'This book represents a major effort to bring Amerindian poetry to the reader in such a way that the total poetry, the dance, the vowel changes, the pauses, the movement, the interaction between speaker and audience is made evident...' -John Demos, Library Journal House & Garden New York ; Toronto : McGraw-Hill

"Having been born a freeman, and for more than

thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

How can I leave thee Viking Adult

The performer and teacher guides the actor in overcoming the human and technical problems of his art

SSL and TLS: Theory and Practice, Second Edition John Wiley & Sons Incorporated

The formal side of Adams is reconciled with his remarkably colorful private life by Shaw's penetrating grasp of the whole man. Considerable attention is given to his clash of wills with Franklin in Europe and his later relationship with Jefferson. The account of Adams's twenty-five years of retirement after losing the presidency resolves some of the dilemmas arising

from the long career of a man who was never really suited by temperament for politics. Originally published in 1976. A UNC Press Enduring Edition -- UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original, and are presented in affordable paperback formats, bringing readers both historical and cultural value.

The Greater New York Charter McGraw Hill Professional

what it means to be avant-garde is David Antin's third collection of "talk poems" published by New Directions. As in his earlier talking at the boundaries (1976), and tuning (winner of the 1984 PEN/Los Angeles Literary Award for Poetry), Antin's brilliant improvised disquisitions at once challenge

readers' expectations even as they instruct and entertain. A poet, performance artist, art critic, and professor of visual arts, Antin, since his college days in New York in the '50s, has been at the cutting edge of the avant-garde. The avant-garde? Yes, if by this is meant not an image of fashion but the place where art and life intersect, imparting to both a greater urgency - if is meant the place where experience and knowledge find their deepest expression, where the idea of a universal language can find shape, where the price of art is itself, where the fringe is the very center of existence.

In The Progress Paradox, Gregg Easterbrook draws upon three decades of wide-ranging research and thinking to make the persuasive assertion that almost all aspects of Western life have vastly improved in the

past century – and yet today, most men and women feel less happy than in previous generations. Detailing the emerging science of “ positive psychology, ” which seeks to understand what causes a person ’ s sense of well-being, Easterbrook offers an alternative to our culture of crisis and complaint. He makes a compelling case that optimism, gratitude, and acts of forgiveness not only make modern life more fulfilling but are actually in our self-interest. An affirming and constructive way of seeing life anew, The Progress Paradox will change the way you think about your place in the world – and about our collective ability to make it better.

Through meditations on the self as it operates in an intimate relationship, Hannah Donovan explores what it means to lose sight of one's light when close to another, and the struggle that ensues when staying and going seem equally agonizing.

A Conversation with David Antin Prentice Hall
Close Listening brings together seventeen strikingly original essays, especially written for this volume, on the poetry reading, the sound of poetry, and the visual performance of poetry. While the performance of poetry is as old as poetry itself, critical attention to modern and postmodern poetry performance has been surprisingly slight. This volume, featuring work by critics and poets such as Marjorie Perloff, Susan Stewart, Johanna Drucker, Dennis

Tedlock, and Susan Howe, is the first comprehensive introduction to the ways in which twentieth-century poetry has been practiced as a performance art. From the performance styles of individual poets and types of poetry to the relation of sound to meaning, from historical and social approaches to poetry readings to new imaginations of prosody, the entries gathered here investigate a compelling range of topics for anyone interested in poetry. Taken together, these essays encourage new forms of "close listenings"--not only to the printed text of poems but also to tapes, performances, and other expressions of the sounded and visualized word. The time is right for such a volume: with readings, spoken word events, and the Web gaining an increasing audience for poetry, Close Listening opens a number of new avenues for the critical discussion of the sound and performance of

poetry.

The Progress Paradox UNC Press Books
People make media, media takes up two-thirds of our waking hours, media impacts our lives; it is critical to understand how the media work and why, to grasp the global nature of communication, and to assess media messages to attain media literacy. The Media of Mass Communication, 11e teaches students to understand how the media work and why. The material engages students as both consumers and creators of mass media. Students explore the latest media economic, technological, cultural and political shifts all in historical context. They engage with the coverage of ongoing transformations in mass media as analysts, examining the various ways in which media impacts the world as they hone their media literacy skills. Praised for its dynamic writing

style, *The Media of Mass Communication*, 11e helps students see why the media are in such a tumultuous transition and provides tools for understanding the reshaping of the entire media industry. Personalize

Learning – MyCommunicationLab for Mass Communication delivers proven results in helping students succeed, provides engaging experiences that personalize learning, and comes from a trusted partner with educational expertise and a deep commitment to helping students and instructors achieve their goals. With tools such as MediaShare (our video upload and commenting tool), MyOutline, and self-assessments in MyPersonalityProfile, MyCommunicationLab works with students and instructors to personalize the learning experience and make it more effective. Improve Skill Development and Application – Pedagogical tools including Study

Preview; Chapter Wrap-Up, Review Questions; lists of key concepts, terms and people; and Media Sources help students understand central concepts and prepare for the course. Additional activities on MyCommunicationLab.com emphasize skill-building and applications. Engage Students – Introductory vignettes at the beginning of each chapter provide evocative stories that illustrate important issues about the mass media and provide colorful descriptions about people who contributed significantly to the mass media. “ Media People ” boxes profile key figures in media industries. New “ Media Counterpoints ” boxes explore two sides of an issue, presenting the key arguments on controversial topics and providing critical thinking questions designed to help students determine their own positions on each issue. Explore Examples of contemporary

communication – New “ Media Tomorrow ” boxes address the impact of new technologies on media as well as the public ’ s changing media consumption patterns. Topics range from eyetracking tablet users ’ media access to the growth of digital publications and governmental online access policies. Emphasize Learning Outcomes – “ Media Timelines ” cast key development in the mass media in a graphic chronology and place media milestones in the larger social context. To help students establish a greater framework for understanding how issues such as culture, democracy, economy, and audience fragmentation in the media, interact with each media industry differently and relate to media literacy, each chapter concludes with a highly visual “ Thematic Summary. ” Understand Theory and Research — Students also can access Pearson ’ s MySearchLab where

they can get extensive help on the research process as well as access four databases of credible and reliable source material (for details, please see www.mysearchlab.com). MySearchLab also contains an AutoCite feature that assists students in the creation of a Works Cited document (using APA, MLA, or Chicago formats), as well as Pearson ’ s SourceCheck, which encourages students to accurately document and cite their sources. Support Instructors — A strong supplements package along with activities and assessments in MyCommunicationLab for Mass Communication. ClassPrep, located within MyCommunicationLab, contains videos, lectures, classroom activities, audio clips, and more. Entrepreneurship Artech House For junior/senior/graduate-level courses in Entrepreneurship, New Venture Creation, and Small Business Strategy. Based on the

premise that entrepreneurship can be studied systematically, this text offers a comprehensive presentation of the best current theory and practice. It takes a resource-based point-of-view, showing how to acquire and use resources and assets for competitive advantage. FOCUS ON THE NEW ECONOMY * NEW-Use of the Internet- Integrated throughout with special treatment in Ch. 6. * Demonstrates to students how the new economy still follows many of the rigorous rules of economics, and gives them examples of business-to-business and business-to-customer firms so that they can build better business models. * NEW-2 added chapters on e-entrepreneurship-Covers value pricing; market segmentation; lock-in; protection of intellectual property; and network externalities. * Examines the new economy and the types of resources, capabilities, and strategies that are needed for success in the Internet world. * Resource-based theory- Introduced in Ch. 2 and revisited in each subsequent chapter to help tie concepts together. * Presents an overarching framework, and helps students focus
