This college-level media management textbook reflects the changes in the media industries that have occurred in the past decade. Today's managers must address new issues that their predecessors never faced, from the threats of professional piracy and casual copying of digital media products, to global networks, on-demand consumption, and changing business models. The book explains the new new vocabulary of media moguls, such as bandwidth, digital rights management, customer relations management, distributed work groups, centralized broadcast operations, automated playlists, server-based playout, repurposing, mobisodes, TV-to-DVD, and content management. The chapters logically unfold the ways that managers are evolving their practices to make content, market it, and deliver it to consumers in a competitive, global digital marketplace. In addition to media companies, this book covers management processes that extend to all content-producing organizations, because today's students are as likely to produce high-quality video and Web video for ABC Computer Sales as they are for the ABC Entertainment Television Network.

Hailed as “one of the most inventive writers that science fiction has ever produced” (SF Site), Stephen Baxter builds on the massive success of Proxima with a career-defining novel of big ideas.... On the planet of Per Ardua, alien artifacts were discovered—hatches that allowed humans to step across light-years of space as if they were stepping into another room. But this newfound freedom has consequences.... As humanity discovers the real nature of the universe, a terrifying truth comes to light. We all have countless pasts

converging in this present—and our future is terrifyingly finite. There are minds in the universe that are billions of years old and now we are vulnerable to their plans for us.... It’s time to fight back and take control.

WINNER FOR FICTION FORECAST: Storm clouds are on the horizon in L.A. Weather, a fun, fast-paced novel of a Mexican American family from the author of the #1 Los Angeles Times bestseller Esperanza’s Box of Saints. “There’s a 100% chance you’ll be paging through this book to uncover the secrets and deception that could potentially burn everything down!”—Reese Witherspoon “This is by far one of the most endearing L.A. novels in recent memory.” —Publishers Weekly (starred review) "A lively and ambitious family novel."—New York Times Book Review Oscar, the weather-obsessed patriarch of the Alvarado family, desperately wants a little rain. L.A. is parched, dry as a bone, and he’s harboring a costly secret that distracts him from everything else. His wife, Keila, desperate for a life with a little more intimacy and a little less Weather Channel, feels she has no choice but to end their marriage. Their three daughters—Claudia, a television chef with a hard-hearted attitude; Olivia, a successful architect who suffers from gentrification guilt; and Patricia, a social media wizard who has an uncanny knack for connecting with audiences but not with her lovers—are left questioning everything they know. Each will have to take a critical look at her own relationships and make some tough decisions along the way. With quick wit and humor, María Amparo Escandón follows the Alvarado family as they wrestle with impending evacuations, secrets, deception, and betrayal, and their toughest decision yet: whether to stick together or burn it all down.

* Brings together two outstanding series of photographs taken 30 years apart that capture the American religious experience* Expands the earlier, now out of print book, God Inc. I, with photographs that were not previously published* God Inc. I & II are bound together in a reversible volume with two coversIn the summer of 1990, Magnum photographer Carl De Keyzer bought a camper van and spent a year traveling across the United States to capture the American religious experience. Published in 1992, the series - which was exhibited at the California Museum of Photography in San Diego - was called God Inc. Thirty years later, he has revisited the American Bible Belt and various other states to see how religious groups embrace modern life and the latest technologies in their search for new followers. The result, God Inc. I & II, is a fascinating documentary of American life that bundles both series of photographs in a reversible format with two covers. The

first part is supplemented with photographs that were not published before. 'During the whole year, I asked myself why Americans undergo their religious experiences so intensively and emotionally.' - Carl De Keyzer, during the process of creating God Inc. I. Published to accompany an exhibition in Ghent, Belgium, in November 2020. *WALNECK'S CLASSIC CYCLE TRADER, NOVEMBER 2008* Simon and Schuster

This year’s winner of the Yale Series of Younger Poets competition is Davis McCombs’s *Ultima Thule*, which was acclaimed as “a book of exploration, of searching regard.... a grave, attentive holding of a light” by the contest judge, the distinguished poet W. S. Merwin. The poems are set above and below the Cave Country of south central Kentucky, where McCombs lives and which is home to thousands of caves. The book is framed by two sonnet sequences, the first about a slave guide and explorer at Mammoth Cave in the mid-1800s and the second about McCombs’s experiences as a guide and park ranger there in the 1990s. Other poems deal with Mammoth Cave’s four-thousand-year human history and the thrills of crawling into tight, rarely visited passageways to see what lies beyond. Often the poems search for oblique angles into personal experience, and the caves and the landscape they create form a personal geology.

The Harley-Davidson Twin Cam engine was first manufactured in 1999, and remains the current design for all Big Twin Harleys. Today, approximately 2 million Twin Cams are out there and many of them need work. Even for those that don't, most Harley riders are looking for "just a little more horsepower," enough to keep up with their buddies on hopped-up Harleys. For anyone wanting to get a little, or a lot, more power from a Twin Cam, this book presents combinations of parts that

work together to provide the maximum power for the least amount of money. The crew at R&R Cycles have assembled their favorite combinations, or "recipes," that fall into one of three hop-up categories: Mild, Medium, and Race-Ready. In addition to Twin Cam history and theory, as well as the combinations that work, this new book includes a complete and thorough engine assembly chapter. It has more than 20 pages of sequential photos and detailed captions that explain how a professional shop with a long history of building winning race engines, assembles a Twin Cam that's both fast and very durable.
