The dead wreak revenge on the living, paintings come alive, spectral brides possess mortal men and a priest devours human flesh in these chilling Japanese ghost stories retold by a master of the supernatural. Lafcadio Hearn drew on the phantoms and ghouls of traditional Japanese folklore - including the headless 'rokuro-kubi', the monstrous goblins 'jikininki' or the faceless 'mujina' who stalk lonely neighbourhoods - and infused them with his own memories of his haunted childhood in nineteenth-century Ireland to create these terrifying tales of striking and eerie power. Today they are regarded in Japan as classics in their own right. Edited with an introduction by Paul Murray

The animations of Japan's Studio Ghibli are amongst the highest regarded in the movie industry. Their delightful films rank alongside the most popular non-English language films ever made, with each new eagerly-anticipated release a guaranteed box-office smash. Yet this highly profitable studio has remained fiercely independent, producing a stream of imaginative and individual animations. The studio's founders, long-time animators Isao Takahata and Hayao Miyazaki, have created timeless masterpieces. Although their films are distinctly Japanese their themes are universal—humanity, community, and a love for the environment. No other film studio, animation or otherwise, comes close to matching Ghibli for pure cinematic experience. All their major works are examined here, as well the early output of Hayao Miyazaki and Isao Takahata, exploring the cultural and thematic threads that bind these films together.

Mulini a vento e robot giganti. Il significato degli oggetti negli anime e nei manga Sovera Edizioni Formed by a small group of university students in the early 1980s, Studio Gainax is now one of the most adventurous and widely esteemed anime companies on the scene. And it is fascinating for its unique approach to animation. Formal experimentation, genre-straddling, self-reflexivity, unpredictable plot twists, a gourmet palate for stylishness, proverbially controversial endings, and a singularly iconoclastic worldview are some of the hallmarks. This documentation of the studio ' s achievements provides a critical overview of both the company and its films: in-depth examinations of particular titles that best represent the company ' s overall work, including television series such as Nadia: The Secret of Blue Water and Neon Genesis Evangelion, and feature films such as Royal Space Force: The Wings of Honneamise and Gunbuster vs. Diebuster. Each chapter highlights the contribution made by a specific production to the company ' s progress. Simon and Schuster

A collection of essays on the mysteries of the body from one of Italy's leading postwar communist intellectuals. Politician, translator, and journalist Rossana Rossanda was the most important female left-wing intellectual in post-war Italy. Central to the Italian Communist Party's cultural wing during the 1950s and '60s, she left an indelible mark on the life of the mind. The essays in this volume, however, bring together Rossanda's reflections on the body--how it ages, how it is gendered, what it means to examine one's own body. The product of a decades-long dialogue with the Italian women's movement (above all with Lea Melandri, a vital feminist writer who provides an afterword to the current volume), these essays represent an honest and raw meeting between communist and feminist thought. Ranging from reflections on her own hands through to Chinese cinema, from figures such as the Russian cross-dressing soldier Nadezhda Durova to the Jacobin revolutionary Theroigne de Mericourt, here we see Rossanda's fierce intellect and extraordinary breadth of knowledge applied to the body as a central question of human experience.

L'immagine è un oggetto goWare The first generation of American television programmers had few choices of Saturday morning children's offerings. That changed dramatically in 1963 when a Japanese animated television series called Tetsuan Atom was acquired for distribution by NBC. Fred Ladd adapted the show for American television and—rechristened Astro Boy—it was an overnight sensation. Astro Boy's popularity sparked a new industry importing animated television from Japan. Ladd went on to adapt numerous Japanese animated imports, and here provides an insider's view of the creation of an ongoing cultural and media phenomenon.

Black Jack, Volume 12 University of Chicago Press This truly multidisciplinary book explores how culture-founding terms like 'space' and 'place' have been reconsidered, re-elaborated and how they have acquired new meanings through academic research that crosses the traditional borderline between the humanities and social sciences. All chapters explore from different perspectives how the notions of space and place are still modelling our sense of reality by investigating social and cultural phenomena of various types that evolved between the 20th and 21st centuries. The essays collected here provide evidence of the growing necessity of building bridges across disciplines to allow knowledge, in general, and academic work, in particular, to work towards new forms of epistemology. The book will be of particular interest to scholars and students in the areas of cultural studies, discourse analysis, multimodality, communication and media, linguistics, literary and film studies, anthropology and ethnography.

Before Tomorrowland SUNY Press The thought-provoking, aesthetically pleasing animated films of Hayao Miyazaki attract audiences well beyond the director's native Japan. Princess Mononoke and Spirited Away were critically acclaimed upon U.S. release, and the earlier My Neighbor Totoro and Kiki's Delivery Service have found popularity with Americans on DVD. This critical study of Miyazaki's work begins with an analysis of the visual conventions of manga, Japanese comic books, and animé; an overview of Japanese animated films; and a consideration of the techniques deployed by both traditional cel and computer animation. This section also details Miyazaki's early forays into comic books and animation, and his output prior to his founding of Studio Ghibli. Part Two concentrates on the Studio Ghibli era, outlining the company's development and analyzing the director's productions between 1984 and 2004, including Castle in the Sky, My Neighbor Totoro and his newest film, Howl's Moving Castle. The second section also discusses other productions involving Studio Ghibli, including Grave of the Fireflies and The Cat Returns. Appendices supply additional information about Studio Ghibli's merchandise production, Miyazaki's global fan base, and the output of other Ghibli directors.

An Evidence-Based Guide to Practice Europa Editions Winner of the Italian PEN Prize: A tale of illicit love and a girl forced into a convent in the early nineteenth century.1839, Messina, Italy: Agata is the daughter of an aristocrat, albeit an impoverished one, and she has fallen in love with wealthy Giacomo Lepre. Their families, however, view their romance as unacceptable and tawdry—and when Agata's father dies, her mother decides to ferry her daughter far away, to Naples, where she hopes to garner a stipend from the king. The only boat leaving Messina that day is captained by young Englishman James Garson. Following a tempestuous passage to Naples, during which Agata confesses her troubles to James, Agata and her mother find themselves rebuffed by the king, and Agata is forced to join a convent. The Benedictine monastery of San Giorgio Stilita is rife with rancor and jealousy, illicit passions and ancient feuds. But Agata remains aloof, devoting herself to the cultivation of medicinal herbs, calmed by the steady rhythms of monastic life. She reads all the books James sends her and follows the news of

the various factions struggling to bring unity to Italy. She has accepted her life as a nun, but she is divided between her yearnings for purity and religiosity and her desire to be part of the world. And she is increasingly torn when she realizes that her feelings for James, though he is only a distant presence in her life, have eclipsed those for Lepre . . .
