Governance is a word that is increasingly heard and read in modern times, be it corporate governance, global governance, or investment governance. Investment governance, the central concern of this modest volume, refers to the effective employment of

resources—people, policies, processes, and systems—by an individual or governing body (the fiduciary or agent) seeking to fulfil their fiduciary duty to a principal (or beneficiary) in addressing an underlying investment challenge. Effective investment governance is an enabler of good stewardship, and for this reason it should, in our view, be of interest to all fiduciaries, no matter the size of the pool of assets or the nature of the

beneficiaries. To emphasize the importance of effective investment governance and to demonstrate its flexibility across organization type, we consider our investment governance process within three contexts: defined contribution (DC) plans, defined benefit (DB) plans, and endowments and foundations (E&Fs). Since the financial crisis of 2007 – 2008, the financial sector 's place in the economy and its methods and ethics have

(rightly, in many cases) been under scrutiny. Coupled with this theme, the task of investment governance is of increasing importance due to the sheer weight of money, the retirement savings gap, demographic trends, regulation and activism, and rising standards of behavior based on higher expectations from those fiduciaries serve. These trends are at the same time related and self-reinforcing. Having explored the why of

investment governance, we dedicate the remainder of the book to the question of how to bring it to bear as an essential component of good fiduciary practice. At this point, the reader might expect investment professionals to launch into a discussion about an investment process focused on the best way to capture returns. We resist this temptation. Instead, we contend that achieving outcomes on behalf of beneficiaries is as much about managing

risks as it is about capturing returns—and we mean “risks” broadly construed, not just fluctuations in asset values.

Components and Sub-Assemblies Gabriola Island, B.C. : New Society Publishers 'Supply Chain Management' illustrates the key drivers of good supply chain management in order to help students understand what creates a competitive advantage. It also provides strong coverage of analytic skills so that students can gauge the effectiveness of the

techniques described.

Inquiry Into the
Importation of Certain
Steel GoodsThe purpose
of the inquiry
reported in this
document was to
determine whether the

increased imports of
any of nine steel
products since 1996
were a principal cause
of serious injury, or a
threat of serious
injury, to Canadian
steel producers. Over
175 parties
participated in the
inquiry, including
Canadian & foreign
steel producers, steel
importers & users,
union representatives,
and the Commissioner of
Competition. The
inquiry tribunal
conducted two separate
hearings, the first
concerning injury and

the second concerning
remedies. The first
five chapters provide
information on the
conduct of the inquiry,
its international
context, the goods
covered by the inquiry,
and the inquiry's legal
framework. Chapters 5
to 8 provide reasons
for the tribunal's
determinations on
injury for discrete
plate steel, hot- &
cold-rolled sheet &
coil, corrosion-
resistant sheet & coil,
hot-rolled bars, angles
& shapes & sections,
cold-drawn & finished

bars & rods,
reinforcing bars, and
standard pipe. The
final section makes
recommendations on
appropriate
remedies. Ward's

Alma, Ont. : L.
Swackhammer
World-renowned
economist Klaus Schwab,

Founder and Executive
Chairman of the World
Economic Forum, explains
that we have an
opportunity to shape the
fourth industrial revolution,
which will fundamentally
alter how we live and
work. Schwab argues that
this revolution is different
in scale, scope and
complexity from any that
have come before.
Characterized by a range
of new technologies that
are fusing the physical,
digital and biological
worlds, the developments

are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than

steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine “smart factories” in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history.

He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries

rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

The monitoring of data within educational institutions is essential to ensure the success of its students and faculty. By continually analyzing data, educational leaders can increase quality and productivity in their institutions. Data Leadership for K-12 Schools in a Time of Accountability explores techniques and processes of educational data analysis and its application in developing solutions and systems for instructional concerns and next-generation learning. Providing extensive research covering areas such as data-driven culture, student

accountability, and data dissemination, this unique reference is essential for principals, administrators, practitioners, academicians, students, and educational consultants looking to maximize their institution's performance.

Set Your Husband's Heart Ablaze Are you a "desperate housewife," committed to marriage yet longing for a deeper, more intimate connection with your husband? Believe it or not, you can have the marriage you long for—if you're willing to take desperate measures. If you're ready to stop the blame game and pursue the marriage of your dreams, let authors Shannon and Greg Ethridge show you how to reignite your relationship with spiritual, emotional, and physical passion. Drawing on

real-life stories from both men and women, as well as lessons from their own less-than-satisfying early years of marriage, they offer provocative insights about what it takes to nurture a dynamic marriage, including...

- what makes a husband's heart grow cold—and how you can fan the embers into flame
- the difference between being “right” and being “righteous”
- how to fight fair
- how to guard your heart against unhealthy comparisons
- the dynamic power of getting spiritually and emotionally naked
- what your husband really wants most (It's not what you think!)

Every Woman's Marriage will give

you practical tools and wise biblical counsel for transforming a listless marriage into a vibrant, exciting relationship. Get ready to set your husband's heart ablaze!

Significantly reduced list price This Surgeon General's Report details the causes and the consequences of tobacco use among youth and young adults by focusing

on the social, environmental, advertising, and marketing influences that encourage youth and young adults to initiate and sustain tobacco use. This is the first time tobacco data on young adults as a discrete population have been explored in detail. The report also highlights successful strategies to prevent young people from using tobacco. This three volume set includes the following items: A booklet containing highlights from

the 2012 Surgeon General's report on tobacco use among youth and teens ages 12 through 17 and young adults ages 18 through 26. This booklet provides an overview of tobacco use within this targeted age group. The second booklet is an Executive Summary with two messages. One message from for Kathleen Sebelius, Secretary of Health and Human Services and a second message from Howard Koh, Assistant

Secretary of Health and contains a brief introduction to the set and summary and conclusions for each chapter contained in the final volume. The final volume contains over 800 pages of documentation, interwoven with text and data addressing the adverse health consequences of tobacco use by children and young adults. It includes research on a variety of topics, including nicotine addiction, trends in

cigarette smoking among young adults, trends in smokeless tobacco use and cigar smoking over time, genetic factors in tobacco use among youth, and mass media influence on smoking to this age group to name a few. This third volume is rich with table data research findings to support the Surgeon General's concerns with America's use and tobacco. Supply Chain Management
An inspirational and practical guide to leadership from the New York Times—bestselling author of *The 7 Habits of Highly Effective People*. Covey, named one of Time magazine's 25 Most Influential Americans, is a renowned authority on leadership, whose insightful

advice has helped millions. In his follow-up to *The 7 Habits of Highly Effective People*, he poses these fundamental questions: How do we as individuals and organizations survive and thrive amid tremendous change? Why are efforts to improve falling so short in real results? How do we unleash the creativity, talent, and energy within ourselves and others? Is it realistic to believe that balance among personal and professional life is possible? The key to dealing with the challenges that we face is to identify a principle-

centered core within ourselves and our institutions. In Principle-Centered Leadership, Covey outlines a long-term, inside-out approach to developing people and organizations. Offering insights and guidelines on how to apply these principles both at work and at home, Covey posits that these steps will lead not only to an increase in productivity and quality of work, but also to a new appreciation of personal and professional relationships as we strive to enjoy a more balanced, rewarding, and

ultimately more effective life. “There seems to be no limit to the number of writers offering answers to the great perplexities of life. Covey, however, is the North Star in this field . . . without hesitation, strongly recommended.” —Library Journal
