As one of the five pillars of Islam the pilgrimage to Mecca (the Hajj) is central to the life of all Muslims. A network of roads radiates from the Hijaz like a giant spider's web, connecting Mecca to all parts of the Muslim world. Historically the most significant of these routes starts at Damascus in Syria, and is a direct continuation of the ancient trade route connecting Arabia to the Levant. The Prophet Muhammad is known to have used this route when he travelled as a merchant from Mecca to Bosra in Syria. In more recent times this was the route chosen for the Hijaz railway which figured prominently in the great Arab Revolt. A significant part of this route runs through Jordan, from the wide grasslands of the north to the sandy desert of the far south. This book documents the archaeological and architectural remains which line this route, paying particular attention to the forts and cisterns built and maintained by the Ottoman rulers from the 16th century onwards. A series of introductory chapters provide the historical context, with an emphasis on the political and military significance of the route from the 16th to the 18th centuries. In addition to the detailed coverage of Jordanian Hajj forts, the book also describes the sites and path of the route through Syria and Saudi Arabia. The final part of the book describes the results of excavations at one of the forts, which gives an insight into the material culture of both the pilgrims and the soldiers who manned the forts.

A Survey of the Contemporary Pilgrimage to Makkah IslamKotob

"Since the seventh century, the Hajj, or Great Pilgrimage to Mecca, has been a lifelong goal of devout Muslims throughout the world. Entire households may save for years to send a respected family member to Mecca. Egyptian Hajjis (or Hajjas, if female) traditionally celebrate their sacred journey by commissioning a local artist to depict their religious odyssey on the walls of their homes. Hajj Paintings is the first visual record of the richness and variety of this

naive art form, considered Egypt's most significant contribution to the contemporary international folk art scene." "Photographer Ann Parker and writer Avon Neal spent a decade exploring towns, villages, and isolated farm communities along the Nile, across the Delta, down the Red Sea coast, and into the Sinai. On the walls of buildings ranging from alabaster factories to mud brick farmhouses they found brilliant murals illuminated by the desert sun, portraying beloved icons of the pilgrims' faith and scenes from the Koran. Their nearly one hundred and fifty color photographs and accompanying descriptions record the radiant palette of mostly self-taught artists." "Unprotected from the scorching sun, sandy winds, and seasonal rains, these "flowers in the desert" eventually fade and vanish, never to be repaired or recreated. Hajj Paintings is the only major study and lasting record of this ephemeral but important religious folk art."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. A thought-provoking reflection on the practice and history of pilgrimage, and a compelling exploration of its relevance today. Pilgrimage, a global ritual embraced by nearly all faiths, is one of civilization's most enduring traditions. In this compelling book, author and journalist Peter Stanford reflects on the reasons people have walked along the same sacred paths through the ages. Through this history, Stanford explores how the experiences of the first pilgrims to Jerusalem, Mecca, and Santiago de Compostela compare to the millions of people who embark on life-changing physical and spiritual journeys today. Pilgrimage traverses sacred landscapes around the world, from the Basilica of Our Lady of Guadalupe in Mexico City to the monolithic rock-cut churches of Lalibela, Ethiopia and the riverbanks of the Kumbh Mela in India. Stanford explores the historical and spiritual significance of these places of healing and reflection and discusses their roles as crossroads. Although pilgrimage is usually viewed as an individual's escape from the everyday to refocus the mind and soul, institutional and national struggles for power have always had an impact on the way pilgrims experience their own personal journey. Guiding readers through the global history of pilgrimage, this thought-provoking book educates a new generation that may seek solace, clarity, and wonder by following in the footsteps of travelers from the past.

This handbook is designed to specifically provide the trainer a 'hip pocket training' resource. It is intended for informal squad or small group instruction. The goal is to provide soldiers with a basic overview of Arab culture. It must be emphasized that there is no "one" Arab culture or society. The Arab world is full of rich and diverse communities, groups and cultures. Differences exist not only among countries, but within countries as well. Caveat: It is impossible to talk about groups of people without generalizing. It then follows that it is hard to talk about the culture of a group without generalizing. This handbook attempts to be as accurate and specific as possible, but inevitably contains such generalizations. Treat these generalizations with caution and wariness. They do provide insight into a culture, but the accuracy and usefulness will depend on the context and specific circumstances.

In 1517, the Ottoman Sultan Selim "the Grim" conquered Egypt and brought his empire for the first time in history into direct contact with the trading world of the Indian Ocean. During the decades that followed, the Ottomans became progressively more engaged in the affairs of this vast and previously unfamiliar region, eventually to the point of launching a systematic ideological, military and commercial challenge to the Portuguese Empire, their main rival for control of the lucrative trade routes of maritime Asia. The Ottoman Age of Exploration is the first comprehensive historical account of this century-long struggle for global dominance, a struggle that raged from the shores of the Mediterranean to the Straits of Malacca, and from the interior of Africa to the steppes of Central Asia. Based on extensive research in the archives of Turkey and Portugal, as well as materials written on three continents and in a half dozen languages, it presents an unprecedented picture of the global reach of the Ottoman state during the sixteenth century. It does so through a dramatic recounting of the lives of sultans and viziers, spies, corsairs, soldiers-of-fortune, and women from the imperial harem. Challenging traditional narratives of Western dominance, it argues that the Ottomans were not only active participants in the Age of Exploration, but ultimately bested the Portuguese in the game of global politics by using sea power, dynastic prestige, and

commercial savoir faire to create their own imperial dominion throughout the Indian Ocean.

Providing an up-to-date synthesis of the history of an extraordinary nation--one that has been shrouded in myths, many of its own making--France and Its Empire Since 1870 seeks both to understand these myths and to uncover the complicated and often contradictory realities that underpin them. It situates modern French history in transnational and global contexts and also integrates the themes of imperialism and immigration into the traditional narrative. Authors Alice L. Conklin, Sarah Fishman, and Robert Zaretsky begin with the premise that while France and the U.S. are sister republics, they also exhibit profound differences that are as compelling as their apparent similarities. The authors frame the book around the contested emergence of the French Republic--a form of government that finally appears to have a permanent status in France--but whose birth pangs were much more protracted than those of the American Republic. Presenting a lively and coherent narrative of the major developments in France's tumultuous history since 1870, the authors organize the chapters around the country's many turning points and confrontations. They also offer detailed analyses of politics, society, and culture, considering the diverse viewpoints of men and women from every background including the working class and the bourgeoisie, immigrants, Catholics, Jews and Muslims, Bretons and Algerians, rebellious youth, and gays and lesbians.
