Sons of Anarchy #15 HarperCollins

Jenna Fischer's Hollywood journey began at the age of 22 when she moved to Los Angeles from her hometown of St. Louis. With a theater degree in hand, she was determined, she was confident, she was ready to work hard. So, what could go wrong? Uh, basically everything. The path to being a professional actor was so much more vast and competitive than she'd imagined. It would be eight long years before she landed her iconic role on *The Office*, nearly a decade of frustration, struggle, rejection and doubt. If only she'd had a handbook for the aspiring actor. Or, better yet, someone to show her the way—an established actor who could educate her about the business, manage her expectations, and reassure her in those moments of despair. Jenna wants to be that person for you. With amusing candor and wit, Fischer spells out the nuts and bolts of getting established in the profession, based on her own memorable and hilarious experiences. She tells you how to get the right headshot, what to look for in representation, and the importance of joining forces with other like-minded artists and creating your own work—invaluable advice personally acquired from her many years of struggle. She provides helpful hints on how to be gutsy and take risks, the tricks to good auditioning and callbacks, and how not to fall for certain scams (auditions in a guy's apartment are probably not legit—or at least not for the kind of part you're looking for!). Her inspiring, helpful guidance feels like a trusted friend who's made the journey, and has now returned to walk beside you, pointing out the pitfalls as you blaze your own path towards the life of a professional actor.

Forever Evil: Arkham War (The New 52) DC Black Label

The process of user-centered innovation: how it can benefit both users and manufacturers and how its emergence will bring changes in business models and in public policy. Innovation is rapidly becoming democratized. Users, aided by improvements in computer and communications technology, increasingly can develop their own new products and services. These innovating users—both individuals and firms—often freely share their innovations with others, creating user-innovation communities and a rich intellectual commons. In *Democratizing Innovation*, Eric von Hippel looks closely at this emerging system of user-centered innovation. He explains why and when users find it profitable to develop new products and services for themselves, and why it often pays users to reveal their innovations freely for the use of all. The trend toward democratized innovation can be seen in software and information products—most notably in the free and open-source software movement—but also in physical products. Von Hippel's many examples of user innovation in action range from surgical equipment to surfboards to software security features. He shows that product and service development is concentrated among "lead users," who are ahead on marketplace trends and whose innovations are often commercially attractive. Von Hippel argues that manufacturers should redesign their innovation processes and that they should systematically seek out innovations developed by users. He points to businesses—the custom semiconductor industry is one example—that have learned to assist user-innovators by providing them with toolkits for developing new products. User innovation has a positive impact on social welfare, and von Hippel proposes that government policies, including R&D subsidies and tax credits, should be realigned to eliminate biases against it. The goal of a democratized user-centered innovation system, says von Hippel, is well worth striving for. An electronic version of this book is available under a Creative Commons license.

Gloria Tramontin Struck rode a motorcycle for the very first time at age 16 in 1941. Women simply didn't ride motorcycles in 1941, but at the urging of her older brother, a very reluctant Gloria gave it a try, and it changed her life forever. She has been riding ever since, and at age 92, still rides regularly and continues to participate in cross country rides. As you might expect, any woman regularly riding a motorcycle in an era when women didn't ride motorcycles has a lot of stories to tell. In *Gloria Struck: 75 years on Two Wheels and Still Riding*, Gloria shares with you all of her favorite stories, from back when she was being raised behind her father's motorcycle shop in Clifton NJ, through 75 years of riding tales, all the way to the present, where she is rightfully celebrated at motorcycles rallies and events. Complementing her life and riding stories is an extensive scrapbook of photos, over 100 of which are included in this autobiography. Also included are anecdotes provided by fans, friends and admirers. Of course, Gloria's book and her stories, are as much about overcoming prejudice and personal obstacles, as it is about riding motorcycles. Because of that, this book resonates with riders and non-riders alike. The message is about more than riding, it's about meeting and conquering life's challenges with courage and humor.
