He didn't say good-bye. He didn't leave a phone number. And he didn't plan on coming back - ever. In Wisconsin, Rico could blend in. His light hair and lighter skin wouldn't make him the "dark dude" or the punching bag for the whole neighborhood. The Midwest is the land of milk and honey, but for Rico Fuentes, it's really a last resort. Trading Harlem for Wisconsin, though, means giving up on a big part of his identity. And when Rico no longer has to prove that he's Latino, he almost stops being one. Except he can never have an ordinary white kid's life, because there are some things that can't be left behind, that can't be cut loose or forgotten. These are the things that will be with you forever.... These are the things that will follow you a thousand miles away. For anyone who loved *The Outsiders* -- and for anyone who's ever felt like one -- Pulitzer Prize-winning novelist Oscar Hijuelos brings to life a haunting choice and an unforgettable journey about identity, misidentity, and all that we take with us when we run away.

In Harley-Davidson, motorcycle journalist Christopher P. Baker offers a complete guide to every production engine ever built by the USA's leading motorcycle brand. This book presents each of the distinct engine epochs chronologically in its own chapter, including profiles of archetypal motorcycle models best associated with each engine. Images of a select variant most representative of each engine era illustrate the introduction of each chapter. Further details on these highlighted engines are given in the pages for the specific model from which each was taken. More than 40 classic Harleys are portrayed in detail, from the first "Model Number 1" F-head single of 1903 to the Pan America adventure tourer of 2021, powered by Harley's state-of-the-art liquid-cooled Revolution Max engine. In between, the development of the Harley-Davidson engines is traced as a gradual evolutionary process, reflecting how the brand's unique classic V-Twin characteristics--hearkening all the way back to the F-head 45-degree layout--came to define an attitude, emotion, and lifestyle, fostering a company maxim: "If it ain't broke, don't fix it."

The Harley-Davidson Story: Tales from the Archives is a fascinating, visually driven overview of the motor company's rich story, created in cooperation with the Harley-Davidson Museum. The story of Harley-Davidson is a classic American tale of

spirit, invention, and the right idea at the right time. From its beginning in a small Milwaukee shed in 1903, William Harley and his cousins, the Davidson brothers, set in motion what would eventually become the world's most iconic motorcycle company. While other motorcycle companies rose and fell through the teens and 1920s, Harley went from strength to strength, whether introducing its first V-twin motor or dominating race tracks across America. The Milwaukee Miracle even prospered during WWII, building war bikes for the armed forces. By the 1950s, they'd buried their last American-built competitor, Indian, and gained a hold over the US market that they maintain to this day. A remarkable story deserves a remarkable space to recount it. Such is the Harley-Davidson Museum in Milwaukee, which opened in 2009. Harley-Davidson partnered with Motorbooks to create this book relaying Harley-Davidson's story, as told through the museum's displays and archive assets.

Bulova: A History of Firsts chronicles the extraordinary American watch company in a fittingly unusual manner: by recounting an epic, multi-generational picaresque that runs from the Gilded Age up through present-day New York City. Joseph Bulova, the man behind the movement by which America would set its time, was an iconoclastic industrialist who introduced standardized mass production to fine mechanical watchmaking, fostering in turn a corporate culture of innovation that endures today. Less a traditional corporate history than an exactingly curated periodical, this profound new title features eight visually captivating chapters comprising an essay each by luminaries including style journalists David Coggins and Matthew Hranek, music-industry legend Nile Rodgers, advertising writer Stuart Elliott, noted horology authority Jack Forster and more, all edited by luxury historian Aaron Sigmond.
