Eva has always wanted to experience life in Japan. But upon her arrival there to pursue a master's degree, she soon finds that it's not entirely like what she'd gleaned from reading manga and watching anime. From dirty dorms and Japanese bureaucracy to natural disasters and hay fever-inducing pollen, Eva's stay in Japan was no walk in the cherry blossom park. She was also there during the 3/11 earthquake, among the worst quakes in recent history. In this follow-up to "Eva, Kopi and Matcha", follow Eva's footsteps as she experiences some of the best and not-quite-the-best Japan has to offer during her postgraduate adventure. This volume brings together research carried out in a variety of geographic and linguistic contexts including Africa, Asia, Australia, Canada, the Caribbean, Europe and the United States and explores efforts to incorporate linguistic diversity into education and to 'harness' this diversity for learners' benefit. It

challenges the largely anachronistic ideology that promotes exclusive use of an educational monolingual standard variety and advocates the use in formal education of

aboriginal/indigenous

languages, minority

languages, nonstandard

varieties and contact

languages.
 The

contributors examine both

historical and current

practices for including

linguistic diversity in

education by considering

specific bidialectal, bilingual

and multilingual educational

initiatives. The different

geographical and linguistic

settings covered in the

volume are linked together by a unifying theme: linguistic diversity exists all over the world, but it is very rarely utilized effectively for the benefit of students. When it is used, whether in isolated studies or through governmental initiatives, the research findings point systematically to the many educational advantages experienced by linguistically-diverse students. This book will be of interest to teachers and language practitioners, as well as to students and scholars of language and education.
