"Bernadette Murphy's luminous book shows us how to take risks that make us fierce and vulnerable, knowing that true strength is about being generous as much as it is about not giving in." —Emily Rapp Black, author of *The Still*

Point of the Turning World and Poster Child  
What happens when women in midlife step out of what's predictable? For Bernadette Murphy, learning to ride a motorcycle at forty – eight becomes the catalyst that transforms her from a settled wife and professor with three teenage children into a woman on her own. The confidence she gained from mastering a new skill and conquering her fears gave her the courage to face deeper issues in her own life and start taking risks. It is a fact that men and women alike become more risk averse in our later years—which according to psychologists and neuroscience is exactly what we should not do. And Murphy stresses that while hers is a story of transformation using a physical risk, emotional and educational risks can serve the same beneficial purpose for other women. Murphy uses her own story to explore the larger idea of how risk changes our brain chemistry, how certain personality types embrace dangerous behavior and why it energizes them, and why women's expectations change once estrogen levels drop after the childbearing years. She also explores the idea of women and risk in pop culture—why there are so few stories of the conquering heroine (instead of hero). Surely Thelma and Louise driving off the cliff should not be our only pop culture reference for women finding true freedom. With scientific research and journalistic interviews weaving through a page – turning, road trip narrative, *Harley and Me* is a compelling look at how one woman changed her life and found

Walk Through Fire Motorbooks International The Harley-Davidson WLA and other American military motorcycles performed crucial roles during the Second World War in the U.S. armed forces and other Allied armies worldwide. Liberator: The Harley-Davidson WLA in the Second World War for the first time tells the full story of how the U.S. Army and Marine Corps and other Allied armed forces used the Harley-Davidson WLA and other American military motorcycles during the war. The book traces the development of the WLA in 1940-42 from the civilian Forty-Five models of 1929-39, describes the evolution of U.S. Army and Marine Corps usage of motorcycles through the motorcycle-borne mechanized cavalry experiments of 1940-41, and addresses wartime use of motorcycles in each major type of U.S. Army unit (mechanized cavalry, armored divisions, infantry divisions, airborne divisions, military police, etc.) and in Marine Divisions, with detailed tables of organization and equipment for each. Moreover, Liberator: The Harley-Davidson WLA in the Second World War describes the use of the WLA, Indians, and other Harley-Davidsons in each Allied army that used them. It especially emphasizes their use by the Soviet Union, which was the largest user of the WLA, receiving more through Lend-Lease than the number used by the U.S. armed services.

These countries include:- Soviet Union- Canada- United Kingdom- Australia- New Zealand- South Africa- India- Poland - France - Brazil- Iran- Republic of China Although primarily focused on the Harley-Davidson WLA, the book also describes use of other Harley-Davidsons, Indians, and small motorcycles designed for airborne troops, in the U.S. armed services and other allied armies. These other models include:- Harley-Davidson WL- Harley-Davidson "Big Twins"- Indian 741, 640, 344, and 340- Cushman Model 53 scooter - Simplex Servicycle Unique human perspectives on the Harley-Davidson WLA and other American military motorcycles during the war come from the stories of several individual U.S. Army soldiers who fought on motorcycles, and the histories of a U.S. Army military police unit and a Red Army motorcycle battalion. These stories, several of them previously unpublished, are reminders of the men who once rode these machines during the war. This book will be of interest to enthusiasts of Harley-Davidson, Indian, and military motorcycles, and to military historians and preservationists worldwide.

They are totally lost within each other and the sexual chemistry between them seems to grow and grow. She trusts Darius

completely as he gently introduces her to his world of BDSM and their lovemaking becomes more intense and pleasurable for them both. However, there is the spectre of Darius's previous sexual relationship with a high class prostitute, Alice, which somehow always seems to be in the background, not least because of her possible involvement in the abduction and holding to ransom of Helena early on in her relationship with Darius. There is also Connor, Helena's first lover, who doesn't seem to have given up on regaining her love. The intensity of Helena's and Darius's love and love making appears to build an impenetrable fortress around them, but could that be breached?

All Dan wanted was to celebrate his anniversary in the beautiful Freedom Hotel with Judith, his loving wife of 13 years. They had celebrated their anniversary there only three years earlier, and now it seemed the hotel he loved was pushing him away, telling him to leave while he still could. Dan didn't listen. Then the hallucinations began, if they were hallucinations. Taunting, tormenting, chasing his sanity and causing him to remember things he didn't want to remember and perhaps do things he didn't want to do. As from a siren of a forgotten life Dan was being dragged down into a world he could not see, by a Melody so strong he could not pull away. Was his future already formed for him by this past he could not remember? Would Dan be able to escape before he was pulled down for good? Even if he found the answers, would Danny ever be allowed his Freedom?

The ultimate reference for Triumph lovers and fans of British motorcycles, *The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today* collects all of the motorcycles from this iconic brand in a single illustrated volume. In this revised and updated edition, you'll find the all-new Bonneville lineup introduced for the 2016 model year as well as other Triumphs through 2019. Originally formed as a bicycle company in 1885, Triumph produced its first motorcycle in 1902, which was simply a bicycle fitted with a Belgian Minerva engine. From there, the company, in various iterations, went on to build some of the most iconic motorcycles of all time. Written by respected Triumph expert Ian Falloon, this luxurious reference covers all of the major and minor models, with an emphasis on the most exemplary, era-defining motorcycles such as the Thunderbird, Tiger, Trophy, Bonneville, and new machines such as the Speed Triple, Thruxton, and Daytona 675. Detailed technical specifications are offered alongside compelling photography, much of it sourced from Triumph's archives. *The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today* also features important non-production models and factory racing and speed-record-setting motorcycles that have become integral parts of Triumph's stellar reputation. The Harley-Davidson Source Book celebrates these iconic motorcycles in encyclopedia form. Rich with vivid photography, insightful commentary, and production specs and data, this is the #1 resource for die-hard Harley fans all around the world. When most people close their eyes and imagine a motorcycle, that motorcycle looks very much like a Harley-Davidson. That's because Harley builds the archetypal motorcycle, the mythic bike that exists beyond the input provided by our traditional senses. This is what the philosopher

Kant called a priori knowledge, knowledge we can't learn but only intuit. That makes a Harley-Davidson the a priori motorcycle. The Harley-Davidson Motor Co. builds motorcycles that look the way the primordial biker inside each of us feels a motorcycle should be built. This is why Harley-Davidson defines the very word motorcycle for so many people. In *The Harley-Davidson Source Book*, acclaimed Harley-Davidson historian Mitchel Bergeron covers every motorcycle the company has built, from the very first prototype to the Silent Gray Fellow to the latest CVO Electra Glides and Softails. They're all here—the Knucklehead, the Panhead, the Pea Shooter, the KR, the Sportster, the XR750, the Shovelhead, the Evolution, the Twin Cam, the V-Rod, and all the rest. An authoritative text by noted Harley-Davidson historian and journalist Mitchel Bergeron complemented by modern and period photography and archival marketing materials make this Harley reference complete. *The Harley-Davidson Source Book* showcases the most storied, celebrated, and downright wild motorcycles ever produced by the Motor Company. This is the ultimate encyclopedia of the ultimate motorcycle.

on the EVO V-Twin, this is the book you need. 100 Years of Harley-Davidson Routledge  
A handsome, informative overview of Harley Davidson's 100 plus years of style and innovation. Gray & Gold Publishing  
In 1957, The Motor Company, as they call Harley-Davidson in Milwaukee, was in trouble. The big twins were too big, the small two-stroke single was too small, and a surge of imports had taken the sporting market from the under-powered Model K. It was time for something new and different. It was time for the Sportster. Never has a motorcycle been more aptly named. The Sportster kept the K's best features, borrowed the improvements of the imports, threw in some homemade hot rodding, and before you could say Superbike-a term invented to describe the XLCH-the Sportster was making history, setting sales and speed records, and introducing people to the sport of motorcycling and the mystique of Harley-Davidson. The history is still going on. This book tells how and why, in sequence, from the circumstances and models that preceded the XL through to the 1200 Evo, with its five speeds and belt drive. On the way, there are in-depth looks at the race-ready XLC that began the Superbike era (and took even the factory by surprise), at the radical Café Racer and super-sport Buell, and at the price-buster XLX that taught the imports the value of the dollar.
