Leo Biga has reported on the career of filmmaker

Alexander Payne for 20 years. In this updated collection of essays, the author-journalist-blogger offers the only comprehensive look at Payne's career and creative process. Based in Payne's hometown of Omaha, Nebraska, Biga has been granted access to location shooting for Nebraska and Sideways, the latter filmed in California's wine country. Biga has also been given many exclusive interviews by Payne and his

creative collaborators. His insightful analysis of Payne's films and personal journey has been praised by Payne for its "honesty, thoughtfulness, and accuracy." The two-time Oscar-winner calls Biga's articles, "the most complete and perceptive of any journalist's anywhere." Payne's films are celebrated for their blend of humor and honest look at human relationships. Members of Hollywood's A-List, including George Clooney (The Descendants),

Jack Nicholson (About Schmidt), Reese Witherspoon (Election), Paul Giamatti (Sideways), Laura Dern (Citizen Ruth), and Bruce Dern (Nebraska), have starred in his films. I, with photographs that were not previously

published* God Inc. I & II are bound together in a reversible volume with two covers In the summer of 1990, Magnum photographer Carl De Keyzer bought a camper van and spent a year traveling across the United States to capture the American religious experience. Published in 1992, the series - which was exhibited at the California Museum of Photography in San Diego - was called God Inc. Thirty years later, he has revisited the American Bible Belt and various other states to see how

religious groups embrace modern life and the latest technologies in their search for new followers. The result, *God Inc. I & II*, is a fascinating documentary of American life that bundles both series of photographs in a reversible format with two covers. The first part is supplemented with photographs that were not published before. 'During the whole year, I asked myself why Americans undergo their religious experiences so intensively and emotionally.' - Carl De Keyzer, during the process of

creating *God Inc. I*. International Carroll Shelby, legendary driving ace, race team owner, and designer of Shelby Cobra, Daytona, and Mustang GT350 classics is revered by automotive enthusiasts, yet little has been written about the last quarter century of Carroll Shelby 's life. During that time Chris Theodore, VP at Chrysler and Ford, developed a close personal friendship with Carroll. The Last Shelby Cobra chronicles the development of

the many vehicles they worked on together (Viper, Ford GT, Shelby Cobra Concept, Shelby GR1, Shelby GT500 and others). It is an insider 's story about how Shelby came back to the Ford family, and the intrigue behind the five-year journey to get a Shelby badge on a Ford Production Vehicle. The author provides fresh insight and new stories into Shelby 's larger-than-life personality, energy, interests and the many unpublished projects Carroll

was involved with, up to his passing. Finally, the book describes their unfinished project, the Super Snake II Cobra, and the serendipitous circumstances that allowed to the author to acquire ' Daisy, ' the last Shelby Cobra. To his many fans, Carroll Shelby was truly ' the most interesting man in the world. ' Harley-Davidson Twin CAM, Hop-Up & Rebuild Manual Ultima The Harley-Davidson Twin Cam engine was first manufactured in 1999, and remains the current design for all Big Twin Harleys. Today,

approximately 2 million Twin Cams are out there and many of them need work. Even for those that don't, most Harley riders are looking for "just a little more horsepower," enough to keep up with their buddies on hopped-up Harleys. For anyone wanting to get a little, or a lot, more power from a Twin Cam, this book presents combinations of parts that work together to provide the maximum power for the least amount of money. The crew at R&R Cycles have assembled their favorite combinations, or "recipes," that fall into one of three hop-up categories: Mild, Medium, and Race-Ready. In addition to Twin Cam history and theory, as well as

the combinations that work, this new book includes a complete and thorough engine assembly chapter. It has more than 20 pages of sequential photos and detailed captions that explain how a professional shop with a long history of building winning race engines, assembles a Twin Cam that's both fast and very durable.

betrayal, and their toughest decision yet: whether to stick together or burn it all down. 14 Cows for America Createspace Independent Publishing Platform This college-level media management textbook reflects the changes in the media industries that have occurred in the past decade. Today's managers must address new issues that their predecessors never faced, from the threats of professional piracy and casual copying of digital media products, to global networks, on-demand consumption, and

changing business models. The book explains the new new vocabulary of media moguls, such as bandwidth, digital rights management, customer relations management, distributed work groups, centralized broadcast operations, automated playlists, server-based playout, repurposing, mobisodes, TV-to-DVD, and content management. The chapters logically unfold the ways that managers are evolving their practices to make content, market it, and deliver it to consumers in a competitive, global digital marketplace.

In addition to media companies, this book covers management processes that extend to all content-producing organizations, because today's students are as likely to produce high-quality video and Web video for ABC Computer Sales as they are for the ABC Entertainment Television Network. SECOND

EDITION --

February 2018 --

Preface to the Second

Edition: Since its

original publication, I have been extremely gratified by the positive reception the book has received not only from the Italian-American

Community but also from the general public. In this, its second edition, I have expanded the original book by adding more stories taken from my parents' memoirs and new stories about growing up in College Point and living in Italy. With a view to making it a more complete resource for Americans with an Italian heritage, I have also further explored Italian-American history, traditions, folklore, and culture.

Description of the First Edition: "To know who you are, you need to know from whence you

came." This book contains the stories of three generations of Italian-Americans. It represents over one hundred and fifty years of family history.

It traces the trials, tribulations, and triumphs of the Baratta family from Padula and the Visco family from Vico Equense, both of whom settled in Manhattan and subsequently moved to Brooklyn, Queens, and Long Island. The stories, which were taken from family memoirs and transcripts, are told by those who lived them in their own words and are placed in historical context. The book also includes the memoirs of the author which describe growing up in College Point N.Y. in the 40s, 50s, and 60s,

going to medical school in Italy and living in that country, finding his roots in his ancestral Italian hometowns, and practicing cardiology in New York City. Profusely illustrated, with maps and photographs on almost every page, this reader-friendly 434-page book, which was five years in the making, is a celebration of Italian-American culture. It explores Italian-American history, traditions, folklore, customs, music, food, values, and humor. The book also contains Italian proverbs and features recipes from Padula and Vico Equense. Please scroll up and buy the book. Enjoy, recall, and relive, depending on your age, the joys of

growing up Italian-American in the 40s, 50s, and 60s, try the recipes, and journey with the Viscos and the Barattas as they emigrated from Italy in the early 1900s and made something of themselves and their children in America.
