"The Common Core State Standards (CCSS) are the first academic standards to be independently adopted by almost every state in the country. The purpose and intent of the Common Core standards for English Language Arts (ELA), as well as Literacy in History/Social Studies and Science Education, are the focus of this book. Each of the chapters addresses one of the

major English Language Arts domains: literature, informational texts, foundational skills, writing, speaking and listening, language, technology, and assessment. The objective of the chapters is twofold: to provide a theoretical background and detailed explanation of each of the CCSS/ELA standards, as well as practical suggestions, classroom vignettes, models, instructional resources, and unit ideas to implement the standards"--

An inventive and observant collection of lyric poems from the Princeton Series of Contemporary Poets With skillful rhetoric and tempered lyricism, the poems in *A Glossary of Chickens* explore, in part, the struggle to understand the world through the symbolism of words. Like the hens of the title poem, Gary J. Whitehead's lyrics root around in the earth searching for sustenance, cluck rather than crow, and possess a humble majesty. Confronting subjects such as moral depravity, nature's indifference, aging, illness, death, the tenacity of spirit, and the possibility of joy, the poems in this collection are accessible and controlled, musical and meditative, imagistic and richly figurative. They are informed by history, literature, and a deep interest in the natural world, touching on a wide range of subjects, from the Civil War and whale ships, to animals and insects. Two poems present biblical narratives, the story of Lot's wife and an imagining of Noah in his old age. Other poems nod to favorite authors: one poem is in the voice of the character Babo, from Herman Melville's *Benito Cereno*, while another is a kind of prequel to Emily

Dickinson's "She rose to His Requirement." As inventive as they are observant, these memorable lyrics strive for revelation and provide their own revelations.

Most interventions for at-risk youth are group based. Yet, research indicates that young people often learn to become deviant by interacting with deviant peers. In this important volume, leading intervention and prevention experts from psychology, education, criminology, and related fields analyze how, and to what extent, programs that aggregate deviant youth actually promote problem behavior. A wealth of evidence is reviewed on deviant peer influences in such settings as therapy groups, alternative schools, boot camps, group homes, and juvenile justice facilities. Specific suggestions are offered for improving existing services, and promising alternative approaches are explored. Handbook of Learning Disabilities, First Edition Guilford Publications

This engaging text provides an effective process

for studying multiple cases--such as sets of teachers, staff development sessions, or clinics operating in different locations--within one complex program. The process also can be used to investigate broadly occurring phenomena without programmatic links, such as leadership or sibling rivalry. Readers learn to design, analyze, and report studies that balance common issues across the group of cases with the unique features and context of each case. Three actual case reports from a transnational early childhood program illustrate the author's approach, and helpful reproducible worksheets facilitate multicase recording and analysis. *Handbook of Emergent Methods* Lulu.com Serritella describes his new work for the exhibition *Walking With Softer Steps* at Jason Jacques Gallery , as an evolution towards the quieter side of trees and form:"In my early works there was often an overabundance of branches and thus competing lines within the form. In simplest terms, the sculptures were often 'busy'.While they fit the context of the pieces at the time, my philosophies about what I was trying to express evolved. As my work matured I found that texturing the details was becoming second nature and

I began focusing more attention on the form. I realized that my goal was to get people to walk with softer steps on this planet. It was this statement that resonated with me so strongly that I then set out to have it reflected in the work."Serritella aims to create work that beautifully flows with rhythm and grace.Hidden within the overall form and the incredible level of realistic detail there is a subtle quietness. A flow. A rhythm. A peace. *Creative Arts and Play Therapy for Attachment Problems* Guilford Press The 'sit-ins' at a Woolworth's lunch counter in Greensboro launched the passive resistance phase of the civil rights revolution. This book tells the story of what happened in Greensboro; it also tells the story in microcosm of America's effort to come to grips with our most abiding national dilemma--racism. *The Coding Manual for Qualitative Researchers* University of Chicago Press Since the initial publication of this classic text, motivational interviewing (MI) has been used by countless clinicians in diverse settings. Theory and methods have evolved apace, reflecting new knowledge on the process of behavior change, a growing body of outcome research, and the development

of new applications within and beyond the addictions field. Including 25 nearly all-new chapters, this revised and expanded second edition now brings MI practitioners and trainees fully up to date. William R. Miller and Stephen Rollnick explain how to work through ambivalence to facilitate change, present detailed guidelines for using their approach with a variety of clinical populations, and reflect on the process of learning MI. Chapters contributed by other leading experts then address such special topics as MI and the stages-of-change model; using the approach with groups, couples, and adolescents; and applications to general medical care, health promotion, and criminal justice settings.
