Set Your
Husband's Heart
Ablaze Are you a
"desperate
housewife,"
committed to
marriage yet

longing for a deeper, more intimate connection with your husband? Believe it or not, you can have the marriage you long for—if you're willing to take desperate measures. If you're ready to stop the blame game and pursue the marriage of your dreams, let authors Shannon and Greg Ethridge show you how to reignite your relationship with spiritual, emotional, and physical passion. Drawing on real-life stories from both men and

women, as well as lessons from their own less-than-satisfying early years of marriage, they offer provocative insights about what it takes to nurture a dynamic marriage, including... ·what makes a husband's heart grow cold—and how you can fan the embers into flame ·the difference between being “right” and being “righteous” ·how to fight fair ·how to guard your heart against unhealthy comparisons ·the dynamic power of getting spiritually and emotionally

naked ·what your husband really wants most (It's not what you think!) Every Woman's Marriage will give you practical tools and wise biblical counsel for transforming a listless marriage into a vibrant, exciting relationship. Get ready to set your husband's heart ablaze! Inquiry Into the

Importation of

Certain Steel

Goods The

purpose of the

inquiry reported

in this document

was to

determine

whether the

increased

imports of any of

nine steel

products since

1996 were a

principal cause of provide

serious injury, or

a threat of

serious injury, to

Canadian steel

producers. Over

175 parties

participated in

the inquiry,

including

Canadian &

foreign steel

producers, steel

importers &

users, union

representatives,

and the

Commissioner of

Competition. The

inquiry tribunal

conducted two

separate

hearings, the first

concerning injury

and the second

concerning

remedies. The

first five chapters

information on

the conduct of

the inquiry, its

international

context, the

goods covered

by the inquiry,

and the inquiry's

legal framework.

Chapters 5 to 8

provide reasons

for the tribunal's

determinations

on injury for

discrete plate

steel, hot- & cold-

rolled sheet &

coil, corrosion-

resistant sheet &

coil, hot-rolled

bars, angles &

shapes &

sections, cold-

drawn & finished

bars & rods,

reinforcing bars,

and standard

pipe. The final section makes recommendation s on appropriate remedies. The monitoring of data within educational institutions is essential to ensure the success of its students and faculty. By continually analyzing data, educational leaders can increase quality and productivity in their institutions.
Data Leadership for K-12 Schools in a Time of Accountability

explores techniques and processes of educational data analysis and its application in developing solutions and systems for instructional concerns and next-generation learning. Providing extensive research covering areas such as data-driven culture, student accountability, and data dissemination, this unique reference is essential for principals, administrators, practitioners, academicians, students, and educational

consultants looking to maximize their institution's performance.

Governance is

a word that is

increasingly

heard and read

in modern

times, be it

corporate

governance,

global

governance, or

investment

governance.

Investment

governance,

the central

concern of

this modest

volume, refers

to the

effective

employment of

resources—people

and policies,

processes, and

systems—by an

individual or

governing body

(the fiduciary

or agent)

seeking to

fulfil their

fiduciary duty

to a principal

(or

beneficiary) in

addressing an

underlying

investment

challenge.

Effective

investment

governance is

an enabler of

good

stewardship,

and for this

reason it

should, in our

view, be of

interest to all

fiduciaries, no matter the size of the pool of

assets or the

nature of the

beneficiaries.

To emphasize

the importance

of effective

investment

governance and

to demonstrate

its flexibility

across

organization

type, we

consider our

investment

governance

process within

three contexts:

defined

contribution

(DC) plans,

defined benefit

(DB) plans, and

endowments and

foundations

(E&Fs). Since

the financial

crisis of

2007–2008, the

interest to all

financial

sector's place

in the economy

and its methods

and ethics have

(rightly, in many cases) been under scrutiny. Coupled with this theme, the task of investment governance is of increasing importance due to the sheer weight of money, the retirement savings gap, demographic trends, regulation and activism, and rising standards of behavior based on higher expectations from those fiduciaries serve. These trends are at the same time related and self-reinforcing. Having explored the why of investment governance, we dedicate the remainder of the book to the question of how to bring it to bear as an essential component of good fiduciary practice. At this point, the reader might expect investment professionals to launch into a discussion about an investment process focused on the best way to capture returns. We resist this temptation. Instead, we contend that achieving outcomes on behalf of beneficiaries is as much about managing risks as it is about capturing returns—and we mean “risks” broadly construed, not just fluctuations in asset values.

This Surgeon General's Report details the causes and the consequences of tobacco use among youth and young adults by focusing on the social, environmental, advertising, and marketing influences

that encourage youth and young adults to initiate and sustain tobacco use. This is the first time tobacco data on young adults as a discrete population have been explored in detail. The report also highlights successful strategies to prevent young people from using tobacco. This three volume set includes the

following items: A booklet containing highlights from the 2012 Surgeon General's report on tobacco use among youth and teens ages 12 through 17 and young adults ages 18 through 26. This booklet provides an overview of tobacco use within this targeted age group. The second booklet is an Executive Summary with two messages. One message from for Kathleen Sebelius, Secretary of Health and Human Services and a second message from Howard Koh, Assistant Secretary of Health and contains a brief introduction to the set and summary and conclusions for each chapter contained in the final volume. The final volume contains over 800 pages of documentation, interwoven with text and data addressing the adverse health consequences of tobacco use by children and young adults. It includes research on a variety of topics, including nicotine addiction, trends in cigarette smoking

among young adults, trends in smokeless tobacco use and cigar smoking over time, genetic factors in tobacco use among youth, and mass media influence on smoking to this age group to name a few. This third volume is rich with table data research findings to support the Surgeon General s

concerns with America s use and tobacco. A list of U.S. importers and the products they import. The main company listing is geographic by state while products are listed by Harmonized Commodity Codes. There are also alphabetical company and product indexes. *Investment Governance for Fiduciaries* World-renowned economist Klaus Schwab, Founder and

Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new

technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing,

DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine "smart factories" in

which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

Ward's Business Directory of Private and Public Companies in Canada and Mexico

A silent revolution is underway, as entrepreneurs challenge prevalent notions of business motives and

methods to invent market-based solutions to eradicate social injustice. Yet many fail to succeed. Based on original research, the authors uncover why impressive solutions fail to scale up, featuring global case studies and practical solutions.

Safeguard Inquiry Into the Importation

of Certain Steel Goods Safeguard Inquiry Into the Importation of Certain Steel Goods
An inspirational and practical guide to leadership from the New York Times bestselling author of The 7 Habits of Highly Effective People.
Covey, named one of Time magazine's 25 Most Influential Americans, is a

renowned authority on leadership, whose insightful advice has helped millions. In his follow-up to The 7 Habits of Highly Effective People, he poses these fundamental questions: How do we as individuals and organizations survive and thrive amid tremendous change? Why are efforts to improve

falling so short in real results? How do we unleash the creativity, talent, and energy within ourselves and others? Is it realistic to believe that balance among personal and professional life is possible? The key to dealing with the challenges that we face is to identify a p

rinciple-centered core within ourselves and our institutions . In Principle-Centered Leadership, Covey outlines a long-term, inside-out approach to developing people and organizations . Offering insights and guidelines on how to apply these principles both at work and at home, Covey posits that these steps will

lead not only to an increase in productivity and quality of work, but also to a new appreciation of personal and professional relationships as we strive to enjoy a more balanced, rewarding, and ultimately more effective life. "There seems to be no limit to the number of writers offering

answers to the great perplexities of life. Covey, however, is the North Star in this field . . . without hesitation, strongly recommended. " -Library Journal Annual Report 'Supply Chain Management' illustrates the key drivers of good supply chain management in order to help students understand what creates a competitive

advantage. It also provides strong coverage of analytic skills so that students can gauge the effectiveness of the techniques described.
