach writing through specific teaching and learning structures found in the Writing Studio: mini-lessons; teacher and peer conferencing; guided writing; and sharing, celebrating, and broadcasting writing. Pedagogical features include teaching structures and strategies, "Problematizing Practice" classroom scenarios, assessment resources, and a Companion Website. Because a teacher who views him or herself as a writer is best positioned to implement the Writing Studio, a parallel text, Becoming-writer, give readers space to consider who they are as a writer, their personal process as a writer, and who they might become as a writer. **Web, widgets, whiteboards and beyond!** Waveland Press

Personal interactions are the single most effective way for teachers to understand and evaluate their student as learners. Responding specifically to new Common Core State Standards in reading and writing, this book introduces pre- and inservice teachers to a method of one-on-one interaction the authors refer to as the "stretch conference." This book provides detailed practical advice on the logistics of implementing these conferences during the busy school day, including tips on how and when to schedule conferences and how to successfully manage the classroom during conference time. The authors argue that, rather than using valuable conference time for word-level concerns and editing, teachers should focus on more ambitious goals that will deepen (or "stretch") students' skills in comprehension and writing. This resource suggests where conferences fit in with other important pieces of literacy instruction; introduces a variety of high-quality cues to use during conferences; and shows how conferences can function as formative

assessment for reading and writing skills. This book: was written by two veteran teacher educators who conduct frequent workshops and professional development with teachers; helps teachers adjust their instruction for the demands of Common Core Standards; and includes many detailed examples of effective conferences take from real classrooms.

R.E.A.D will help educators turn their students into strategic readers. It presents a collection of strategies based on the 5 + 2 essential elements of literacy instruction: oral language, phonemic awareness, phonics, fluency, vocabulary, comprehension, and writing. Each section contains a brief conceptual overview as well as specific strategies that can be used to facilitate the development of that literacy process. A graphic at the beginning of each strategy identifies when it should be used, the most appropriate group size, and the grade levels for which it would be most applicable. Additional references and/or other resources are also provided at the end of each strategy description to provide educators with more information.
