The College Instructor 's Guide to Writing Test Items: Measuring Student Learning

---

addresses the need for direct and clear guidance on item writing for assessing broad ranges of content in many fields. By focusing on multiple-choice response items, this book provides college instructors the tools to understand, develop, and use assessment activities in classrooms in a way that consistently supports learning. Including dozens of example items and additional resources to support the item development process, this volume is unique in its practical-focus, and is essential reading for instructors and soon-to-be educators, professional development specialists, and higher education researchers. As teaching, assessment, and learning are inherently intertwined, *The College Instructor's Guide to Writing Test Items* both facilitates the development of

instructors' own practice and improves the learning outcomes and success of students.

While most English professionals feel comfortable with language and literacy theories, assessment theories seem more alien. English professionals often don't have a clear understanding of the key concepts in educational measurement, such as validity and reliability, nor do they understand the statistical formulas associated with psychometrics. But understanding assessment

---

theory—and applying it—by those who are not psychometricians is critical in developing useful, ethical assessments in college writing programs, and in interpreting and using assessment results. A Guide to College Writing Assessment is designed as an introduction and source book for WPAs, department chairs, teachers, and administrators. Always cognizant of the critical components of particular teaching contexts, O’Neill, Moore, and Huot have written sophisticated but accessible chapters on the history, theory, application and background of writing assessment, and they offer a dozen appendices of practical samples and models for a range of common assessment needs. Because there are numerous resources available to assist faculty in assessing the writing of individual students in particular classrooms, A Guide to College Writing Assessment focuses on approaches to the kinds of assessment that typically happen outside of individual classrooms: placement evaluation, exit examination, programmatic assessment, and faculty evaluation. Most of all, the argument of this book is that creating the conditions for

---

meaningful college writing assessment hinges not only on understanding the history and theories informing assessment practice, but also on composition programs availing themselves of the full range of available assessment practices.

Writing College Papers has helped them to develop this critical skill. In the new fourth edition of Turabian's popular guide, the team behind Chicago's widely respected The Craft of Research has reconceived and renewed this classic for today's generation. Designed for less advanced writers than Turabian's Manual of Writers of Research Papers, Theses, and Dissertations, Seventh Edition, Gregory G. Colomb and Joseph M. Williams here introduce students to the art of defining a topic, doing high-quality research with limited resources, and writing an engaging and solid college paper. The Student's Guide is organized into three sections that lead students through the process of developing and revising a paper. Part 1, "Writing Your Paper," guides students through the research process with discussions of choosing and developing a topic, validating sources, planning arguments, writing drafts, avoiding plagiarism, and presenting evidence in tables and figures. Addressing the same range of topics as Turabian's *A Manual for Writers of Research Papers, Theses, and Dissertations* but for beginning writers and researchers, this guide introduces students to the art of formulating an effective argument, conducting high-quality research with limited resources, and writing an engaging class paper. This new edition includes fresh examples of research topics, clarified terminology, more illustrations, and new information about using online sources and citation software. It features updated citation guidelines for Chicago, MLA, and APA styles, aligning with the latest editions of these popular style manuals. It emphasizes argument, research, and writing as extensions of activities that students already do in their everyday lives. It also includes a more expansive view of what the end product of research might be, showing that knowledge can be presented in more ways than on a printed page. Friendly and authoritative, the fifth edition of *Student's Guide to Writing College Papers* combines decades of expert advice with new revisions based on feedback from students and teachers. Time-tested and teacher-approved, this book will prepare students to be better critical thinkers and help them develop a sense of inquiry that will serve them well beyond the classroom. Writing is a varied critical and imaginative process, not a rigid adherence to a set of conventions. Based on that premise, the third edition of College Writing, like its previous editions, continually exhorts students to find and celebrate their own voices. In fact, it is this affirmation of individual creativity that sets College Writing apart from other process-oriented rhetorics. Lively and conversational in tone, the third edition boasts a writer-to-writer perspective that will put students at ease. College Writing walks students through the main elements of writing, from discovery and research to revising and editing. At the same time, author Toby Fulwiler allows for many

---

detours in his step-by-step approach, with frequent reminders that everyone's processes are unique and that establishing and maintaining a personal voice can be achieved while meeting conventional academic expectations. Fulwiler examines the different, yet overlapping stages of writing. He addresses rhetorical issues of audience, purpose, and voice, as well as the details of field, library, and Internet research, with particular attention to evaluating sources. He also offers these new features to keep students and teachers up to date: new Web-based research information the most recent MLA guidelines increased coverage of visual elements of texts more on approaches to writing "alternative" pieces a look at the role of creative nonfiction in an academic setting With frequent examples of the best of undergraduate writing for inspiration, the inclusion of student statements about their writing problems for reassurance, and appended guides to portfolios, punctuation, and publishing for reference, *College Writing, Third Edition*, is a student's best companion for starting the writing process right. Since 1983, Toby Fulwiler has directed the writing program at the University of Vermont, where he teaches writing and literature courses. Author of *Teaching with Writing* (1987) and coauthor of *The Letter Book* (2000), both published by Boynton/Cook, he
