The year-long celebration of Ghana's Golden
Jubilee provides a fitting context for the
republication of the book Kwame Nkrumah:
Vision and Tragedy. In the lead-up to the
celebration and over the course of the year,
the life and times of Kwame Nkrumah will
receive unprecedented public attention,
official and unofficial. Kwame Nkrumah's
very wide name-recognition is, paradoxically,
accompanied by sketchy, often
oversimplified knowledge about the events
and processes of his life and times. For most
of those born after independence in 1957,
such knowledge does not extend much
beyond who Kwame Nkrumah was and
vague notions about he won us
Independence. This book presents new
material and new analysis, which helps to
clarify aspects of the record, while advancing
new perspectives. What comes across clearly
throughout the book is the significant
contribution of Nkrumah's vision and
personality at a critical moment in the history
of Africa and the Third World. He, perhaps
more than any other, was able to identify,
focus and catalyse the major factors and
players driving the struggle for political
independence in Ghana and liberation in
other parts of Africa. In the process, he
committed his life and work totally to a wide
variety of activities and processes in Ghana,
the continent and in the global Non-Aligned

Movement.

This paper reviews economic developments in Suriname during 1994 – 96. In 1995, there was a major turnaround in Suriname's economic and financial situation following the expansionary fiscal and monetary policies pursued in the first half of the 1990s and the political and economic disruptions of the 1980s. The marked improvement was owing to the restoration of financial discipline, a strengthening of international bauxite prices, and the unification and subsequent stabilization of the exchange rate. The inflation fell further to less than 1 percent in 1996.
