SPX FLOW 's Hankison brand, is an industrial products group with a global reputation in the compressed air treatment industry for providing customers with the latest technology producing superior results. Hankison is committed to delivering

sustainable air treatment solutions for increased customer productivity and energy savings.

Get a refrigerated air dryer to help easily provide continuous dry air to your compressed air supply line. Refrigerated compressed air dryers work by cooling the air that enters the compressor, helping the water vapor in the air to condensate and drain out. Providing dry air can help protect your pneumatic piping, tools and equipment.
