"Since the seventh century, the Hajj, or Great Pilgrimage to Mecca, has been a lifelong goal of devout Muslims throughout the world. Entire households may save for years to send a respected family member to Mecca. Egyptian Hajjis (or Hajjas, if female) traditionally celebrate their sacred journey by commissioning a local artist to depict their religious odyssey on the walls of their homes. Hajj Paintings is the first visual record of the richness and variety of this naive art form, considered Egypt's most significant contribution to the contemporary international folk art scene." "Photographer Ann Parker and

writer Avon Neal spent a decade exploring towns, villages, and isolated farm communities along the Nile, across the Delta, down the Red Sea coast, and into the Sinai. On the walls of buildings ranging from alabaster factories to mud brick farmhouses they found brilliant murals illuminated by the desert sun, portraying beloved icons of the pilgrims' faith and scenes from the Koran. Their nearly one hundred and fifty color photographs and accompanying descriptions record the radiant palette of mostly self-taught artists." "Unprotected from the scorching sun, sandy winds, and seasonal rains, these "flowers in the desert" eventually fade and vanish, never to be repaired or recreated. Hajj Paintings is the only major study and lasting record of this ephemeral but important religious folk art."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. As one of the five pillars of Islam the pilgrimage to Mecca (the Hajj) is central to the life of all Muslims. A network of roads radiates from the Hijaz like a giant spider's web, connecting Mecca to all parts of the Muslim world. Historically the most significant of these routes starts at Damascus in Syria, and is a direct continuation of the ancient trade route connecting Arabia to the Levant. The Prophet Muhammad is known to have used this route when he travelled as a merchant from Mecca to Bosra in Syria. In more recent times this was the route chosen for the Hijaz railway which figured prominently in the great Arab Revolt. A significant part of this route runs through Jordan, from the wide grasslands of the north to the sandy desert of the far south. This book documents the archaeological and architectural remains which line this route, paying particular attention to the forts and cisterns built and maintained by the Ottoman rulers from the 16th century onwards. A series of introductory chapters provide the historical context, with an emphasis on the political and military significance of the route from the 16th to the 18th centuries. In addition to the detailed coverage of Jordanian Hajj forts, the book also describes the sites and path of the route through Syria and Saudi Arabia. The final part of the book describes the results of excavations at one of the forts, which gives an insight into the material culture of both the pilgrims and the soldiers who manned the forts.

The Qu'ran admonishes Muslims that "the pilgrimage to the temple is an obligation due to God from those who are able to journey there." Today over one and a half million pilgrims annually fulfill this Fifth Pillar of Islam, the Hajj. Saudi Arabia conquered the Hijaz in part to protect Hajjis from abuses in the management of the Hajj. How does that country now administer the religious event that brings so many people, often poor and illiterate, into one small area to perform a variety of complex rituals? How does the government protect its visitors' health and safety, and ensure their proper guidance through the necessary rites? How does it move so many pilgrims in and out of what is essentially an out-of-the-way desert? David Long has set this thoughtful examination of the twentieth-century Hajj within its historical framework. He first provides a clear, concise description of the rituals either necessary or traditional to the proper performance of the Hajj; he then relates how the inhabitants of Mecca used to manage the pilgrimage and finally, relates how the new Saudi rulers gradually brought the Hajj service industry under government regulation. Today there is probably no agency of the Saudi government which is not at least tangentially concerned with the Hajj. Only in the area of health did there exist a history of public management. By the early nineteenth century it had become all too clear that the Hajj served to carry diseases endemic to the Orient to Europe, and by the end of that century health and quarantine procedures were under international control. Today the Saudi government has sole control of these matters. Oil revenue vastly exceeds Hajj revenues--once a major source of Saudi income--but the Hajj continues to play an enormous role in the religious, social, and political life of the country. And even in economics it structures the Saudi businessman's year and provides part- or full-time employment to more Saudi citizens than does the oil industry. This volume contains an extensive bibliography, appendixes containing statistical material on recent Hajjs, maps, and a glossary.

In 1517, the Ottoman Sultan Selim "the Grim" conquered Egypt and brought his empire for the first time in history into direct contact with the trading world of the Indian Ocean. During the decades that followed, the Ottomans became progressively more engaged in the affairs of this vast and previously unfamiliar region, eventually to the point of launching a systematic ideological, military and commercial challenge to the Portuguese Empire, their main rival for control of the lucrative trade routes of maritime Asia. The Ottoman Age of Exploration is the first comprehensive historical account of this century-long struggle for global dominance, a struggle that raged from the shores of the Mediterranean to the Straits of Malacca, and from the interior of Africa to the steppes of Central Asia. Based on extensive research in the archives of Turkey and Portugal, as well as materials written on three continents and in a half dozen languages, it presents an unprecedented picture of the global reach of the Ottoman state during the sixteenth century. It does so through a dramatic recounting of the lives of sultans and viziers, spies, corsairs, soldiers-of-fortune, and women from the imperial harem. Challenging traditional narratives of Western dominance, it argues that the Ottomans were not only active participants in the Age of Exploration, but ultimately bested the Portuguese in the game of global politics by using sea power, dynastic prestige, and commercial savoir faire to create their own imperial dominion throughout the Indian Ocean.

Drawing on a thousand years of European travel writing and mapmaking, Dym suggests that after centuries of text-based itineraries and on-the-spot directions guiding travelers and constituting their reports, maps in the fifteenth century emerged as tools for Europeans to support and report the results of land and sea travel. With each succeeding generation, these linear journey maps have become increasingly common and complex, responding to changes in forms of transportation, such as air and motor car 'flight' and print technology, especially the advent of multi-color printing. This is their story.

Western accounts of the Hajj, the ritual Muslim pilgrimage to Mecca, are rare, since access to Mecca is forbidden to non-Muslims. In the Muslim world, however, pilgrimage literature is a well-established genre, dating back to the earliest centuries of the Islamic era. A Shi'ite Pilgrimage to Mecca is taken from the original nineteenth-century Persian manuscript of the Safarnâmeh of Mirzâ Mo'ammad osayn Farâhânî, a well-educated, keenly observant, Iranian Shi'ite gentleman. This memoir holds a wealth of social and economic information about Czarist Russia, the Ottoman Empire, Egypt, Northern Iran, and Arabia. The author is a meticulous observer, recording details of distances, currencies, accommodations, modes of travel, and so on. He records the experiences encountered by pilgrims of his day: physical hardships, disease, generosity and compassion, banditry, hospitality, comradeship, and exaltation. And, without prejudice, he discusses the tensions between the Shi'ites and the Sunnites in the holy places—tensions that still exist and have erupted in bloody clashes during recent pilgrimages. A Shi'ite Pilgrimage to Mecca will appeal to a wide audience of general readers, Middle Eastern scholars, anthropologists, and historians.
