She Reads Truth Houghton Mifflin Harcourt

This is Goldilocks as you've never seen her before She is very definitely NOT sweet and innocent - oh no. She is one of those naughty, haughty little girls who do exactly as they please, when they please. On her way to buy some muffins, Goldilocks ignores her mother's instructions and takes a shortcut through the forest. There, she discovers the three bears' house and saunters right in without even bothering to knock When the three brown bears return from their very pleasant bike ride, they can't believe the scenes of destruction that lie before

them.

Advancing Formative Assessment in Every Classroom Stenhouse Publishers
AN INSTANT NEW YORK TIMES BESTSELLER A REESE'S BOOK CLUB PICK Tired, stressed, and in need of more help from your partner? Imagine running your household (and life!) in a new way... It started with the Sh*t I Do List. Tired of being the "shefault" parent responsible for all aspects of her busy household, Eve Rodsky counted up all the unpaid, invisible work she was doing for her family--and then sent that list to her husband, asking for things to change. His response was...underwhelming. Rodsky realized that simply identifying the issue of unequal labor on the home front wasn't enough: She needed a solution to this universal problem. Her sanity, identity, career, and marriage depended on it. The result is Fair Play: a time- and anxiety-saving system that offers couples a completely new way to divvy up domestic responsibilities. Rodsky interviewed more than five hundred men and women from all walks of life to figure out what the invisible work in a family actually entails and how to get it all done efficiently. With 4 easy-to-follow rules, 100 household tasks, and a series of conversation starters for

you and your partner, Fair Play helps you prioritize what's important to your family and who should take the lead on every chore, from laundry to homework to dinner. "Winning" this game means rebalancing your home life, reigniting your relationship with your significant other, and reclaiming your Unicorn Space--the time to develop the skills and passions that keep you interested and interesting. Stop drowning in to-dos and lose some of that invisible workload that's pulling you down. Are you ready to try Fair Play? Let's deal you in.

Meet instructional challenges effectively and efficiently by uncovering hidden time for meeting individual students' needs. With small groups, you'll work closely with more children each day with her how-tos on using formative assessment to create groups from common needs; differentiating for individuals, even in a group; and enhancing Tier 1 and Tier 2 instruction.

Stellaluna John Wiley & Sons

These days, it seems that everyone has a strong opinion about how to teach young children to read. Some may brush off the current tension as nothing more than one more round of "the reading wars." Others may avoid the clash altogether due to the uncivilized

discourse that sometimes results. Certainly, sorting the signal from the noise is no easy task. In this leading-edge book, authors Jan Burkins and Kari Yates address this tension as a critical opportunity to look closely at the research, reevaluate current practices, and embrace new possibilities for an even stronger enactment of balanced literacy. From phonological processing to brain research to orthographic mapping to self-teaching hypothesis, *Shifting the Balance* cuts through the rhetoric (and the sciencey science) to offer readers a practical guide to decision-making about beginning reading instruction. The authors honor the balanced literacy perspective while highlighting common practices to reconsider and revise--all through a lens of what's best for the students sitting in front of us. Across six shifts, each chapter identifies a common instructional practice to reconsider explores various misunderstandings that establish and keep that practice in play shares scientific research to support its reconsideration proposes an instructional shift to apply a new perspective, and details several high-leverage instructional routines to support implementation of that shift. By pinpointing gaps and overlaps--as well as common misunderstandings and missed opportunities between the competing lines of thought--Jan and Kari offer busy educators

direction and clarification for integrating science and balance into their daily instruction, while keeping meaningful experiences with text a priority.
