Risk identification - Project Management Institute

Many screening tools and the UK NICE guidelines (NCCAC, 2006) include an 'action plan'; for example, referral for full nutritional assessment by a dietitian where the tool indicates malnourishment or high risk; monitoring and review of weight/dietary intake for those identified as 'at risk'.

Guidelines for Identifying Tools - shcg.org.uk Although the PMBOK Guide outlines a methodology for managing risk, its process for identifying risk--this author observes--lacks internal structure. Because of this lack, project managers may find it difficult to decide which tool to use, as well as understand why and how to use it. This paper examines a logical approach for applying the PMBOK Guide's process for identifying risk. In doing so ...
