This is an activity-based book that brings Roman civilization to life and shows how the Romans shaped today's world. It is one of a series which adopts an unusual approach to history, and shows how the Romans lived, the different cultures which surrounded them and their religious and cultural beliefs. The text gives answers to why the Roman Empire was so powerful; how the army defended its vast borders; what life was like for a household slave or a gladiator at the Colosseum; why the emperors called themselves first citizens and whether they really threw Christians to the lions. Clear, practical instructions are given for model-making which can be constructed by children or together with parents, and suggestions are given for class history projects. The creators of this series are recipients of the 1994 American Institute of Physics Science Writing Award.

Explore the Captivating History of the Roman Republic When we think of ancient Rome, the first notion that comes to mind is the one of the empire, followed by the image of a mighty emperor, his legions, colossal buildings, and the Gladiators (or the rhetoric and poetry, depending on your preferences). Some may recall the image of a "unified" Europe under a single sovereign - the emperor of Rome. However, Rome did not become remarkable at this considerably late phase. In fact, many historians see the history of Rome under the Emperors as a long, gradual decline. It was during the Republic that Rome gained an empire. Most of the achievements that the first emperor of Rome, Octavian Augustus, claimed to have completed were, in fact, earned during the Roman Republic. In this book, we'll have a close look at the beginning of Roman civilization, the foundation of the city and the Senate, the expansion of the Roman Republic, its glory, and its end. Some of the topics covered in this book include: The Past that Made It Possible: The Foundation of Rome between Myth and History Down with the Kings: The Past that Made It Happen Early Republic Military Achievements of Early Republic: Taking Italy Middle

The average Christian knows somewhat how dangerous radical Islam is because of the regular media coverage of beheadings of Christians, Jews, and even young little children, not to mention Muslims with which they disagree. However, the average Christian does not know their true beliefs, just how many there are, to the extent they will go to carry out these beliefs. Daily we find Islamic commentators on the TV and radio, offering up misleading information, quoting certain portions of the Quran while leaving other parts out. When considering Islamic beliefs, other Islamic writings must be considered, like the Hadith or Sunnah, and the Shariah, or canon law. While Islam, in general, does not support radical Islam, the vast majority do support radical beliefs. For example, beheadings, stoning for adultery or homosexuality, suicide bombings, turning the world into an Islamic state, and far too many other heinous things. THE GUIDE TO ANSWERING ISLAM provides Christians with an overview of Islamic terminology. The reader will learn about Muhammad's calling, the history of the Quran, how Islam expanded, the death of Muhammad and the splinter groups that followed. In addition, the three sources of their teaching, six pillars of belief,

five pillars of Islam, the twelfth Imam, and much more will be discussed. While there are several books on Islam and radical Islam, this will be the first that will prepare its readers to communicate effectively with Muslims in an effort toward sharing biblical truths. THE GUIDE TO ISLAM will be an effective evangelism tool. In addition, each chapter will end with review questions, helping the reader recall the main points of the chapter. Therefore, it can be studied alone or in a church Bible study setting. THE GUIDE TO ANSWERING ISLAM has the contents constructed in a way that will greatly serve the Christian Church. There are many recent books written by Christians about Islam, and there are many books written recently about radical Islam. However, none of these recent books attempts to do what has been done, which is to give an adequate portrayal of Islam, critiqued by history and Christian doctrine, and then culminating in an extensive evaluation of the rise of Radical Islam from a Christian's perspective. *Tiberius* Penguin
