Reconstructing the Cold War Palgrave Macmillan

"The Cold War was more of a global conflict than was either of this century's two major wars; far more than a confrontation between states or even empires, it was, as Martin Walker puts it, "a total war between economic and social systems, an industrial test to destruction.""

The Cold War Reference Guide Random House

Whereas the Western perspective on the Cold War has been well documented by journalists and historians, the Soviet side has remained for the most part shrouded in secrecy--until now. Drawing on a vast range of recently released archives in the United States, the United Kingdom, France, Germany, Russia, and Eastern Europe, *Russia's Cold War* offers a thorough and fascinating analysis of East-West relations from 1917 to 1989.

Cold Warriors Routledge

For over forty years much of the world was held captive by a conflict between two wholly incompatible economic ideologies--capitalism and communism--and the two primary superpower countries who practiced them, the United States and the Soviet Union. Written in accessible language for readers with little or no previous knowledge about the subject, this work is first a general history of the Cold War, with an overview of its root causes and the policies and theories that were in place from 1947 through 1990. A thoroughly annotated chronology of important Cold War events follows. Short biographies of some of the major United States political figures and world

leaders conclude the work.

Access to History: The Cold War
1941 – 95 Fourth Edition McFarland
Addresses theory and history in
considering the possibilities for a new
system of collective security

The Cold War Macmillan
Shortly after the Russians
launched Sputnik in 1957,
Hannah Arendt quipped that
"only in America could a
crisis in education actually
become a factor in politics."
The Cold War battle for the
American school - dramatized
but not initiated by Sputnik
- proved Arendt correct. The
schools served as a

battleground in the
ideological conflicts of the
1950s. Beginning with the
genealogy of progressive
education, and ending with the
formation of New Left and New
Right thought, Education and
the Cold War offers a fresh
perspective on the postwar
transformation in U.S.
political culture by way of an
examination of the educational
history of that era.
Origins of the Cold War UNC
Press Books
The definitive history of the
Cold War and its impact
around the world We tend to

think of the Cold War as a bounded conflict: a clash of two superpowers, the United States and the Soviet Union, born out of the ashes of World War II and coming to a dramatic end with the collapse of the Soviet Union. But in this major new work, Bancroft Prize-winning scholar Odd Westad argues that the Cold War must be understood as a global ideological confrontation, with early roots in the Industrial Revolution and ongoing repercussions around the world. In *The Cold War*, Westad offers a new perspective on a century when great power rivalry and ideological battle transformed every corner of our globe. From Soweto to Hollywood, Hanoi, and Hamburg, young men and women felt they were fighting for the future of the world. The Cold War may have begun on the perimeters of Europe, but it had its deepest reverberations in Asia, Africa, and the Middle East, where nearly every community had to choose sides. And these choices continue to define economies and regimes across the world. Today, many

regions are plagued with environmental threats, social divides, and ethnic conflicts that stem from this era. Its ideologies influence China, Russia, and the United States; Iraq and Afghanistan have been destroyed by the faith in purely military solutions that emerged from the Cold War. Stunning in its breadth and revelatory in its perspective, this book expands our understanding of the Cold War both geographically and chronologically and offers an engaging new history of how today's world was created.

The Cold War Encyclopedia Duke University Press

This second edition brings the collection up to date, including the newest research from the Communist side of the Cold War and the most recent debates on culture, race and intelligence.

Cold War Anthropology Cambridge University Press

This book examines Mexico's unique foreign relations with the US and Cuba during the Cold War.

Reviewing the Cold War Penguin
The story of Hong Kong's New Asia College, from its 1949 establishment through its 1963

incorporation into The Chinese University of Hong Kong, reveals the efforts of a group of self-exiled intellectuals in establishing a Confucian-oriented higher education on the Chinese periphery. Their program of cultural education encountered both support and opposition in the communist containment agenda of American non-governmental organizations and in the educational policies of the British colonial government. By examining the cooperation and struggle between these three parties, this study sheds light on postwar Hong Kong, a divided China, British imperial ambitions in Asia, and the intersecting global dynamics of modernization, cultural identity,

and the Cold War.

The Twilight Struggle

HarperCollins

Vividly written and based on up-to-date scholarship, this title provides an

interpretive overview of the international history of the Cold War.

The Cold War Explained for Kids
In the Hands of a Child

Over the last decade, studies of the Cold War have mushroomed globally. Unfortunately, work on Latin America has not been well represented in either theoretical or empirical discussions of the broader conflict. With some notable

exceptions, studies have proceeded in rather conventional channels, focusing on U.S. policy objectives and high-profile leaders (Fidel Castro) and events (the Cuban Missile Crisis) and drawing largely on U.S. government sources. Moreover, only rarely have U.S. foreign relations scholars engaged productively with Latin American historians who analyze how the international conflict transformed the region's political, social, and cultural life. Representing a collaboration among eleven North American, Latin American, and European historians, anthropologists, and political scientists, this volume attempts to facilitate such a cross-fertilization. In the process, *In From the Cold* shifts the focus of attention away from the bipolar conflict, the preoccupation of much of the so-called "new Cold War history," in order to showcase research, discussion, and an array of new archival and oral sources centering on the grassroots, where conflicts actually brewed. The collection's contributors examine international and everyday contests over political power and cultural representation, focusing on

communities and groups above and underground, on state houses and diplomatic board rooms manned by Latin American and international governing elites, on the relations among states regionally, and, less frequently, on the dynamics between the two great superpowers themselves. In addition to charting new directions for research on the Latin American Cold War, In From the Cold seeks to contribute more generally to an understanding of the conflict in the global south. Contributors. Ariel C. Armony, Steven J. Bachelor, Thomas S. Blanton, Seth Fein, Piero Gleijeses, Gilbert M. Joseph, Victoria Langland, Carlota McAllister, Stephen Pitti, Daniela Spenser, Eric Zolov

The Cold War BRILL

In this brilliant account of the literary war within the Cold War, novelists and poets become embroiled in a dangerous game of betrayal, espionage, and conspiracy at the heart of the vicious conflict fought between the Soviet Union and the West. During the Cold War, literature was both sword and noose. Novels, essays, and

poems could win the hearts and split by political fissures, minds of those caught between artists were undermined by the competing creeds of inadvertent complicities. And capitalism and communism. They while literary battles were could also lead to fought in print, sometimes the blacklisting, exile, pen was exchanged for a gun, imprisonment, or execution for the bookstore for the their authors if they offended battlefield. In *Cold Warriors*, those in power. The Duncan White vividly clandestine intelligence chronicles how this ferocious services of the United States, intellectual struggle was Britain, and the Soviet Union waged on both sides of the recruited secret agents and Iron Curtain. Among those established vast propaganda involved were George Orwell, networks devoted to literary Stephen Spender, Mary warfare. But the battles were McCarthy, Graham Greene, personal, too: friends turned Aleksandr Solzhenitsyn, John on one another, lovers were le Carré, Anna Akhmatova,

Richard Wright, Ernest Hemingway, Boris Pasternak, Gioconda Belli, and Václav Havel. Here, too, are the spies, government officials, military officers, publishers, politicians, and critics who helped turn words into weapons at a time when the stakes could not have been higher. Drawing upon years of archival research and the latest declassified intelligence, *Cold Warriors* is both a gripping saga of prose and politics, and a welcome reminder that--at a moment when ignorance is all too

frequently celebrated and reading is seen as increasingly irrelevant--writers and books can change the world.

Latin America's Cold War
Hodder Education

"Here's a book that would've split the sides of Thucydides. Wiener's magical mystery tour of Cold War museums is simultaneously hilarious and the best thing ever written on public history and its contestation." —Mike Davis, author of *City of Quartz* "Jon Wiener, an astute observer of how history is perceived by the general public, shows us how official efforts to shape popular memory of the Cold War have failed. His journey across America to visit exhibits, monuments, and other historical sites, demonstrates how quickly the Cold War has faded from popular consciousness. A fascinating and entertaining book." —Eric Foner, author of *Reconstruction: America's Unfinished Revolution, 1863–1877* "In *How We Forgot the Cold War*, Jon Wiener shows how conservatives tried—and failed—to commemorate the Cold War as a noble victory over the global forces of tyranny, a 'good war' akin to World War II. Displaying splendid skills as a reporter in addition to his discerning eye as a scholar, this historian's

travelogue convincingly shows Cold War, contemporary how the right sought to extend journalism, and his own its preferred policy of observations of various sites 'rollback' to the arena of commemorating the era to public memory. In a country describe both what they where historical memory has contain and, just as become an obsession, Wiener's importantly, what they do not. ability to document the By interrogating the standard ambiguities and absences in conservative brand of American these commemorations is an triumphalism, Wiener offers an unusual accomplishment." —Rick interpretation of the Cold War Perlstein, author of that emphasizes just how Nixonland: The Rise of a unnecessary the conflict was President and the Fracturing and how deleterious its of America "In this terrific aftereffects have really piece of scholarly journalism, been."—Ellen Schrecker, author Jon Wiener imaginatively of Many Are The Crimes: combines scholarship on the McCarthyism in America

Origins of the Cold War

1941-1949 Univ of North Carolina Press

"Outstanding . . . The most accessible distillation of that conflict yet written." —The Boston Globe "Energetically written and lucid, it makes an ideal introduction to the subject." —The New York Times The "dean of Cold War historians" (The New York Times) now presents the definitive account of the global confrontation that dominated the last half of the twentieth century. Drawing on newly opened archives and the reminiscences of the major

players, John Lewis Gaddis explains not just what happened but why—from the months in 1945 when the U.S. and the U.S.S.R. went from alliance to antagonism to the barely averted holocaust of the Cuban Missile Crisis to the maneuvers of Nixon and Mao, Reagan and Gorbachev. Brilliant, accessible, almost Shakespearean in its drama, *The Cold War* stands as a triumphant summation of the era that, more than any other, shaped our own. Gaddis is also the author of *On Grand Strategy*.

The Cold War at Home Basic Books

A graphic account of this

long-running global drama, this newly condensed edition of *The Cold War* is published in a new era of fear and uncertainty, and to mark the 30th anniversary of the fall of the Berlin Wall. Encompassing such high-tension conflicts as the Berlin Crisis of 1961, the Cuban Missile Crisis of 1962, and the nuclear alerts of 1973 and 1983, *The Cold War* captures those moments when the world stood on the brink of nuclear Armageddon. Written by a leading American defense analyst, Dr. Norman Friedman,

this gripping history features 60 photographs and documents--maps, diaries, letters, and items from the Imperial War Museum and other collections. They include a 1963 nuclear attack protective booklet produced for homeowners by the British government and the official pack for US troops passing through Checkpoint Charlie, with practical advice on visiting Communist-controlled East Berlin. At the Abyss Harvard University Press
This volume examines the

origins and early years of the Cold War. In the first comprehensive reexamination of the period, a team of leading scholars shows how the conflict evolved from the geopolitical, ideological, economic and sociopolitical environments of the two world wars and interwar period, and discusses how markets, ideas and cultural interactions affected political discourse, diplomacy and strategy after World War II. The chapters focus not only on the United States and the Soviet Union, but also on critical regions such as Europe, the Balkans and East Asia. The

authors consider the most influential statesmen of the era and address issues that mattered to people around the globe: food, nutrition and resource allocation; ethnicity, race and religion; science and technology; national autonomy, self-determination and sovereignty. In so doing, they illuminate how people worldwide shaped the evolution of the increasingly bipolar conflict and, in turn, were ensnared by it.

The Cold War Era Twenty First Century Books

For Latin America, the Cold War was anything but cold. Nor was

it the so-called "long peace" afforded the world's superpowers by their nuclear standoff. In this book, the first to take an international perspective on the postwar decades in the region, Hal Brands sets out to explain what exactly happened in Latin America during the Cold War, and why it was so traumatic. Tracing the tumultuous course of regional affairs from the late 1940s through the early 1990s, Latin America's Cold War delves into the myriad crises and turning points of the period—the Cuban revolution and its aftermath; the recurring cycles of insurgency and counter-insurgency; the emergence of currents like the National Security Doctrine, liberation theology, and dependency theory; the rise and demise of a hemispheric diplomatic challenge to U.S. hegemony in the 1970s; the conflagration that engulfed Central America from the Nicaraguan revolution onward; and the democratic and economic reforms of the 1980s. Most important, the book chronicles these events in a way that is both multinational and multilayered, weaving the experiences of a diverse cast of characters into an understanding of how global, regional, and

local influences interacted to shape Cold War crises in Latin America. Ultimately, Brands exposes Latin America's Cold War as not a single conflict, but rather a series of overlapping political, social, geostrategic, and ideological struggles whose repercussions can be felt to this day.

The Bloomsbury Handbook to Cold War Literary Cultures

Psychology Press

The Cold War Explained for Kids The 'For Kids' series has been produced for children of seven and over. It is the perfect answer to move your child away from simple picture books to

start enjoying and learning from more challenging reading material. Every book in the series is an exciting story that will boost reading confidence and introduce active and motivating vocabulary.
