This 380-page devotional book

offers daily lessons containing two Bible readings and a thought for the day for meditation. Encyclopaedia of Religion and Ethics: Sacrifice-Sudra Routledge A Dictionary of Philosophy of Religion is an indispensable resource for students and scholars. Covering historical and contemporary figures, arguments, and terms, it offers an overview of the vital themes that make philosophy of religion the growing, vigorous field that it is today. It covers world religions and sources from east and west. Entries have been crafted for clarity, succinctness, and engagement.

This second edition includes new entries, extended coverage of non-Christian topics, as well as revisions and updates throughout. The first edition was named a Choice Outstanding Academic Title of the Year.

Eating Beauty Wm. B. Eerdmans Publishing
Das Thema Laster im Mittelalter zeichnet sich durch seine Kontinuität über das gesamte Mittelalter aus und hat seine Wurzeln in der Spätantike und seine Nachwirkungen in der Neuzeit. Es berührt fast alle Bereiche mittelalterlicher Kultur und

hat eine unerschöpfliche Literatur hervorgebracht. Der Sammelband beruht auf den Ergebnissen des Freiburger Kolloquiums 2006, das sich erstmals mit der langen Tradition der sieben Todsünden und den mittelalterlichen Lasterkatalogen befasste, und vereint die Beiträge namhafter Wissenschaftlerinnen und Wissenschaftler unterschiedlicher Fachrichtungen. Laster wurden im Mittelalter systematisch geordnet: Sie

wurden in Hauptlaster eingeteilt, aus denen andere Laster hervorgingen, als Sünden verstanden und dienten darüber hinaus ganz allgemein der Beschreibung menschlicher Leidenschaften und Handlungen. Aus historischer, literaturwissenschaftlicher, theologischer, philosophischer, kunst- und rechtshistorischer Perspektive entwerfen die neun Beiträge in deutscher, englischer und französischer Sprache ein lebendiges Bild der

Wünsche und Ängste des mittelalterlichen Menschen, aber auch des gesellschaftlichen Lebens im Mittelalter.

Visualizing Medieval Performance Routledge
"The enigmatic link between the natural and artistic beauty that is to be contemplated but not eaten, on the one hand, and the eucharistic beauty that is both seen (with the eyes of faith) and eaten, on the other, intrigues me and inspires this book. One cannot ask theological questions about the Eucharist without engaging fundamental questions about

the relationship between beauty, "productive of an entire 'way' of art (broadly defined), and eating."—from *Eating Beauty*. In a remarkable book that is at once learned, startlingly original, and highly personal, Ann W. Astell explores the ambiguity of the phrase "eating beauty." The phrase evokes the destruction of beauty, the devouring mouth of the grave, the mouth of hell. To eat beauty is to destroy it. Yet in the case of the Eucharist the person of faith who eats the Host is transformed into beauty itself, literally incorporated into Christ. In this sense, Astell explains, the Eucharist was life, a virtuous life-form, an artwork, with Christ himself as the principal artist." The Eucharist established for the people of the Middle Ages distinctive schools of sanctity—Cistercian, Franciscan, Dominican, and Ignatian—whose members were united by the eucharistic sacrament that they received. Reading the lives of the saints not primarily as historical documents but as iconic expressions of original artworks fashioned by the eucharistic Christ, Astell puts the "faceless" Host in a dynamic relationship with these icons. With the advent of each new spirituality, the Christian idea of beauty expanded to include, first, the marred beauty of the saint and, finally, that of the church torn by division—an anti-aesthetic beauty embracing process, suffering, deformity, and disappearance, as well as the radiant lightness of the resurrected body. This astonishing work of intellectual and religious history is illustrated with telling artistic examples ranging from medieval manuscript illuminations to sculptures by Michelangelo and paintings by

Salvador Dal í . Astell puts the lives of medieval saints in conversation with modern philosophers as disparate as Simone Weil and G. W. F. Hegel.

This volume looks at the work of Jan Miense Molenaer, an artist of the age of Rembrandt and Vermeer. He was probably a student of Hals and a spiritual heir of Pieter Bruegel the Elder. Essays and plates focus on Molenaer's comic scenes of Dutch peasant life. His versatile work, painted

in Haarlem and Amsterdam, also includes: portraits; gene scenes including peasant weddings, theatrical performances, religious narratives and children at school and play; and allegories. 92 colour & 128 b/w illustrations

Vision is about insight, and visual perception is about cognition - and they form the foundation of how we see the world. Duco A. Schreuder, a physicist and psychologist, explores the finer details of each in this groundbreaking

book that explores human consciousness and perception. Sharing virtually everything he's learned over a varied career spanning more than sixty years, he examines a wide array of topics, including how we understand what we visually process, how we store and retrieve information, the role that neurons play in how what we see, and much more. While Schreuder isn't afraid to disagree with other leading thinkers, he relies on science and focuses on the facts behind it so you can understand lighting, visual perception, engineering design, and applied

and experimental physics. Looking is about insight, whereas seeing is about knowledge, and you need to know how each one works to truly understand how humanity views the world. Whether you're an illuminating engineer considering the fundamentals of the trade or a student or professional in an allied discipline, you'll be well served by taking a closer look at Vision and Visual Perception. The Vision of William Concerning Piers the Plowman Kent State University Press Taking a fresh look at the

interconnections between medieval images, texts, theater, and practices of viewing, reading and listening, this explicitly interdisciplinary volume explores various manifestations of performance and meanings of performativity in the Middle Ages. The contributors - from their various perspectives as scholars of art history, religion, history, literary studies, theater studies, music and dance - combine their resources to reassess the

complexity of expressions and definitions of medieval performance in a variety of different media. Among the topics considered are interconnections between ritual and theater; dynamics of performative readings of illuminated manuscripts, buildings and sculptures; linguistic performances of identity; performative models of medieval spirituality; social and political spectacles encoded in ceremonies; junctures between spatial configurations of the medieval stage and

mnemonic practices used for meditation; performances of late medieval music that raise questions about the issues of historicity, authenticity, and historical correctness in performance; and tensions inherent in the very notion of a medieval dance performance.

A Dictionary of Biblical Tradition in English Literature
BRILL

Pieter Bruegel the Elder (1525/30-1569) was a remarkable draftsman and designer of prints as well as a great painter. His independent

drawings and designs for engravings and etchings, which were carried out by the leading printmakers of his day, have fascinated scholars and the general public alike since they were created. They have recently been the subject of research that has given rise to a reevaluation of the parameters of Bruegel's oeuvre. The new scholarship has been brought to bear in the texts of the present volume, which accompanies a major exhibition of 140 of Bruegel's prints and drawings to be shown at the Museum Boijmans Van Beuningen, Rotterdam, from May to

August 2001 and at The Metropolitan Museum of Art, New York, from September to December 2001. An international group of experts discusses the new Bruegel who has emerged from recent studies, in essays on the artist's life, his contributions as a draftsman and as a printmaker, the survival of his art, and his relationship to the humanism of his day. They also illuminate his genius in entries on all the works in the exhibition. Every work is illustrated and rich comparative illustrations are included. Provenances and Sin in Medieval and Early

Aquinas's Disputed
Questions on Evil Food and

Celebration: From Fasting to
Feasting

This book discusses the way
ideas and forms traveled
between Britain and France
during the eighteenth
century, and the extent to
which the circulation of ideas
between the two countries
could be difficult. The
volume shows that this
difficulty, because it was
acknowledged and often
thematized, contributed to
an increased awareness of
what was really at stake in
the very concept of
Enlightenment. The

examination of points of
contact between the two
cultures-contacts that became
very much the fashion in the
course of the eighteenth
century-helps us understand
how apparently common
concepts and concerns fared
differently from one country
to the next, while being
enriched by those contacts.
The conversation of aesthetic
theories and artistic forms of
expression between the two
countries sheds interesting
light on the overall
confrontation of conflicting
theories of power and control

that expressed themselves throughout the period of complete political redistribution. The ways myths and stories, forms and theories, traveled and changed currency gives us a clearer political grasp on the whole history of exchanges, as writers and artists, encouraged or irritated by the new myth of Progress, kept putting forward nothing else but models and strategies of public and private political economy. Scholars and analysts seeking to
illuminate the extraordinary
creativity and innovation evident
in European medieval cultures

and their afterlives have thus far
neglected the important role of
religious heresy. The papers
collected here - reflecting the
disciplines of history, literature,
theology, philosophy, economics
and law - examine the intellectual
and social investments
characteristic of both deliberate
religious dissent such as the
Cathars of Languedoc, the Balkan
Bogomils, the Hussites of Bohemia
and those who knowingly or
unknowingly bent or broke the
rules, creating their own
'unofficial orthodoxies'. Attempts
to understand, police and
eradicate all these, through
methods such as the Inquisition,
required no less ingenuity. The
ambivalent dynamic evident in the

tensions between coercion and
dissent is still recognisable and
productive in the world today.

Sin and Salvation in Reformation England Cengage Learning

Ovid: The Classical Heritage, first published in 1995, contains a diverse collection of reflections, ranging from the first century, through the Middle Ages, to the twentieth, on a poet who has been adored and reviled in equal measure. With the entire notion of 'Western culture' under duress, the need to establish continuity from antiquity to

modernity is as pressing as ever. Each essay, selected by Professor Anderson, indicates an Ovidian theme or perspective which remains relevant to our self-understanding today. An enormous range of topics is investigated, in a variety of modes and styles: contemporary reaction, reception by Medieval Schoolmen, Ovid 's influence on Chaucer, and his importance for the ' New Mythologists ' . Overall, Ovid: The Classical Heritage offers a rich selection of essays, which cumulatively demonstrate the continuing importance and fascination of this great Roman poet.
