The nineteenth-century novel has always been regarded as a literary form pre-eminently occupied with the written word, but Ivan Kreilkamp shows it was deeply marked by and

engaged with vocal performances and the preservation and representation of speech. He offers a detailed account of the many ways Victorian literature and culture represented the human voice, from political speeches, governesses' tales, shorthand manuals, and staged authorial performances in the early- and mid-century, to mechanically reproducible voice at the end of the century. Through readings of Charlotte Brontë, Browning, Carlyle, Conrad, Dickens, Disraeli and Gaskell, Kreilkamp re-evaluates critical assumptions about the cultural meanings of storytelling, and shows that the figure of the oral storyteller, rather than disappearing among readers' preference for printed texts,

persisted as a character and a function within the novel. This 2005 study will change the way readers consider the Victorian novel and its many ways of telling stories.

This story of Southern siblings is “a complex meditation on how two men who grew up together came away with diametrically opposing views” (The Boston Globe). Brothers Barry and Tommy Moser were born of the same parents in Chattanooga, Tennessee; slept in the same bedroom; went to the same school—and were both poisoned by their family’s deep racism and anti-Semitism. But as they grew older, their perspectives and paths grew further and further apart. Barry left

Chattanooga for New England and a life in the arts; Tommy stayed put and became a mortgage banker. From attitudes about race to food, politics, and money, the brothers began to think so differently that they could no longer find common ground. For nearly forty years, there was more strife between them than affection. After one particularly fractious conversation, their fragile relationship fell apart. With the raw emotions that so often surface when we talk of our siblings, Barry recalls how they were finally able to traverse that great divide and reconcile their troubled brotherhood before it was too late. In *We Were Brothers*, “Barry Moser writes about the savagery of racism and the savagery between brothers with thoughtful introspection. In his efforts to understand both what he did and what was done to him, he has given us a beautiful and deeply compassionate examination of life” (Ann Patchett). “A powerful evocation of an era

in which African-American children could play in a white person’s yard but weren’t allowed into the house. And it’s a moving portrait of two men—loving but wary, and capable of beauty even in the presence of the ugliest flaws.”

—Minneapolis Star-Tribune “Might prove especially poignant and comforting to people navigating difficult family relationships.”

—Michel Martin, weekend host of NPR’s All Things Considered

Cursive Handwriting Workbook for Teens: Learning Cursive with Inspirational Quotes for Young Adults, 3 in 1 Cursive Tracing Book Including over 130 Pages of Exercises with Letters, Words and Sentences Recommended by teachers It is important to know, that neuroscientists believe that learning cursive is developmentally beneficial for the human

brain, at any stage. Writing by hand, especially in cursive, is vital in training the brain to practice and, thus improve, more skills and senses all at once: hand-eye coordination, patience, self-control, and a sense of involvement and ownership. All this, while learning more about the English language. In this workbook, you will find various writing exercises in over 130 pages. The lines in the book are wide/legal ruled with the measurements: 3/8", 9mm distance between the top line and the bottom line, with a dotted midline. The letter size is customized for teenagers and young adults alike, to help with learning cursive writing on legal ruled lines. What's inside? Part 1 starts off with the Alphabet where writing letters in both lowercase and capital forms are practiced through tracing and

connecting the dots. Each letter is presented with directional arrows to guide the hand movements. This book has plenty of space with a whole page for practicing each letter. Part 2 and 3 moves on to writing inspirational quotes in cursive from some of the greatest thinkers, leaders and artists throughout history like: Leonardo da Vinci, Abraham Lincoln, Socrates, Queen Victoria, Voltaire and many others. There are two worksheets for each quote. You will gain thorough practice in writing words first, which are extracted from the quote with a traceable cursive font. The next step moves on to writing the entire sentence from the quote multiple times. Go to the top-right of the page and click "Add to Cart"
