Nursing*

Between 1992 and 1996, the Agency for Health Care Policy and Research (now the Agency for Healthcare Research and Quality) sponsored development of a series of 19 clinical practice guidelines. These guideline products are no longer viewed as guidance for current medical practice, and are provided for archival purposes only.

Guidelines For Home Health

"Clinical practice guidelines are systematically developed statements to assist practitioner and patient decisions about appropriate health care for specific clinical circumstances." (Institute of Medicine, 1990) Issued by third-party organizations, and not NCCIH, these guidelines define the role of specific diagnostic and treatment modalities in the diagnosis and management of patients.
