Guinness World Records 2009 Hal Leonard Corporation (Book). By age 16, Pat Martino was already working as a member of R&B star Lloyd Price's touring musical revue. By age 18, Martino moved to Harlem, where he quickly earned a reputation as a hard-bopping six-stringer with formidable chops through a series of apprenticeships with the likes of honking tenor saxophonist Willis "Gator Tail" Jackson and Hammond B-3 organ master Jack McDuff. Martino made his auspicious debut as a leader at age 22 with 1967's *El Hombre* on Prestige and followed with a string of potent recordings for the label that further

---

established him as one of the most distinctive guitar voices on the jazz scene. Then, at the peak of his powers, the bottom fell out. In 1980, he underwent surgery as the result of a nearly fatal brain aneurysm. The surgery left him without any memory of the guitar or his musical career. From that point, Martino undertook the long process of recovery, eventually learning how to play the guitar again; but more important, learning to transcend the instrument itself and live his life completely in the moment. More than just the remarkable story of one of the most original and profoundly influential guitarists in jazz history, this extraordinarily revealing autobiography is also a survival manual, of sorts, in overcoming incredible adversity and learning to live in the here and now.

The word "control" has many implications for video games. On a basic level, without player control, there is no experience. Much of the video game industry focuses on questions of control and ways to improve play to make the gamer feel more connected to the virtual world. The sixteen essays in this collection offer critical examinations of the issue of control in video games, including different ways to theorize and define control within video gaming and how control impacts game design and game play. Close readings of specific games--including Grand Theft Auto IV, Call of Duty: Black Ops, and Dragon Age: Origins--consider how each locates elements

of control in their structures. As video games increasingly become a major force in the media landscape, this important contribution to the field of game studies provides a valuable framework for understanding their growing impact.

All Music Guide Required Listening Roaring Brook Press  
The Video Games Guide is the world's most comprehensive reference book on computer and video games. Presented in an A to Z format, this greatly expanded new edition spans fifty years of game design--from the very earliest (1962's Spacewar) through the present day releases on the PlayStation 3, Xbox 360, Wii and PC. Each game entry includes the year of release, the hardware it was released on, the name of the developer/publisher, a one to five star quality rating, and a descriptive review which offers fascinating nuggets of trivia, historical notes, cross-referencing with other titles, information on each game's sequels and of course the author's views and insights into the game. In addition to the main entries and reviews, a full-color gallery provides a visual timeline of gaming through the decades, and

several appendices help to place nearly 3,000 games in context. Appendices include: a chronology of gaming software and hardware, a list of game designers showing their main titles, results of annual video game awards, notes on sourcing video games, and a glossary of gaming terms.

#### Billboard PediaPress

This one-of-a-kind reference investigates the music and the musicians that set the popular trends of the last half century in America. • Contains an alphabetical collection of entries that each profile a major group and band from the past 60 years • Provides a selected discography and bibliography for further listening and reading for each entry • Covers a wide variety of styles from classic rock to surf rock to hip hop • Features sidebar entries which tie together larger popular music concepts such as the rise and influence of MTV and the phenomenon of girl bands

#### Blue Streak Routledge

The Rough Guide to Jimi Hendrix is a thorough reference book about the life and music of the greatest rock guitarist of all time. It covers all the key events throughout his metamorphosis; from a misfit youngster growing up in poverty to his rise to international stardom, and from his days as a starving backup musician in the early 1960s to his triumphant appearances at the Monterey Pop and Woodstock rock festivals, not to mention his mysterious and sordid death in 1970. Special

---

chapters are devoted to vivid description and critical evaluation of all his important studio and live albums and best thirty songs, as well as all major live and documentary Hendrix videos; his myriad musical influences from blues, soul, rock, and jazz; Hendrix-related sites and shrines; and his spectacular arsenal of guitar techniques and effects. Also including special features on overlooked aspects of his art ranging from his love of Bob Dylan's music to his relationship with the Black Power movement, *The Rough Guide to Jimi Hendrix* documents all dimensions of this one-of-a-kind musical genius.

#### *We the Dead* Rough Guides

Locked away in refrigerated vaults, sanitized by gas chambers, and secured within bombproof caverns deep under mountains are America's most prized materials: the ever-expanding collection of records that now accompany each of us from birth to death. This data complex backs up and protects our most vital information against decay and destruction, and yet it binds us to corporate and government institutions whose power is also preserved in its bunkers, infrastructures, and sterilized spaces. *We the Dead* traces the emergence of the data complex in the early twentieth century and guides readers through its expansion in a series of moments when Americans thought they were living just before the end of the world. Depression-era eugenicists feared racial contamination and the downfall of the white American family, while contemporary technologists seek ever denser and more durable materials for storing data, from microetched metal discs to cryptocurrency keys encoded in synthetic DNA.

Artfully written and packed with provocative ideas, this haunting book illuminates the dark places of the data complex and the ways it increasingly blurs the lines between human and machine, biological body and data body, life and digital afterlife.

*A Hero In Hiding* University of Michigan Press  
Collects reviews for one thousand enduring classic rock albums ranging from the extremely popular to more obscure works.

#### *Billboard* Kindred Spirits Publishing

In its 114th year, *Billboard* remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. *Billboard* publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends.

#### *Sweepers Sweepers Man Your Brooms* Rough Guides

The humor and innocence of the United States Navy Sailor is captured in the unique and sportive tales of a salty master chief set in the final quarter of the twentieth century. *Sweepers sweepers man your brooms* is a phrase readily recognized by any Sailor who ever woke up on a United States Navy ship. In his Navy memoirs *Retired Navy Master Chief Jeff Zahratka*, a twenty six year veteran chronicles rich adventures that carry the reader to exotic settings from Karachi Pakistan to Severmorsk Russia. *Sweepers Sweepers* is a colorful story with uncanny notice of the odd occurrences that take place between the life lines of Navy ships and isolated shore establishments not a story about bombs,

---

battles, or spectacular explosions, Sweepers Sweepers Man Your Brooms is his story about how people of great diversity coexist in eighty-man bedrooms while living out of devices known as coffin lockers. Consistently found in the effectuation of extraordinary events, the ubiquitous American Sailor may be found crawling through garbage in an equatorial Shellback initiation or baring their derrieres at a Soviet aircraft carrier while traversing the Cape of Good Hope. He may be discovered in hand to hand combat, not with a human enemy manned up at a fire control console on an Aegis cruiser, but with a toilet brush in a Greek hotel room, fighting to the death with a mutated species of an ancient Hellenic centipede. The author fails miserably at camouflaging his affection for the city of Pittsburgh and his long time devotion to their high powered sports teams. He provides many insightful moments relating to being a fan from afar through some of the greatest years in Steeler and Pirate sports history. The story is a rich and historically accurate account of a caste of characters from seaman recruits with attitudes honed on tough urban streets, to brown juice spitting good ole boys that learned to love the sea. There are associations and first hand opinions on the actions of young naval officers who today are among the top ranking leaders of the force. Sweepers Sweepers Man Your Brooms is a tapestry of the social morays, historical events, and military technologies that define the character of the Navy for the last thirty years. The reader will experience sufficient history to educate, and an infusion of personal opinion which will serve as a catalyst for debate.

Above all; however, the story will remind Americans why they love Sailors, and remind old Sailors of why they love the Navy.

reporter with The Fayetteville Observer, provides an insiders view of an unforgettable season that included ups, downs, twists, and turns. From a startling and dispiriting 2008 Final Four loss to Kansas to the blowout defeat of Michigan State in the next year's national title game, you'll relive record-breaking performances, exhilarating victories and losses that caused panic. Discover what went on behind closed doors with never-before-told tales from players, coaches, and media members who were there every step of the way. Plus, you'll read hilarious anecdotes of how the UNC players kept themselves entertained and came together off the basketball court. In addition to going behind the scenes with the title-winning team, you'll join Wiederer as he analyzes where its players rank in the pantheon of UNC greats, and you'll discover the role that former players continue to play at the school. Discover what makes North Carolina basketball so great and relive one of its most unforgettable seasons ever in Blue Streak. Swipe This! Harper Collins

In The New Guitarscape, Kevin Dawe argues for a re-assessment of guitar studies in the light of more recent musical, social, cultural and technological developments that have taken place around the instrument. The author considers that a detailed study of the guitar in both contemporary and cross-cultural perspectives is now absolutely essential and that such a study must also include discussion of a wide range of theoretical issues, literature, musical cultures and technologies as they come to bear upon the instrument. Dawe presents a synthesis of previous work on the guitar, but also expands the terms

by which the guitar might be studied. Moreover, in order to understand the properties and potential of the guitar as an agent of music, culture and society, the author draws from studies in science and technology, design theory, material culture, cognition, sensual culture, gender and sexuality, power and agency, ethnography (real and virtual) and globalization. Dawe presents the guitar as an instrument of scientific investigation and part of the technology of globalization, created and disseminated through corporate culture and cottage industry, held close to the body but taken away from the body in cyberspace, and involved in an enormous variety of cultural interactions and political exchanges in many different contexts around the world. In an effort to understand the significance and meaning of the guitar in the lives of those who may be seen to be closest to it, as well as providing a critically-informed discussion of various approaches to guitar performance, technologies and techniques, the book includes discussion of the work of a wide range of guitarists, including Robert Fripp, Kamala Shankar, Newton Faulkner, Lionel Loueke, Sharon Isbin, Steve Vai, Bob Brozman, Kaki King, Fred Frith, John 5, Jennifer Batten, Guthrie Govan, Dominic Frasca, I Wayan Balawan, Vicki Genfan and Hasan Cihat ter.
