The most respected and accomplished authorship team in high school biology,

Ken Miller and Joe Levine are real

scientists and educators who have

dedicated their lives to scientific

literacy. Their experience, knowledge,

and insight guided them in creating

this breakaway biology program -- one

that continues to set the standard for

clear, accessible writing. Brand-new

content includes the latest scholarship

on high-interest topics like stem cells,

genetically modified foods, and

antibiotics in animals.

Pearson Prentice Hall

Bring content to life with the interactive whiteboard ready products for Prentice Hall Chemistry. Prentice Hall Chemistry meets the needs of students with a range of abilities, diversities, and learning styles by providing real-world connections to chemical concepts and processes. The first nine chapters introduce students to the conceptual nature of chemistry before they encounter the more rigorous mathematical models and concepts in later chapters. The technology backbone of the program is the widely praised Interactive Textbook with ChemASAP!, which provides frequent opportunities to practice and reinforce key concepts with tutorials that bring chemistry to students through: Animations, Simulations, Assessment, and Problem-solving tutorials.
