#### Research Paper on Gun Violence - Paperbacksbooks

Empirical research on the causal effects of firearm  
availability on the risk of suicide is consistent with the  
claim that firearms increase suicide risk, but this research  
cannot yet rule out some other explanations for observed  
associations between guns and suicide. There are,  
however, theoretical or logical arguments for believing  
firearms elevate suicide risk that are sufficiently  
compelling that individuals and policymakers might  
reasonably choose to assume that gun availability does ...
