Harcourt Horizons is definitely  
non-sectarian, yet it does include  
some respectful coverage of  
religions including a discussion  
about studies regarding religious  
freedom in recent years. In World  
History, it does begin with  
discussion of “ modern  
humans ” living in eastern and  
southern Africa more than  
100,000 years ago. But it doesn't  
discuss evolution directly or  
present a chain of human  
development from non-humans.
