From the host of the  
YouTube channel that  
went viral—Dad, How  
Do I?—comes a book  
that’s part  
memoir/part  
inspiration/part  
DIY. Rob Kenney’s  
father left him and  
his seven siblings  
when he was fourteen  
years old, and the  
youngest had to fend  
for themselves. He  
wished that he had  
someone who could  
teach him the

basics—how to tie a  
tie, jump-start a  
car, unclog a drain,  
use tools properly—as  
well as succeed in  
life. But he and his  
siblings had to  
figure these things  
out on their own. Now  
a father himself, Rob  
decided that he would  
help people out by  
providing how-to tips  
as well as advice—and  
even throw in some  
bad dad jokes. He  
started a YouTube  
channel for anyone  
looking for fatherly  
advice, and in the  
course of three  
months, gained a  
following of nearly  
2.5 million  
subscribers, with  
millions of views for  
his how-to and  
inspirational videos.  
In this book, Rob  
shares his story of

---

overcoming a difficult childhood with the strength of faith and family, and offers inspiration and hope. In addition, he provides 50 practical DIY instructions (30 of which will be unique to the book), illustrated with helpful line drawings.

Anthropology is the study of all humans in all times in all places. But it is so much more than that. "Anthropology requires strength, valor, and courage," Nancy Scheper-Hughes noted. "Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a "heroic" profession." What is the payoff for this heroic journey? You will find ideas that can

---

carry you across  
rivers of doubt and  
over mountains of  
fear to find the the  
light and life of  
places forgotten.  
Real anthropology  
cannot be contained  
in a book. You have  
to go out and feel  
the world's jagged  
edges, wipe its dust  
from your brow, and  
at times, leave your  
blood in its soil. In  
this unique book, Dr.  
Michael Wesch shares  
many of his own  
adventures of being

what the science of
