Measuring the World marks the debut of a glorious new talent on the international scene. Young Austrian writer Daniel Kehlmann's brilliant comic novel revolves around the meeting of two colossal geniuses of the Enlightenment. Late in the eighteenth century, two young Germans set out to measure the world. One of them, the aristocratic naturalist Alexander von Humboldt, negotiates jungles, voyages down the Orinoco River, tastes poisons, climbs the highest mountain known to man, counts head lice, and explores and measures every cave and hill he comes across. The other, the reclusive and barely socialized mathematician Carl Friedrich Gauss, can prove that space is curved without leaving his home. Terrifyingly famous and wildly eccentric, these two polar opposites finally meet in Berlin in 1828, and are immediately embroiled in the turmoil of the post-Napoleonic world.

August 1991. In a sweltering New York City apartment, a group of Russian émigrés gathers round the deathbed of an artist named Alik, a charismatic character beloved by them all, especially the women who take turns nursing him as he fades from this world. Their reminiscences of the dying man and of their lives in Russia are punctuated by debates and squabbles: Whom did Alik love most? Should he be baptized before he dies, as his alcoholic wife, Nina, desperately wishes, or be reconciled to the faith of his birth by a rabbi who happens to be on hand? And what will be the meaning for them of the Yeltsin putsch, which is happening across the world in their long-lost Moscow but also right before their eyes on CNN? This marvelous group of individuals inhabits the first novel by Ludmila Ulitskaya to be published in English, a book that was shortlisted for the Russian Booker Prize and

has been praised wherever translated editions have appeared. Simultaneously funny and sad, lyrical in its Russian sorrow and devastatingly keen in its observation of character, *The Funeral Party* introduces to our shores a wonderful writer who captures, wryly and tenderly, our complex thoughts and emotions confronting life and death, love and loss, homeland and exile.

When Neill's father committed suicide ten years ago, he left behind thousands of pages of secret journals, journals that are stunning in their detail, and, it must be said, their complete banality. But their spectacularly quotidian details, were exactly what artificial intelligence company Amiante Systems was looking for, and Neill was able to parlay them into a job, despite a useless degree in business marketing and absolutely no experience in computer science. He has spent the last two years inputting the diaries into what everyone hopes will become the world's first sentient computer. Essentially, he has been giving it language--using his father's words. Alarming to Neill--if not to the other employees of Amiante--the experiment seems to be working. The computer actually appears to be gaining awareness and, most disconcerting of all, has started asking questions about Neill's childhood.

I always thought you'd know, somehow, if something terrible was going to happen. I thought you'd sense it, like when the air goes damp and heavy before a storm and you know you'd better hide yourself away somewhere safe until it all blows over. But it turns out it's not like that at all. There's no scary music playing in the background like in films. No warning signs. Not even a lonely magpie. One for sorrow, Mum used to say. Quick, look for another. The world can tip at any moment ... a fact that fifteen-year-old Pearl is all too aware of when her mum dies after giving birth to her baby sister. Told across the year following her mother's death, Pearl's story is full of bittersweet humour and heartbreaking honesty about how you deal with grief that cuts you to the bone, as she tries not only to come to terms with losing her mum, but also the fact that her sister - The Rat - is a constant reminder of why her mum is no longer around... From the author of *How Not to Disappear* comes a stunning novel about love and loss, and how to carry on when your whole world is turned upside down. Praise for *The Year of the Rat*: 'Beautifully written with a dry sense of humour.' *The Stylist* 'I cried, I laughed, I cried some more... a moving must-read that'll stay with you long after the last page is turned.' *Bliss* 'The Year of the Rat is already a strong contender for best YA debut of 2014... A Working Theory of Love Schocken

Seminar paper del año 2018 en el tema Alemán - Literatura, Obras, Nota: 10, Universidad de Sevilla, Materia: 4, Idioma: Español, Resumen: En este trabajo me dispongo a analizar la obra "Gut gegen Nordwind" del autor austríaco Daniel Glattauer centrándome principalmente en el tema de la soledad, tal vez el más importante en la obra del autor. Aunque en un principio había pensado en analizar varios de sus textos, finalmente, y sólo por cuestiones de espacio, me he decidido por profundizar únicamente en su primera novela, "Gut gegen Nordwind", por considerar esta obra tal vez la más representativa del pensamiento del autor para el tema elegido. En mi trabajo intentaré estudiar los diferentes tipos de soledades que pueden observarse en los principales personajes de "Gut gegen Nordwind", para lo cual, y siguiendo los consejos de mi directora, he decidido recurrir a la psicología y apoyarme en la teoría del apego de Bowlby, que explicaré brevemente en mi capítulo dos, para describir el modo de relación existente entre personajes, esencial para descubrir su forma de soledad, y también utilizaré las ideas de V. Vivero, que igualmente explicaré más adelante.

"Never has the aftermath for Germans been better depicted than in Siegfried Lenz's elegiac, *The Turncoat*. A newly discovered masterpiece." -Alex Kershaw, *New York Times* bestselling author of *Avenue of Spies* Previously unpublished, this German postwar classic is one of the best books of this major writer, who died in 2014. The last summer before the end of World War II, Walter Proska is posted to a small unit tasked with ensuring the safety of a railway line deep in the forest on the border with Ukraine and Byelorussia. In this swampy region, a handful of men—stunned by the heat, attacked by mosquitoes, and abandoned by their own troops in the face of the resistance—must also submit to the increasingly absurd and inhuman orders of their superior. Time passes, and the soldiers isolate themselves, haunted by madness and the desire for death. An encounter with a young Polish partisan, Wanda, makes Proska further doubt the validity of his oath of allegiance, and he seeks to answer the questions that obsess him: When conscience and duty clash, which is more important? Is it possible to take any action without becoming guilty in some way? And where is Wanda, this woman from the

resistance he can't forget? Written in 1951, *The Turncoat* is Siegfried Lenz's second novel. Rejected by his publisher, who thought that the story of a German soldier defecting to the Soviet side would be unwelcome in the context of the Cold War, the manuscript was forgotten for nearly seventy years before being rediscovered after the author's death. A posthumous triumph.

Winner of the German Book Prize, *The Capital* is an "omniscient, almost Balzac-ian" (Steven Erlanger, *New York Times*) panorama of splintered Europe. A highly inventive novel of ideas written in the rich European tradition, *The Capital*—epic in scope, but so particular in details—transports readers to the cobblestoned streets of twenty-first-century Brussels. Chosen as the European Union's symbolic capital in 1958 for no reason other than Belgium coming first alphabetically, this elusive setting has never been examined so intricately in literature. Here, in Robert Menasse's "great EU novel" (*Politico*), tragic heroes, clever schemers, and involuntary accomplices play out the effects of a fiercely nationalistic "union." Recalling the Balzacian conceit of assembling a vast parade of characters whose lives conspire to form a driving central plot, Menasse adapts this technique with modern sensibility to reveal the hastily assembled capital in all of its eccentricities. We meet, among others, Fenia Xenopoulou, a Greek Cypriot recently "promoted" to the Directorate-General for Culture. When tasked with revamping the boring image of the European Commission with the Big Jubilee Project, she endorses her Austrian assistant Martin Sussman's idea to proclaim Auschwitz as its birthplace—of course, to the horror of the other nation states. Meanwhile, Inspector Émile Brunfaut attempts to solve a gritty murder being suppressed at the highest level; Matek, a Polish hitman who regrets having never become a priest, scrambles after taking out the wrong man; and outraged pig farmers protest trade restrictions as a brave escapee squeals through the streets. These narratives and more are masterfully woven, revealing the absurdities—and real dangers—of a fracturing Europe. A tour de force from one of Austria's most esteemed novelists, *The Capital* is a mordantly funny and piercingly urgent saga of the European Union, and an aerial feat of sublime world literature.

measured? This study attempts to respond to these questions by providing results from a selection of case studies taken from German literature of the 19th through the 21st century, including Goethe's "late style", Felix Salten, and the output of contemporary writers such as Florian Meimberg's "twitterature" and Daniel Glattauer's e-mail novel. Altogether, this study shows how the interplay among literary theory, stylometry, stylistics, sentiment analysis, empirical studies, and archival research can offer new answers to old questions regarding German literature and provide tools to formulate new questions and novel approaches to research.

Wie digitale Vernetzung unsere Gesellschaft verändert, gehört zu den drängendsten Fragen der Gegenwart. Wie jedoch dieser Prozess die zeitgenössische Literatur prägt, erfährt seit der enthusiastischen Erforschung von Hypertexten um die Jahrtausendwende wenig kulturwissenschaftliche Aufmerksamkeit. Dabei lohnt es sich, die Beobachtungsperspektive von der Literatur im Netz auf das Netz in der Literatur zu verschieben. Denn informations- und kommunikationstechnologische Netzwerke – und vor allem das Internet – schreiben sich zunehmend in die Romane der Gegenwart ein. Nicht selten avanciert das >Netz der Netze< sogar zum inhaltlichen Kernelement von erzählten Welten und wird dort vielfältig wirksam: von der räumlichen und temporalen Inszenierung des Motivs über das Zusammenspiel von Figurenkonstellationen und Erzähltechnik bis hin zur formalästhetischen und symbolischen Ausgestaltung der Texte. Auf einer breiten theoretischen Basis erkundet die vorliegende Studie literarische Erzähltexte, die den medial bedingten Wandel der Lebenswelt reflektieren, indem sie dessen wohl wichtigstes Movens poetisch durchdringen.
