**Readers' Guide to Periodical Literature Verso Books**  
A milestone in the understanding of British history and imperialism, this ground-breaking book radically reinterprets the course of modern economic

development and the causes of overseas expansion during the past three centuries. Employing their concept of 'gentlemanly capitalism', the authors draw imperial and domestic British history together to show how the shape of the nation and its economy depended on international and imperial ties, and how these ties were undone to produce the post-colonial world of today. Containing a significantly expanded and updated Foreword and Afterword,

---

this third edition assesses the development of the debate since the book 's original publication, discusses the imperial era in the context of the controversy over globalization, and shows how the study of the age of empires remains relevant to understanding the post-colonial world. Covering the full extent of the British empire from China to South America and taking a broad chronological view from the seventeenth century to post-imperial Britain

today, British Imperialism: 1688 – 2015 is the perfect read for all students of imperial and global history. Curzon and British Imperialism in the Middle East, 1916-19 ABC-CLIO Gale Researcher Guide for: Rudyard Kipling: Parables of Empire Building is selected from Gale's academic platform Gale Researcher. These study guides provide peer-reviewed articles that allow students early success in finding scholarly materials and to gain the confidence and vocabulary needed to pursue deeper research.

*Science Fiction: A Guide for the Perplexed* Routledge  
The revised edition of Robert Stern's book

---

brings India's story up to date. Since its original publication in 1993, much has altered and yet central to the author's argument remains his belief in the remarkable continuity and vitality of India's social systems and its resilience in the face of change. This is a colourful, readable and comprehensive introduction to modern India. In a journey through its family households and villages, the author explains its long-lived and little understood caste and class systems, its venerable faiths and extraordinary ethnic diversity, its history as 'the jewel in the crown' of British imperialism and its post-Independence career as a major agricultural and

industrial nation. While paradoxes abound in an India which is constantly transforming, Stern demonstrates how and why it remains the largest and most enduring democracy in the developing world.

*Reader's Guide to Lesbian and Gay Studies* British Imperialism

This guide offers a succinct, easy-to-read introduction to the key issues and historiography of British imperialism from the late 18th century to 2002. Each chapter addresses questions posed by the nature of imperialism in its

various military, economic, political and cultural forms, while current controversies - including the impact of Orientalism and post-colonialism - are explained and set in the context of previous debates. The first book in Palgrave Macmillan's new "Histories and Controversies" series, "British Imperialism" enables readers to rapidly assimilate both historiography and key aspects of Britain's imperial power and influence.

**Guide to Travel Narrative** Gale, Cengage Learning From its beginnings in the works of H.G. Wells and Jules Verne to the virtual worlds of William Gibson's *Neuromancer* and *The Matrix*, *Science Fiction: A Guide to the Perplexed* helps students navigate the often perplexing worlds of a perennially popular genre. Drawing on literature as well as example from film and television, the book explores the different answers that criticism has offered to the vexed question, 'what is science fiction?' Each chapter of the book includes case studies of key texts, annotated guides to further reading and suggestions for class discussion to help students master the full range of contemporary critical approaches to the field, including the scientific, technological and political contexts in which the genre has flourished. Ranging from an understanding of the genre through the stereotypes of 1930s pulps through more recent claims that we are living in a science fictional moment, this volume will provide a comprehensive overview of this diverse and fascinating genre. *Bourgeois Revolution on the Subcontinent* Gale, Cengage Learning "Democracy is the road to socialism." --Karl Marx Socialism was one of the formative forces of the modern world, and its complex history stretches back nearly three centuries. But

---

what, exactly, does socialism mean? This informative and impartial guide takes you through socialism's origins to its contemporary interpretations, covering: Socialism's founders, including Sir Thomas More, Karl Marx, and Friedrich Engels

Types of socialism, such as Maoism, syndicalism, communism, and green socialism

Basic constructs and beliefs, and current misconceptions

Socialism's impact on America,

including the Red Scare, the Catholic Worker Movement, and the Cold War

Featuring an unbiased but comprehensive view of this controversial theory, *The Everything Guide to Understanding Socialism* is the ultimate resource if you want to learn more about an age-old concept turned modern-day political firestorm.

Taylor & Francis

The Sunday Times

Top 10 bestseller on

India's experience of British colonialism, by the internationally-acclaimed author and diplomat Shashi Tharoor 'Tharoor's impassioned polemic slices straight to the heart of the darkness that drives all empires ... laying bare the grim, and high, cost of the British Empire for its former subjects. An essential read'

Financial Times

In the eighteenth century, India's share of the world economy was as large as Europe's. By 1947, after two centuries of British rule, it had decreased six-fold. The Empire blew rebels from cannon, massacred unarmed protesters,

---

entrenched institutionalised racism, and caused millions to die from starvation. British imperialism justified itself as enlightened despotism for the benefit of the governed, but Shashi Tharoor takes demolishes this position, demonstrating how every supposed imperial 'gift' - from the railways to the rule of law - was designed in Britain's interests alone. He goes on to show how Britain's Industrial Revolution was founded on India's deindustrialisation, and the destruction of its textile industry. In this bold and incisive

reassessment of colonialism, Tharoor exposes to devastating effect the inglorious reality of Britain's stained Indian legacy. **Inglorious Empire** Yale University Press  
A timely and provocative comparison of the British and American empires: are they alike, or are they very different beasts? The present American "empire" is often compared with the British one of yore--not surprising in view of the fact that Afghanistan and Iraq were once British imperial stamping grounds, too. But how alike

are the two empires really? What are the connections between them? And what can we learn from the comparison? In this compellingly written book, a leading historian of the British empire explores these questions in depth for the first time. Bernard Porter finds that Britain and America had uncannily similar imperial histories before the present day, but that now considerable differences exist. He argues that post-2001 American imperialism is an imperialism of a different sort--a "super-imperialism" that no longer

---

repeats British imperialism but now transcends it. Porter's comparison illuminates British imperialism, including Tony Blair's; the American version of imperialism administered under George W. Bush; and the relation of imperialism to such phenomena as capitalism, globalization, free trade, and international security. His insights are often surprising and always original and thought-provoking. **A Study Guide for Rudyard Kipling's "Rikki-Tikki-Tavi"** Gale, Cengage Learning  
This comprehensive

and versatile reference source will be a most important tool for anyone wishing to seek out information on virtually any aspect of British affairs, life and culture. The resources of a detailed bibliography, directory and journals listing are combined in this single volume, forming a unique guide to a multitude of diverse topics - British politics, government, society, literature, thought, arts, economics, history and geography. Academic subjects as taught in British colleges and universities are

covered, with extensive reading lists of books and journals and sources of information for each discipline, making this an invaluable manual. **1688-2015** Cengage Learning  
A magisterial history of resistance to the rising of the British empire As the call for a new understanding of our national history grows louder, Britain's Empire turns the received imperial story on its head. Richard Gott recounts the long-overlooked narrative of resisters, revolutionaries and revolters who stood up to the might of the Empire. In a story of almost continuous colonialist violence, Britain's crimes unspool from the

---

beginning of the eighteenth century to the Indian Mutiny, spanning the globe from Ireland to Australia. Capturing events from the perspective of the colonised, Gott unearths the all-but-forgotten stories excluded from mainstream histories. *British Sources of Information* Cambridge University Press John Fisher explores the acquisitive thinking which, from the autumn of 1914, drove the Mesopotamian Expedition, and examines the political issues, international and imperial, delegated to a War Cabinet committee under Lord Curzon. The motives of Curzon and others in attempting to obtain a

privileged political position in the Hejaz are studied in the context of inter-Allied suspicions and Turkish intrigues in the Arabian Peninsula. This is a penetrating study of war imperialism, when statesmen contemplated strong measures of control in several areas of the Middle East. The Shadows of Empire Routledge Britain and Empire, 1880-1945 traces the relationship between Britain and its empire during a period when the two spheres intersected with one another to an unprecedented degree. The story starts with the imperial expansion of the late nineteenth century and ends with the Second World War, at the end of

which Britain was on the brink of decolonisation. The author shows how empire came to figure into almost every important development that marked Britain's response to the upheavals of the late nineteenth century and first half of the twentieth century. He examines its influence on foreign policy, party politics, social reforms, cultural practices, and national identity. At the same time, he shows how domestic developments affected imperial policies. Written in an engaging and accessible manner, this book: integrates British and imperial history in a single narrative provides a useful synthesis of recent historical

---

research in the area analyses topics ranging from ideology and culture to politics and foreign affairs contains a chronology, glossary, who's who and guide to further reading Britain and Empire, 1880-1945 provides an up-to-date, accessible survey, ideal for students coming to the subject for the first time.
