*Making Change Stick* Harvard Business Press

"Entertaining and informative. Desai takes us on a journey through the fundamentals of finance, from asset pricing to risk and risk management, via options, mergers, debt, and bankruptcy."- John Lanchester, *The New Yorker* "A fascinating new perspective on modern finance," --Oliver Hart, 2016 Nobel Laureate in Economics "Lucid, witty and delightfully erudite...From the French revolution to film noir, from the history of probability to Jane Austen and *The Simpsons*, this is an astonishing intellectual feast." --Sebastian Mallaby, author of *The Man Who Knew: The Life and Times of Alan Greenspan* Longlisted for 2017 Financial Times/McKinsey Business Book of the Year A 2017 AMAZON PICK IN BUSINESS & LEADERSHIP A WealthManagement.com BEST BUSINESS BOOK OF 2017 In 1688, essayist Josef de la Vega described finance as both "the fairest and most deceitful business . . . the noblest and the most infamous in the world, the finest and most vulgar on earth." The characterization of finance as deceitful, infamous, and vulgar still rings true today - particularly in the wake of the 2008 financial crisis. But, what happened to the fairest, noblest, and finest profession that de la Vega saw? De la Vega hit on an essential truth that has been forgotten: finance can be just as principled, life-affirming, and worthy as it can be fraught with questionable practices. Today, finance is shrouded in mystery for outsiders, while many insiders are uneasy with the disrepute of their profession. How can finance become more accessible and also recover its nobility? Harvard Business School professor Mihir Desai, in his "last lecture" to the graduating Harvard MBA class of 2015, took up the cause of restoring humanity to finance. With incisive wit and irony, his lecture drew upon a rich knowledge of literature, film, history, and philosophy to explain the inner workings of finance in a manner that has never been seen before. This book captures Desai's lucid exploration of the ideas of finance as seen through the unusual prism of the humanities. Through this novel, creative approach, Desai shows that outsiders can access the underlying ideas easily and insiders can reacquaint themselves with the core humanity of their profession. The mix of finance and the humanities creates unusual pairings: Jane Austen and Anthony Trollope are guides to risk management; Jeff Koons becomes an advocate of leverage; and Mel Brooks's

*The Producers* teaches us about fiduciary responsibility. In Desai's vision, the principles of finance also provide answers to critical questions in our lives. Among many surprising parallels, bankruptcy teaches us how to react to failure, the lessons of mergers apply to marriages, and the Capital Asset Pricing Model demonstrates the true value of relationships. *THE WISDOM OF FINANCE* is a wholly unique book, offering a refreshing new perspective on one of the world's most complex and misunderstood professions.

*Crack the Case System* Simon and Schuster

Case method teaching immerses students in realistic business situations--which include incomplete information, time constraints, and conflicting goals. The class discussion inherent in case teaching is well known for stimulating the development of students' critical thinking skills, yet instructors often need guidance on managing that class discussion to maximize learning. Teaching with Cases focuses on practical advice for instructors that can be easily implemented. It covers how to plan a course, how to teach it, and how to evaluate it. The book is organized by the three elements required for a great case-based course: 1) advance planning by the instructor, including implementation of a student contract; 2) how to make leading a vibrant case discussion easier and more systematic; and 3) planning for student evaluation after the course is complete. Teaching with Cases is ideal for anyone interested in case teaching, whether basing an entire course on cases, using cases as a supplement, or simply using discussion facilitation techniques. To learn more about the book, and to see resources available, visit [teachingwithcases.hbsp.harvard.edu](http://teachingwithcases.hbsp.harvard.edu).

*Choosing Courage* HarperCollins

This third edition of *Teaching and the Case Method* is a further response to increased national and international interest in teaching, teachers, and learning, as well as the pressing need to enhance instructional effectiveness in the widest possible variety of settings. Like its predecessors, this edition celebrates the joys of teaching and learning at their best and emphasizes the reciprocal exchange of wisdom that teachers and students can experience. It is based on the belief that teaching is not purely a matter of inborn talent. On the contrary, the knowledge, skills, and attitudes that make for excellence in teaching can be analyzed, abstracted, and learned. One key premise of *Teaching and the Case Method* is that all teaching and learning involve a core of universally applicable principles that can be discerned and absorbed through the study and discussion of cases.

*A Concise Guide to Macroeconomics, Second Edition* Harvard Business Review Press

When facing a difficult management challenge, wouldn't it be great if you could turn to a panel of experts to help guide you to the right decision? Now you can, with books from the *Judgment Calls* series. Drawn from the pages of *Harvard Business Review*, these interactive, solutions-oriented guides allow readers to access the wisdom of leading experts as they tackle familiar and perplexing business situations. These engagingly written books will help managers improve problem-solving skills and make better judgment calls under fire. A preface provides an overview and sets the context for using these provocative case studies as learning tools in corporate classrooms. A relevant chapter from an HBE volume introduces the topic as a refresher course. Finally, an appendix of resources such as

executive summaries, guiding questions, and a list of further reading rounds out the book. Judgment Calls provide insight into a variety of real world difficulties and offer solutions that managers will find both sound and practical. Our ideal reader is the business traveler who's thinking about this very issue, sees the book in the airport, and throws it in his or her briefcase to read on the plane. This volume, tentatively titled "Growing for Broke and Other Stories From the Frontlines of Management" looks at growth strategy. How do you grow your business without sending it flying off the rails? When should you stick to your core? All this and more!

#### Strategic Alliances Harvard Business Review Press

Digital transformation is no longer news--it's a necessity. Despite the widespread threat of disruption, many large companies in traditional industries have succeeded at digitizing their businesses in truly transformative ways. The New York Times, formerly a bastion of traditional media, has created a thriving digital product behind a carefully designed paywall. Best Buy has transformed its business in the face of Amazon's threat. John Deere has formed a data-analysis arm to complement its farm-equipment business. And Goldman Sachs and many others are using digital technologies to reimagine their businesses. In *Driving Digital Strategy*, Harvard Business School professor Sunil Gupta provides an actionable framework for following their lead. For over a decade, Gupta has studied digital transformation at Fortune 500 companies. He knows what works and what doesn't. Merely dabbling in digital or launching a small independent unit, which many companies do, will not bring success. Instead you need to fundamentally change the core of your business and ensure that your digital strategy touches all aspects of your organization: your business model, value chain, customer relationships, and company culture. Gupta covers each aspect in vivid detail while providing navigation tips and best practices along the way. Filled with rich and illuminating case studies of companies at the forefront of digital transformation, *Driving Digital Strategy* is the comprehensive guide you need to take full advantage of the limitless opportunities the digital age provides.

#### Better, Simpler Strategy Harvard Business School Press

With the enormous growth of the internet and social media sites, digital marketing is now worth more per annum than TV advertising in the UK. Social network advertising spending is expected to increase to a staggering \$4.3 billion in 2011 in a bid to attract today's media-savvy consumer. The *Best Digital Marketing Campaigns in the World* brings together an international collection of the most successful digital marketing campaigns of our time, assessing what they achieved and the business lessons learnt. This practical and insightful book explores how businesses large and small have harnessed social media, blogs, forums, online video and email to boost their brand and attract customers. Damian Ryan and Calvin Jones present a selection of hand-picked case studies, sharing the knowledge and skill of the world's top creative minds. Covering everything from household names such as Pizza Hut and Pepsi to Obama's 2008 presidential election campaign, this book is the must-read guide for all marketers looking to embrace the new digital landscape.

#### Rebel Talent Kogan Page Publishers

As a top executive, you've almost certainly forged strategic alliances with other companies. Some of these deals have worked--but many others have likely failed. In fact, companies worldwide launch more than two thousand strategic alliances every year, and more than half never deliver as promised. In *Strategic Alliances*, Steve Steinhilber proves that, despite the odds, alliances are critical to the business strategy for companies competing globally: customers want integrated

solutions to their problems, and that's pushing companies to work together to create differentiated offerings. Equally crucial, well-managed alliances generate important forms of business value, including new products and accelerated growth. Drawing on his experience as the head of Cisco's Strategic Alliances group, Steinhilber has created tools and guidelines that will help you forge alliances that work. He describes the three essential building blocks of successful alliances and explains how to establish: The right framework--by articulating how an alliance will help you achieve your company's strategic business goals and identifying potential partners The right organization--by staffing your alliance organization with the right people and constantly honing their skills The right relationships--by cultivating trust among the many key internal contacts in your organization and your alliance partners Engaging and authoritative, *Strategic Alliances* shows you how to manage strategic partnerships more effectively and maximize their value in a complex and changing business environment. From our new Memo to the CEO series--solutions-focused advice from today's leading practitioners.

#### Service Profit Chain Harvard Business Review Press

This book contains the extended and revised versions of selected papers from the Third International Symposium on Business Modeling and Software Design (BMSD 2013), held in Noordwijkerhout, The Netherlands, during July 8-10, 2013. The symposium was organized and sponsored by the Interdisciplinary Institute for Collaboration and Research on Enterprise Systems and Technology (IICREST), in cooperation with the Dutch Research School for Information and Knowledge Systems (SIKS), the Center for Telematics and Information Technology (CTIT), Aristotle University of Thessaloniki (AUTH), and AMAKOTA Ltd. The theme of BMSD 2013 was "Enterprise Engineering and Software Generation." The 13 full and 20 short papers presented at BMSD 2013 were selected from 56 submissions. The eight papers published in this book were carefully reviewed and selected from the 13 full papers. The selection includes papers touching upon a large number of research topics, ranging from more conceptual ones, such as modeling landscapes, process modeling, declarative business rules, and normalized systems to more practical ones, such as business-case development and performance indicators, and from more business-related topics, such as value modeling and service systems, to topics related to information architectures.

#### The Real Estate Game Harvard Business Press

The new M&A bible. Few actions can change the value of a company—and its competitive future—as quickly and dramatically as an acquisition. Yet most companies fail to create shareholder value from these deals, and in many cases they destroy it. It doesn't have to be this way. In *The Synergy Solution*, Deloitte's Mark Sirower and Jeff Weirens show acquirers how to develop and execute an M&A strategy—end to end—that not only avoids the pitfalls that so many companies fall into but also creates real, long-term shareholder value. This strategy includes how to: Become a prepared "always on" acquirer Test the investment thesis and DCF valuation of a deal Plan for a successful Announcement Day, and properly communicate synergy promises to investors and other stakeholders Realize those promised synergies through integration planning and post-close execution Manage change and build a new, combined organization Sirower and Weirens provide invaluable background to those considering M&A, laying out the issues they have to consider, how to analyze them, and how to plan and execute the deal effectively. They also show those who have already started the process of M&A how to maximize their chances of success. There's an art and a science to getting mergers and acquisitions right, and this powerful book provides the insights and strategies acquirers need to find success at every stage of an often complex and perilous process.

#### Developing a Business Case Harvard Business Press

"In this groundbreaking book, Francesca Gino shows us how to

spark creativity, excel at work, and become happier: By learning to rebel.” — Charles Duhigg, New York Times bestselling author of *The Power of Habit* and *Smarter Faster Better* Do you want to follow a script — or write your own story? Award-winning Harvard Business School professor Francesca Gino shows us why the most successful among us break the rules, and how rebellion brings joy and meaning into our lives. Rebels have a bad reputation. We think of them as troublemakers, outcasts, contrarians: those colleagues, friends, and family members who complicate seemingly straightforward decisions, create chaos, and disagree when everyone else is in agreement. But in truth, rebels are also those among us who change the world for the better with their unconventional outlooks. Instead of clinging to what is safe and familiar, and falling back on routines and tradition, rebels defy the status quo. They are masters of innovation and reinvention, and they have a lot to teach us. Francesca Gino, a behavioral scientist and professor at Harvard Business School, has spent more than a decade studying rebels at organizations around the world, from high-end boutiques in Italy’s fashion capital, to the World’s Best Restaurant, to a thriving fast food chain, to an award-winning computer animation studio. In her work, she has identified leaders and employees who exemplify “rebel talent,” and whose examples we can all learn to embrace. Gino argues that the future belongs to the rebel — and that there’s a rebel in each of us. We live in turbulent times, when competition is fierce, reputations are easily tarnished on social media, and the world is more divided than ever before. In this cutthroat environment, cultivating rebel talent is what allows businesses to evolve and to prosper. And rebellion has an added benefit beyond the workplace: it leads to a more vital, engaged, and fulfilling life. Whether you want to inspire others to action, build a business, or build more meaningful relationships, *Rebel Talent* will show you how to succeed — by breaking all the rules.

#### The Golden Passport HarperCollins

Buildings can make us sick or keep us well. Diseases and toxins course through indoor spaces, making us ill.

Meanwhile, better air quality and light levels improve productivity. At a time when the COVID-19 pandemic has us focused more than ever on indoor air quality, *Healthy Buildings* shows how much we have to gain from human-centered design.

#### **The Harvard Business Review Manager’s Handbook** Grin Publishing

How to Innovate and Execute Leaders already know that innovation calls for a different set of activities, skills, methods, metrics, mind-sets, and leadership approaches. And it is well understood that creating a new business and optimizing an already existing one are two fundamentally different management challenges. The real problem for leaders is doing both, simultaneously. How do you meet the performance requirements of the existing business—one that is still thriving—while dramatically reinventing it? How do you envision a change in your current business model before a crisis forces you to abandon it? Innovation guru Vijay Govindarajan expands the leader’s innovation tool kit with a simple and proven method for allocating the organization’s energy, time, and resources—in balanced measure—across what he calls “the three boxes”:

- Box 1: The present—Manage the core business at peak profitability
- Box 2: The past—Abandon ideas, practices, and attitudes that could inhibit innovation
- Box 3: The future—Convert breakthrough ideas into new products and businesses

The three-box framework makes leading innovation easier because it gives leaders a simple vocabulary and set of tools for managing and measuring these different sets of behaviors and activities across all levels of the organization. Supported with rich company examples—GE, Mahindra & Mahindra, Hasbro, IBM, United Rentals, and Tata Consultancy Services—and testimonies of leaders who have successfully used this framework, this book solves once and for all the practical dilemma of how to align an organization on the critical but competing demands of innovation. *HBR’s 10 Must Reads for CEOs (with bonus article “Your Strategy Needs a Strategy” by Martin Reeves, Claire Love, and Philipp Tillmanns)* Harvard Business Press

You can't afford to ignore how these issues will transform the landscape of business and society.

The Insights You Need series will help you grasp these critical ideas—and prepare you and your company for the future.

#### The Synergy Solution Harvard Business Press

With *The Firm*, financial journalist Duff McDonald pulled back the curtain on consulting giant McKinsey & Company. In *The Golden Passport*, he reveals the inner works of a singular nexus of power, ambition, and influence: Harvard Business School. Harvard University still occupies a unique place in the public's imagination, but the Harvard Business School eclipsed its parent in terms of influence on modern society long ago. A Harvard degree guarantees respect. But a Harvard MBA near-guarantees entrance into Western capitalism's most powerful realm—the corner office. And because the School shapes the way its powerful graduates think, its influence extends well beyond their own lives. It affects the organizations they command, the economy they dominate, and society itself. Decisions and priorities at HBS touch every single one of us. Most people have a vague knowledge of the power of the HBS network, but few understand the dynamics that have made HBS an indestructible and dominant force for almost a century. Graduates of HBS share more than just an alma mater. They also share a way of thinking about how the world should work, and they have successfully molded the world to that vision—that is what truly binds them together. In addition to teasing out the essence of this exclusive, if not necessarily “secret” club, McDonald explores two important questions: Has the school failed at reaching the goal it set for itself—“the multiplication of men who will handle their current business problems in socially constructive ways?” Is HBS complicit in the moral failings of Western capitalism? At a time of soaring economic inequality and growing political unrest, this hard-hitting yet fair portrait offers a much-needed look at an institution that has had a profound influence not just in the world of business but on the shape of our society—and on all our lives.
