OOTING SERVICE  
MANUAL VF-  
SERIES 1.2  
VIBRATION  
Vibration is a  
subjective evaluation  
with perceptions  
varying among  
individuals, making it  
difficult to determine  
in mild cases if there  
is an actual problem.  
Because the VF  
Series uses a gear  
head, it will be noisier  
than a direct drive or  
belt system.
