Popular Photography Amer Animal Hospital Assn 'Entertainingly written and filled with useful information.... The quality of reproduction of the photos alone sets this book well ahead of most books on classic cameras. ' -- 'Shutterbug' Popular Photography Sterling Signatures Infra, Richard Mosses first book, offers a radical rethinking of how to depict a conflict as complex and intractable as that of the

---

ongoing war in the Democratic Republic of Congo. Mosse photographs both the rich topography, inscribed with the traces of conflicting interests, as well as rebel groups of constantly shifting allegiances at war with the Congolese national army (itself a patchwork of recently integrated warlords and their militias). For centuries, the Congo has repeatedly compelled and defied the Western imagination. Mosse brings to this subject the use of a discontinued aerial surveillance film, a type of color infrared film called Kodak Aerochrome. The film, originally developed for military reconnaissance, registers an invisible spectrum of infrared light, rendering the green landscape in vivid hues of lavender, crimson, and hot pink. The results offer a fevered inflation of the traditional reportage document, underlining the growing tension between art, fiction, and photojournalism. Mosse's work highlights the ineffable nature of current events in today's Congo. *Infra* initiates a dialogue with photography that begins as an intoxicating meditation on a broken genre, but ends as a haunting elegy for a vividly beautiful land touched by unspeakable tragedy.

A young woman is killed in an apparent traffic accident in the mountains outside of the city of Granada, Spain. Her brother, who heads up the Attack on Principle training unit of the U.S. Secret Service, travels to Spain to bring her body back to America. There, and in the company of a female lieutenant in the National Police Force, it is discovered that there may have been foul play associated with his sister Gina's death. Soon, the consequence of this incident generates a cascade of mysterious murders that confounds local authorities and shuts down all leads to why Gina Cerone was killed. Eugene Cerone, after a thirty year career in the Secret Service, retires so that he can participate in the investigation of Gina's apparent murder. Working with Lieutenant Mercedes Garcia Rico, an attractive, strong-willed and competent investigator, the two uncover an unfathomable conspiracy that dates back to the time the Moors surrendered their kingdom in Spain to the Catholic monarchs, Ferdinand and Isabella in 1492. Driven first by the mission to bring the killer of his sister to justice, Cerone is forced to confront a true evil empire, one that could threaten the stability of an allied nation, Europe as well as the security of the United States. Without official sanction from either government, Cerone builds an unlikely support network and investigative team that includes resources from the Secret Service, a Hollywood film studio, the CIA and the Spanish Police Scientific Unit. Innovative

behavioral analysis techniques, financial forensics and intelligence systems are used to link historical events and Arabian fables to crimes and conspiracies of the 21st century. Cerone and Lieutenant Garcia must decipher fact from fable, evidence from whispered rumors and leads from legends, to solve the mystery and stop a silent revolution and convince both Spanish and American authorities, that the conspiracy is real and not fantasy.

Street photographers will never tire of New York as a subject. It is the perfect setting for the genre, the world's most evocative cityscape, against which candid, memorable moments play themselves out every day. Nearly a decade ago, Vivienne Gucwa began walking the streets of the city with the only camera she could afford a sub-\$100 point-and-shoot and started taking pictures. Choosing a direction and going as far as her feet would take her, she noticed lines, forms and structures that had previously gone unnoticed but which resonated, embodying a sense of home. Having limited equipment forced her to learn about light, composition and colour, and her burgeoning talent won her blog millions of readers and wide recognition in the photographic community. New York Through the Lens showcases the stunning results of her ongoing quest. Filled with spectacular photographs and illuminated by Vivienne's own insightful commentary, NY Through the Lens acts as a beautiful travel guide to the city; it will be a must-read for her many fans and for any lover of street photography.

#### How to Photograph People Ilex Press

For as long as man has consciously existed - really lived - we have questioned the nature and purpose of our own existence; why are we here? What does it mean to be human? This is a photographic interpretation of the complexity and the idea of man abstracted from the individual, in the form of a series of candid observations. It's a documentary, street photography journal and a philosophical work with a twist.

Many semi-pro and professional wedding photographers are looking to "wake up" their style, stay current, and stimulate business. And today, that means lifestyle photography, also referred to as "fine art wedding photography." Fine art wedding photography isn't just a catchy phrase; it's a modern approach in which design is paramount. Fine art wedding images are more graphic and stylized than traditional wedding photojournalism, as if they were pulled from the pages of a glossy wedding or lifestyle magazine. Acclaimed wedding photographer Jose Villa was a pioneer in fine art wedding photography before it became a trendy buzzword. Here, he shares his secrets for bringing a stylized sense of composition, lighting, posing, and most important, design, to your images, while still keeping them organic and narrative. You 'll learn Jose 's trademark technique of capturing the more natural moment after a pose, and tips for getting images right in-camera to avoid the need for heavy postproduction. Final chapters show you how to integrate design through the delivered product, whether an album or slideshow, and continue nurturing clients after the wedding by expanding to baby and family portraiture. Packed with real-life examples, solid techniques, and stunning images from one of the wedding industry's brightest stars, this book will both educate and inspire photographers seeking to update their work and satisfy a new generation of brides.

Although aimed at keen amateur photographers who wish to break into the professional market, the superb images and technical expertise offer something for all levels of skill and will also inspire those just becoming interested in photography and more established photographers who need to re-focus their photographic motivation. The book's primary goal is to draw the attention of readers to the absolute importance of light and how to make the best use of it, with an emphasis on being in the right place at the right time, anticipating fine light and ensuring that for the short duration that those qualities are present, they are successfully recorded to film or pixel. However, composition and technical expertise are also vitally important and Ian outlines the best field techniques for choosing the correct exposure, discusses depth of field, hyper-focal focusing, exposure bracketing and the use of appropriate filters.
