From bestselling author David Nasaw, a sweeping new history of the one million refugees left behind in Germany after WWII. In May 1945, after German forces surrendered to the Allied powers, millions of concentration camp survivors, POWs, slave laborers, political prisoners, and Nazi collaborators were left behind in Germany, a nation in ruins. British and American soldiers attempted to repatriate the refugees, but more than a million displaced persons remained in Germany: Jews, Poles, Estonians, Latvians, Lithuanians, Ukrainians, and other Eastern Europeans who refused to go home or had no homes to return to. Most would eventually be resettled in lands suffering from postwar labor shortages, but no nation, including the United States, was willing to accept more than a handful of the 200,000 to 250,000 Jewish men, women, and children who remained trapped in Germany. When in June, 1948, the United States Congress passed legislation permitting the immigration of displaced persons, visas were granted to sizable numbers of war criminals and Nazi collaborators, but denied to 90% of the Jewish displaced persons. A masterwork from acclaimed historian David Nasaw, *The Last Million* tells the gripping but until now hidden story of postwar displacement and statelessness and of the Last Million, as they crossed from a broken past into an unknowable future, carrying with them their wounds, their fears, their hope, and their secrets. Here for the first time, Nasaw illuminates their incredible history and shows us how it is our history as well.

Annotation VOLUME I: Africa VOLUME II: Europe, Central Asia, and Other Regions (volumes sold separately) "This is a superb manuscript, and one that will become a

standard reference in the field for students of conflict and civil war." Robert Bates, Eaton Professor of the Science of Government, Harvard University The two volumes of *Understanding Civil War* build upon the World Bank's prior research on conflict and violence, particularly on the work of Paul Collier and Anke Hoeffler, whose model of civil war onset has sparked much discussion on the relationship between conflict and development in what came to be known as the "greed" versus "grievance" debate. The authors systematically apply the Collier-Hoeffler model to 15 countries in 6 different regions of the world, using a comparative case study methodology to revise and expand upon economic models of civil war. The book concludes that the "greed" versus "grievance" debate should be abandoned for a more complex model that considers greed and grievance as inextricably fused motives for civil war. regions of Somalia. Conflict in Somalia examines the results of the study and offers recommendations for reconstruction and development assistance that takes the knowledge on conflict into account.

I began this project for personal reasons: my uncle had made an enormous personal sacrifice for his family and his country; yet, because of his silence, no one in my family ever fully knew what he endured. As the last living relative who knew him, I felt a responsibility to rescue his story from the shadows before it disappeared forever and to preserve it as a source of pride for my family and me. But a second reason for telling my uncle's story materialized as I assembled the details of his journey. I came to realize that while many GIs experienced extensive combat operations or the trials of being held in a POW camp, very few men survived the amount of combat my uncle experienced and six months in a POW camp. Frank's five-year wartime journey, which included three monumental amphibious invasions, six major battle campaigns, and six months in three different POW camps, was breathtaking in scope. The odds against his surviving all this, or being seriously wounded out of the war, are almost incalculable. Despite the unusual scope of Sergeant Shaw's tour of duty, his day-to-day adventures are quite typical of what tens of thousands of combat infantrymen experienced during WWII. To that extent, the character who emerges in this story is a composite or representative figure, an American Odysseus, whose mission of extraordinary historical significance, requires him to define himself through trial, suffering, courage, and perseverance before he returns home in triumph. But the similarity ends at the triumphant return. Earlier civilizations celebrated their returning warriors at ceremonial feasts. These men were expected to show their wounds and relate their adventures to their countrymen so bards might record them for posterity. Such rituals insured the warrior a rightful place in history, enshrined his virtues, and shed his reflected glory on his community. No such salutary ritual greeted a battered Frank Shaw when he returned from the war; no one saw his wounds or took his testimony. And his silence consigned his deeds to the shadows of time and dimming memory. But the ancient customs were correct — the hero's deeds are not his alone. They are his legacy to his family and his country, and they deserve to be honored not shrouded. Therefore, since Sergeant Frank Shaw, like so many of his World War II comrades in arms, would not, and did not, tell his story, I did.

Book Review 1: "Col. Brian H. Cundiff, USA (Ret), editor, --Blue Spader Newsletter: " I have just finished reading Fellowship of Dust: Retracing the World War II Journey of Sergeant Frank Shaw The book was written by Bill Shaw, his nephew, with a foreword by General Paul Gorman, USA (Ret). Sergeant Shaw served in Company E of the 26th Infantry for five years and survived the horrors of Europe under austere conditions. This is a story that needs to be told and is a must-read for all Blue Spaders. They were truly the

'Greatest Generation'. " -- Blue Spader Newsletter Book Review 2: " As the foreword said, this is a story that deserved to be told. Much more than a biography of a courageous soldier in WW II, while focusing on the author's uncle Frank Shaw, this book vividly captures the horrors of war, the emotions surrounding the battles that young men in Frank Shaw's infantry regiment were forced into, their fears, day by day per the dangers they encountered, and the physical and emotional hardships and scars the war, the frontline and POW experiences left as a result. Having written the book after the subject's death, Bill Shaw must have done an incredible amount of research -- reading letters, e-mailing old friends, interviewing family, friends and colleagues, piecing in facts from numerous books, newspapers and magazines, etc. -- to produce such a comprehensive, very readable story. This was obviously a labor of love and gratitude -- the author's dedication to a real hero. The writing is very even and compelling, with interesting, relevant details, helpful dialogue and scenes of real action and danger. I was very moved by this book. " -- Writer's Digest

The European Union (EU) is a political and economic partnership that represents a unique form of cooperation among sovereign countries. The EU is the latest stage in a process of integration begun after World War II, initially by six Western European countries, to foster interdependence and make another war in Europe unthinkable. The EU currently consists of 28 member states, including most of the countries of Central and Eastern Europe, and has helped to promote peace, stability, and economic prosperity throughout the European continent. The EU has been built through a series of binding treaties. Over the years, EU member states have sought to harmonize laws and adopt common policies on an increasing

number of economic, social, and political issues. EU member states share a customs union; a single market in which capital, goods, services, and people move freely; a common trade policy; and a common agricultural policy. Nineteen EU member states use a common currency (the euro), and 22 member states participate in the Schengen area of free movement in which internal border controls have been eliminated. In addition, the EU has been developing a Common Foreign and Security Policy (CFSP), which includes a Common Security and Defense Policy (CSDP), and pursuing cooperation in the area of Justice and Home Affairs (JHA) to forge common internal security measures. Member states work together through several EU institutions to set policy and to promote their collective interests. In recent years, however, the EU has faced a number of internal and external crises. Most notably, in a June 2016 public referendum, voters in the United Kingdom (UK) backed leaving the EU. The pending British exit from the EU (dubbed "Brexit") comes amid multiple other challenges, including the rise of populist and to some extent anti-EU political parties, concerns about democratic backsliding in some member states (including Poland and Hungary), ongoing pressures related to migration, a heightened terrorism threat, and a resurgent Russia. The United States has supported the European integration project since its inception in the 1950s as a means to prevent another catastrophic conflict on the European continent and foster democratic allies and strong trading partners. Today, the United States and the EU have a dynamic political partnership and share a huge trade and investment relationship. Despite periodic tensions in U.S.-EU relations over the years, U.S. and EU policymakers alike have viewed the partnership as serving both sides' overall strategic and economic interests. EU leaders are anxious about the Trump Administration's commitment to the EU project, the transatlantic partnership, and an open international trading system-especially amid the Administration's imposition of tariffs on EU steel and aluminum products since 2018 and the prospects of future auto tariffs. In July 2018, President Trump reportedly called the EU a "foe" on trade but the Administration subsequently sought to de-escalate U.S.-EU tensions and signaled its intention to launch new U.S.-EU trade negotiations. Concerns also linger in Brussels about the implications of the Trump Administration's "America First" foreign policy and its positions on a range of international issues, including Russia, Iran, the Israeli-Palestinian conflict, climate change, and the role of multilateral institutions. This report serves as a primer on the EU. Despite the UK's vote to leave the EU, the UK remains a full member of the bloc until it officially exits the EU (which is scheduled to occur by October 31, 2019, but may be further delayed). As such, this report largely addresses the EU and its

institutions as they currently exist. It also briefly describes U.S.-EU political and economic relations that may be of interest.

Excerpt: "Now that we are definitely in the process of recovery, lines have been rightly drawn between those to whom this recovery means a return to old methods—and the number of these people is small—and those for whom recovery means a reform of many old methods, a permanent readjustment of many of our ways of thinking and therefore of many of our social and economic arrangements..."

It transformed not only the states-system of the Continent but the whole climate of European moral and political thought. Against the backdrop of World War II tragedy and devastation in Latvia, Poland and Germany and three decades of European history, this true narrative provides a window into the palpating heart of wartime upheaval through the lives of Rolf Dutzmann and Lilo Wassull—two people fatefully positioned "on the other side." In December of 1939, swept along on a tide of dire necessity and circumstance due to the imminent Soviet takeover of his homeland, Rolf, a young Latvian aeronautical engineering student, flees with his family to Germany, a country fully under Hitler's control and already engaged in a brutal war. While the account chronicles Rolf's pursuit of his technical dream against daunting wartime odds, it is first and foremost a poignant love story that plays out against a panorama of worldwide chaos and destruction. It is also a story of the seen and unseen forces that coalesce to keep Rolf and Lilo alive after they meet in 1940 Berlin, leading them through a chain of cataclysmic events including Rolf's draft into the Luftwaffe and his father's assignment as chief inspector of V-2 rocket production; the bombing of Berlin; the destruction of their homes; their numerous desperate, cross-country escapes from the bombing, the advancing Soviet troops from the east, and other Allied forces from the west; the POW camp hardships; and the deprivation of the postwar years. Despite the immeasurable evil, suffering and desolation of World War II, a synchronistic chain of events provides an uplifting reminder that love and hope may take wing even out of the ashes of life's most terrifying adversities.
