Nazi Terror Penguin
Telling stories from secondary and college English classrooms, this book explores the new possibilities for teaching and learning generated by bringing together reader-response and cultural-studies approaches. The book connects William Shakespeare, Charles Dickens, Mark Twain, and other canonical figures to multicultural writers, popular culture, film, testimonial, politics, history, and issues relevant to contemporary youth. Each chapter contains brief explications of literary scholarship and theory, and each is followed by extensive annotated bibliographies of multicultural literature, approachable scholarship and theory, and relevant Internet sites. Each chapter also contains descriptions of classroom units and activities focusing on a particular theme, such as genocide, homelessness, race, gender, youth violence, (post)colonialism, class relations, and censorship; and discussion of ways in which students often respond to such "hot-button" topics. Chapters in the book are: (1) A Course in Contemporary World Literature; (2) Teaching about Homelessness; (3) Genderizing the Curriculum: A Personal Journey; (4) Addressing the Youth Violence Crisis; (5) Shakespeare and the New Multicultural British and World Literatures; (6) "Huckleberry Finn" and the Issue of Race in Today's Classroom; (7) Testimonial, Autoethnography, and the Future of English; and (8) Conclusion. Contains approximately 350 references. Appendixes contain an email exchange between the author and a first year, inner-city teacher; a note to teachers on the truth of Rigoberta Menchu's testimonial; a brief account of philology; a 13-item annotated bibliography of readings in literary theory for English teachers; and lists of web sites exploring literary theory and cultural studies, supporting literature teaching, and for new teachers. A fresh treatment of Fascist Italy and Nazi Germany, revealing the close ties between Mussolini and Hitler and their regimes ?From 1934 until 1944 Mussolini met Hitler numerous times, and the two developed a relationship that deeply affected both countries. While Germany is generally regarded as the senior power, Christian Goeschel demonstrates just how much history has underrepresented Mussolini's influence on his German ally. In this highly readable book, Goeschel, a scholar of twentieth-century Germany and Italy, revisits all of Mussolini and Hitler's key meetings and asks how these meetings constructed a powerful image of a strong Fascist-Nazi relationship that still resonates with the general public. His portrait of Mussolini draws on sources ranging beyond political history to reveal a leader who, at times, shaped Hitler's decisions and was not the gullible buffoon he's often portrayed as. The first comprehensive study of the Mussolini-Hitler relationship, this book is a must-read for scholars and anyone interested in the history of European fascism, World War II, or political leadership. *Digital Media, Youth, and Credibility* Scholastic Inc.
"What year are you preparing your students for? 1973? 1995? Can you honestly say that your school's curriculum and the program you use are preparing your students for 2015 or 2020? Are you even preparing them for today?" With those provocative questions, author and educator Heidi Hayes Jacobs launches a powerful case for overhauling, updating, and injecting life into the K-12 curriculum. Sharing her expertise as a world-renowned curriculum designer and calling upon the collective wisdom of 10 education thought leaders, Jacobs provides insight and inspiration in the following key areas: * Content and assessment: How to identify what to keep, what to cut, and what to create, and where portfolios and other new kinds of assessment fit into the picture. * Program structures: How to improve our use of time and space and groupings of students and staff. * Technology: How it's

transforming teaching, and how to take advantage of students' natural facility with technology. * Media literacy: The essential issues to address, and the best resources for helping students become informed users of multiple forms of media. * Globalization: What steps to take to help students gain a global perspective. * Sustainability: How to instill enduring values and beliefs that will lead to healthier local, national, and global communities. * Habits of mind: The thinking habits that students, teachers, and administrators need to develop and practice to succeed in school, work, and life. The answers to these questions and many more make Curriculum 21 the ideal guide for transforming our schools into what they must become: learning organizations that match the times in which we live.

The Hyperdoc Handbook: Digital Lesson Design Using Google Apps Yale University Press

November 9th 1938 is widely seen as a violent turning point in Nazi Germany's assault on the Jews. An estimated 400 Jews lost their lives in the anti-Semitic pogrom and more than 30,000 were imprisoned or sent to concentration camps, where many were brutally mistreated. Thousands more fled their homelands in Germany and Austria, shocked by what they had seen, heard and experienced. What they took with them was not only the pain of saying farewell but also the memory of terrible scenes: attacks by mobs of drunken Nazis, public humiliations, burning synagogues, inhuman conditions in overcrowded prison cells and concentration camp barracks. The reactions of neighbours and passersby to these barbarities ranged from sympathy and aid to scorn, mockery, and abuse. In 1939 the Harvard sociologist Edward Hartshorne gathered eyewitness accounts of the Kristallnacht from hundreds of Jews who had fled, but Hartshorne joined the Secret Service shortly afterwards and the accounts he gathered were forgotten – until now. These eyewitness testimonies – published here for the first time with a Foreword by Saul Friedländer, the Pulitzer Prize historian and Holocaust survivor – paint a harrowing picture of everyday violence in one of Europe's darkest moments. This unique and disturbing document will be of great interest to anyone interested in modern history, Nazi Germany and the historical experience of the Jews.

The difficulties in determining the quality of information on the Internet--in particular, the implications of wide access and questionable credibility for youth and learning. Today we have access to an almost inconceivably vast amount of information, from sources that are increasingly portable, accessible, and interactive. The Internet and the explosion of digital media content have made more information available from more sources to more people than at any other time in human history. This brings an infinite number of opportunities for learning, social connection, and entertainment. But at the same time, the origin of information, its quality, and its veracity are often difficult to assess. This volume addresses the issue of credibility--the objective and subjective components that make information believable--in the contemporary media environment. The contributors look particularly at youth audiences and experiences, considering the implications of wide access and the questionable credibility of information for youth and learning. They discuss such topics as the credibility of health information online, how to teach credibility assessment, and public policy solutions. Much research has been done on credibility and new media, but little of it focuses on users younger than college students. Digital Media, Youth, and Credibility fills this gap in the literature.
