UK photographer Stephen Gill has again used his surroundings as the inspiration for this beautiful and evocative series. "Hackney Flowers" evolved from Gill's longstanding interest in Hackney, East London. For this volume, Gill collected flowers, seeds, berries and objects from Hackney, then pressed them in his studio and rephotographed them alongside his own photographs and other found ephemera, thus building up multi-layered images built from the area. Some of the base photographs were also buried in Hackney Wick, allowing the subsequent decay to imprint upon the images, stressing this collaboration with place. A parallel series also runs within this finely produced book, showing members of the Hackney public with floral details on their persons. This is a warm, poetic and visually exciting book containing images that leave an overwhelming sense of color, emotion and rhythm extracted from a single borough of London. Composer, critic, author, and radio personality, (Joseph) Deems Taylor (1885-1966) was one of the most influential figures in American culture from the 1920s through the 1940s. A self-taught composer, the New York City native wrote such pieces as the orchestral suite *Through the Looking Glass* and the acclaimed operas *The King's Henchman* and *Peter Ibbetson*, the first commissions ever offered by the Metropolitan Opera. Taylor's operatic works were among the most popular and widely performed of his day, yet he achieved greatest fame and recognition as the golden-voiced intermission commentator for the New York Philharmonic radio broadcasts and as the on-screen host of Walt Disney's classic film *Fantasia*. With his witty, clever, charming, and informative but unpatronizing manner, he almost single-handedly introduced classical music to millions of Americans across the nation. In this first biography of Taylor, James A. Pegolotti brings to life the remarkably multi-talented man within the context of his times. The captivating portrait recounts his formative years in the Bronx, his college years at New York University, where he composed four successive varsity musicals, his journalistic career first as a writer for the *New York Tribune Sunday Magazine* and then as the powerful music critic for the *New York World*, and his musical triumphs. Pegolotti also details Taylor's stints as editor of *Musical America*, president of the American Society of Composers, Authors and Publishers (ASCAP), best-selling author of *Of Men and Music* and other books, collaborator with Disney and Leopold Stokowski on *Fantasia*, and even judge for the Miss America pageant. He describes how Taylor used his critic's pulpit to champion American music, opera, and musicians, and also chronicles his colorful personal life, including his third marriage at age sixty to a twenty-year-old costume designer. Enlivened with such figures as George Gershwin, Jerome Kern, F. Scott Fitzgerald, Ayn Rand, and Taylor's fellow Algonquin Round Table tastemakers, this in-depth, well-

balanced, and objective biography will stand as the definitive work on the great American composer-critic.

*The Blood of the Vampire* Back Bay Books

A terrifying series of short poems by one of the world's leading playwrights, set to images of World War II. In this singular book written during World War Two, Bertolt Brecht presents a devastating visual and lyrical attack on war under modern capitalism. He takes photographs from newspapers and popular magazines, and adds short lapidary verses to each in a unique attempt to understand the truth of war using mass media. Pictures of catastrophic bombings, propaganda portraits of leading Nazis, scenes of unbearable tragedy on the battlefield—all these images contribute to an anthology of horror, from which Brecht's perceptions are distilled in poems that are razor-sharp, angry and direct. The result is an outstanding literary memorial to World War Two and one of the most spontaneous, revealing and moving of Brecht's works.

Tales of horror, madness, and death, tales of fantasy and morality: these are the works of South American master storyteller Horacio Quiroga. Author of some 200 pieces of fiction that have been compared to the works of Poe, Kipling, and Jack London, Quiroga experienced a life that surpassed in morbidity and horror many of the inventions of his fevered mind. As a young man, he suffered his father's accidental death and the suicide of his beloved stepfather. As a teenager, he shot and accidentally killed one of his closest friends. Seemingly cursed in love, he lost his first wife to suicide by poison. In the end, Quiroga himself downed cyanide to end his own life when he learned he was suffering from an incurable cancer. In life Quiroga was obsessed with death, a legacy of the violence he had experienced. His stories are infused with death, too, but they span a wide range of short fiction genres: jungle tale, Gothic horror story, morality tale, psychological study. Many of his stories are set in the steaming jungle of the Misiones district of northern Argentina, where he spent much of his life, but his tales possess a universality that elevates them far above the work of a regional writer. The first representative collection of his work in English, *The Decapitated Chicken and Other Stories* provides a valuable overview of the scope of Quiroga's fiction and the versatility and skill that have made him a classic Latin American writer.

Edward Snow's selection of more than one hundred of Rainer Maria Rilke's little-known and neglected poems in this bilingual edition offers the reader a glimpse into one of the most powerful and underrated accomplishments in all of modern poetry. The poems in Uncollected Poems reveal a freer, more dangerous, less self-fashioning Rilke than the poet of the Elegies and the Sonnets; and Snow's translations of them, while always scrupulously faithful to the German, bring Rilke's power and music into English with unmatched grace and intelligence.
