Imperialism and
Expansionism in American
History New York : M[onthly]
R[evue] Press
"The focus of this book is
the emerging economic

confrontation between
European and U.S.
capitalism at the end of the
'golden age' of capitalism in
the late 1960s. Ernest
Mandel here paints a
remarkably clear,
comprehensive, and detailed
portrait of trends at that
critical period. Mandel
moves with ease from the
most general international
problems to the specifics of
corporate activity, and few
developments in the
business and economic
worlds seem to have
escaped his attention. His
story starts with the erosion
of the enormous power
possessed by American
capitalism at the close of
World War II. Compelled by
the exigencies of its counter-
revolutionary role to revive
the European and Japanese
economies, the U.S. then

found itself confronted by
formidable competitors in
both the Eastern and
Western hemispheres. But
this competition was
constrained by the process
of international concentration
of capital; capital, spilling
over outmoded national
boundaries, interpenetrated
to modify the competition
both between Europe and
America and among the
European states
themselves. Despite this,
capital proved very far from
being able to free itself from
national attachments, from
the interests of a specific
national bourgeoisie" --

A Diplomatic History Bloomsbury
Publishing
The United States has been fighting
wars constantly since invading
Afghanistan in 2001. This nonstop
warfare is far less exceptional than

it might seem: the United States has been at war or has invaded other countries almost every year since independence. In *The United States of War*, David Vine traces this pattern of bloody conflict from Columbus' s 1494 arrival in Guantanamo Bay through the 250-year expansion of a global US empire. Drawing on historical and firsthand anthropological research in fourteen countries and territories, *The United States of War* demonstrates how US leaders across generations have locked the United States in a self-perpetuating system of permanent war by constructing the world' s largest-ever collection of foreign military bases—a global matrix that has made offensive interventionist wars more likely. Beyond exposing the profit-making desires, political interests, racism, and toxic masculinity underlying the country' s relationship to war and empire, *The United States of War* shows how the long history of U.S. military expansion shapes our daily lives, from today' s multi-trillion – dollar wars to the pervasiveness of violence and militarism in everyday U.S. life. The book concludes by confronting the catastrophic toll of American wars—which have left millions dead, wounded, and displaced—while offering proposals for how we can end the fighting.

The United States of War ABC-CLIO

USAs historie indtil 1996
U.S. Imperialism and Black Slavery in the South Seas After the Civil War Simon and Schuster

Named one of the ten best books of the year by the

Chicago Tribune A Publishers Weekly best book of 2019 | A 2019 NPR Staff Pick A pathbreaking history of the United States' overseas possessions and the true meaning of its empire We are familiar with maps that outline all fifty states. And we are also familiar with the idea that the United States is an "empire," exercising power around the world. But what about the actual territories—the islands, atolls, and archipelagos—this country has governed and inhabited? In *How to Hide an Empire*, Daniel Immerwahr tells the fascinating story of the United States outside the United States. In crackling, fast-paced prose, he reveals forgotten episodes that cast American history in a new light. We travel to the Guano Islands, where prospectors collected one of the nineteenth century's most valuable commodities, and the Philippines, site of the most destructive event on U.S. soil. In Puerto Rico, Immerwahr shows how U.S. doctors conducted grisly experiments they would never have conducted on the mainland and charts the emergence of independence fighters who would shoot up the U.S. Congress. In the years after World War II, Immerwahr notes, the United States moved away from colonialism. Instead, it put innovations in electronics, transportation, and culture to

use, devising a new sort of influence that did not require the control of colonies. Rich with absorbing vignettes, full of surprises, and driven by an original conception of what empire and globalization mean today, *How to Hide an Empire* is a major and compulsively readable work of history.

Reading Joyce After the Cold War Macmillan

A timely and provocative comparison of the British and American empires: are they alike, or are they very different beasts? The present American "empire" is often compared with the British one of yore--not surprising in view of the fact that Afghanistan and Iraq were once British imperial stamping grounds, too. But how alike are the two empires really? What are the connections between them? And what can we learn from the comparison? In this compellingly written book, a leading historian of the British empire explores these questions in depth for the first time. Bernard Porter finds that Britain and America had uncannily similar imperial histories before the present day, but that now considerable differences exist. He argues that post-2001 American imperialism is an imperialism of a different sort--a "super-imperialism" that no longer repeats British imperialism but now transcends it. Porter's comparison illuminates British

imperialism, including Tony Blair's; the American version of imperialism administered under George W. Bush; and the relation of imperialism to such phenomena as capitalism, globalization, free trade, and international security. His insights are often surprising and always original and thought-provoking.

A History of American Imperialism from Benjamin Franklin to Paul Wolfowitz John Wiley & Sons

The Historical Guides to American Authors is an interdisciplinary, historically sensitive series that combines close attention to the United States' most widely read and studied authors with a strong sense of time, place, and history. Placing each writer in the context of the vibrant relationship between literature and contemporary social, political, and cultural relevance, they also include a capsule biography and illustrated chronology detailing important cultural events as they coincided with the author's life and works, while photographs and illustrations dating from the period capture the flavor of the author's time and social milieu. Equally accessible to students of literature and of life, the volumes offer a complete and rounded picture of each author in his or her America. -- back cover.

British Imperialism Princeton University Press

The second in a two-volume bibliography on church-state relations in U.S. history, this book contains eleven critical essays and accompanying

bibliographical listings on periods or topics from the Civil War to the present day. Each essay reviews the available relevant literature, and the listings emphasize critical studies and documents published in the last quarter-century. This reference work will enable the reader to grasp the historiographic issues, become acquainted with the resources available, and move on to interpret current as well as past issues more knowledgeably and effectively.

A True History of the United States Beacon Press

Adapted from the critically acclaimed chronicle of U.S. history, a study of American expansionism around the world is told from a grassroots perspective and provides an analysis of important events from Wounded Knee to Iraq, in a volume created in the format of a graphic novel. Simultaneous. 100,000 first printing.

A Social, Political, and Cultural Encyclopedia and Document Collection Truth to Power

"Thought-provoking—a must read for [everyone] seeking a firm grasp of accurate American history." —Kirkus (starred review) Brilliant, readable, and raw. Maj. (ret.) Danny Sjursen, who served combat tours in Iraq and Afghanistan and later taught history at West Point, delivers a true epic and the perfect companion to Howard Zinn's *A People's History of the United States*. Sjursen shifts the lens and challenges readers to think

critically and to apply common sense to their understanding of our nation's past—and present—so we can view history as never before.

A True History of the United States was inspired by a course that Sjursen taught to cadets at West Point, his alma mater. With chapter titles such as "Patriots or Insurgents?" and "The Decade That Roared and Wept", *A True History* is accurate with respect to the facts and intellectually honest in its presentation and analysis. • Essential reading for every American with a conscience. • Meticulously researched, Sjursen provides a more complete sense of history and encourages readers to view our country objectively. • Sjursen's powerful storytelling reveals balanced portraits of key figures and the role they played.

"Sjursen exposes the dominant historical narrative as at best myth, and at times a lie . . . He brings out from the shadows those who struggled, often at the cost of their own lives, for equality and justice. Their stories, so often ignored or trivialized, give us examples of who we should emulate and who we must become." —Chris Hedges, author of *Empire of Illusion* and *America: The Farewell Tour* American Imperialism in 1898 Routledge

This four-volume encyclopedia chronicles the historical roots of the United States' current military dominance, documenting its growth from continental expansionism to hemispheric hegemony to global empire.

The Civil War to the Present Day Houghton Mifflin College Division

Originally published in Spanish in 1992, this is an examination of economic relations between Spain and Spanish America in the colonial period, and of their implications for the economic structures of both parties from the beginning of Spanish imperialism until the outbreak of the Spanish-American revolutions for independence.

The Economic Aspects of Spanish Imperialism in America, 1492-1810

How to Hide an Empire: A History of the Greater United States

“Uncompromising and unconventional . . . Cornel West is an eloquent prophet with attitude.” —Newsweek
“West reveals himself as a thinker of dazzling erudition, whose critiques are inevitably balanced by an infectious optimism and magnanimity of spirit.” —The Village Voice
In his major bestseller, *Race Matters*, philosopher Cornel West burst onto the national scene with his searing analysis of the scars of racism in American democracy. *Race Matters* has become a contemporary classic, still in print after ten years, having sold more than four hundred thousand copies. A mesmerizing speaker with a host of fervidly devoted

fans, West gives as many as one hundred public lectures a year and appears regularly on radio and television. Praised by *The New York Times* for his “ferocious moral vision” and hailed by *Newsweek* as “an elegant prophet with attitude,” he bridges the gap between black and white opinion about the country’s problems. In *Democracy Matters*, West returns to the analysis of the arrested development of democracy—both in America and in the crisis-ridden Middle East. In a strikingly original diagnosis, he argues that if America is to become a better steward of democratization around the world, we must first wake up to the long history of imperialist corruption that has plagued our own democracy. Both our failure to foster peace in the Israeli-Palestinian conflict and the crisis of Islamist anti-Americanism stem largely from hypocrisies in our dealings with the world. Racism and imperial expansionism have gone hand in hand in our country’s inexorable drive toward hegemony, and our current militarism is only the latest expression of that drive. Even as we are shocked by Islamic fundamentalism, our

own brand of fundamentalism, which West dubs Constantinian Christianity, has joined forces with imperialist corporate and political elites in an unholy alliance, and four decades after the murder of Dr. Martin Luther King, Jr., insidious racism still inflicts debilitating psychic pain on so many of our citizens. But there is a deep democratic tradition in America of impassioned commitment to the fight against imperialist corruptions—the last great expression of which was the civil rights movement led by Dr. King—and West brings forth the powerful voices of that great democratizing tradition in a brilliant and deeply moving call for the revival of our better democratic nature. His impassioned and provocative argument for the revitalization of America’s democracy will reshape the terms of the raging national debate about America’s role in today’s troubled world.

Europe Vs. America:

Contradictions of Imperialism

Univ of California Press

This book re-presents the poetry of Rudyard Kipling in the form of bold slogans, the better for us to reappraise the meaning and import of his words and his art. Each line or phrase is thrust at the

reader in a manner that may be inspirational or controversial... it is for the modern consumer of this recontextualization to decide. They are words to provoke: to action. To inspire. To recite. To revile. To reconcile or reconsider the legacy and benefits of colonialism. Compiled and presented by sloganist Dick Robinson, three poems are included, complete and uncut: 'White Man's Burden', 'Fuzzy-Wuzzy' and 'If'.

Mcdougall Littell the

Americans James Lorimer & Company

"[Book title] ranges over the broad expanse of Oceania to reconstruct the history of "blackbirding" (slave trading) in the region. It examines the role of U.S. citizens (many of them ex-slaveholders and ex-confederates) in the trade and its roots in Civil War dislocations. What unfolds is a dramatic tale of unfree labor, conflicts between formal and informal empire, white supremacy, threats to sovereignty in Hawaii, the origins of a White Australian policy, and the rise of Japan as a Pacific power and putative protector."--Back cover.

The American Pageant

Greenwood Publishing Group Tells the story of the men throughout American history who used the rhetoric of liberty to further imperial ambitions, and argues that the quest for empire has guided the nation's architects from the very beginning--and continues to do so today. By the author of *The CIA in Guatemala*.

The Secret History of the American Empire Yale

University Press

Now part of the HBO docuseries "Exterminate All the Brutes," written and directed by Raoul Peck 2015 Recipient of the American Book Award The first history of the United States told from the perspective of indigenous peoples Today in the United States, there are more than five hundred federally recognized Indigenous nations comprising nearly three million people, descendants of the fifteen million Native people who once inhabited this land. The centuries-long genocidal program of the US settler-colonial regimen has largely been omitted from history.

Now, for the first time, acclaimed historian and activist Roxanne Dunbar-Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans, for centuries, actively resisted expansion of the US empire. With growing support for movements such as the campaign to abolish Columbus Day and replace it with Indigenous Peoples' Day and the Dakota Access Pipeline protest led by the Standing Rock Sioux Tribe, *An Indigenous Peoples' History of the United States* is an essential resource providing historical threads that are crucial for understanding the present. In

An Indigenous Peoples' History of the United States, Dunbar-Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants, displacing or eliminating them. And as Dunbar-Ortiz reveals, this policy was praised in popular culture, through writers like James Fenimore Cooper and Walt Whitman, and in the highest offices of government and the military. Shockingly, as the genocidal policy reached its zenith under President Andrew Jackson, its ruthlessness was best articulated by US Army general Thomas S. Jesup, who, in 1836, wrote of the Seminoles: "The country can be rid of them only by exterminating them." Spanning more than four hundred years, this classic bottom-up peoples' history radically reframes US history and explodes the silences that have haunted our national narrative. *An Indigenous Peoples' History of the United States* is a 2015 PEN Oakland-Josephine Miles Award for Excellence in Literature.

A People's History of American Empire CQ Press

Esmeralda Santiago's story begins in rural Puerto Rico, where her childhood was full of both tenderness and domestic strife, tropical sounds and sights as well as poverty. Growing up, she learned the proper way to eat a

guava, the sound of tree frogs in the mango groves at night, the taste of the delectable sausage called morcilla, and the formula for ushering a dead baby's soul to heaven. As she enters school we see the clash, both hilarious and fierce, of Puerto Rican and Yankee culture. When her mother, Mami, a force of nature, takes off to New York with her seven, soon to be eleven children, Esmeralda, the oldest, must learn new rules, a new language, and eventually take on a new identity. In this first volume of her much-praised, bestselling trilogy, Santiago brilliantly recreates the idyllic landscape and tumultuous family life of her earliest years and her tremendous journey from the barrio to Brooklyn, from translating for her mother at the welfare office to high honors at Harvard.

The New Practical Guide to Canadian Political Economy

Historical Guides to American Authors

Was the relationship between English settlers and Native Americans in the New World destined to turn tragic? This book investigates how the newcomers interacted with Algonquian groups in the Chesapeake Bay area and New England, describing the role that original Americans occupied in England's empire during the critical first century of contact. Michael Leroy Oberg considers the history of Anglo-Indian relations in transatlantic context while viewing the frontier as a zone where neither party had the upper hand. He tells how the English pursued three sets of policies in America--securing profit for their

sponsors, making lands safe from both European and native enemies, and civilizing the Indians--and explains why the British settlers found it impossible to achieve all of these goals. Oberg places the history of Anglo-Indian relations in the early Chesapeake and New England in a broad transatlantic context while drawing parallels with subsequent efforts by England as well as its imperial rivals--the French, Dutch, and Spanish--to plant colonies in America. Dominion and Civility promises to broaden our understanding of the exchange between Europeans and Indians and makes an important contribution to the emerging history of the English Atlantic world.

Reader's Guide to Military History McDougal

Littell/Houghton Mifflin

This book contains some 600 entries on a range of topics from ancient Chinese warfare to late 20th-century intervention operations. Designed for a wide variety of users, it encompasses general reviews of aspects of military organization and science, as well as specific wars and conflicts. The book examines naval and air warfare, as well as significant individuals, including commanders, theorists, and war leaders. Each entry includes a listing of additional publications on the topic, accompanied by an article discussing these publications with reference to their particular emphases, strengths, and limitations.
