Incorporated

While Elwood

Haynes and the

Apperson brothers

are not as well known

---

as Henry Ford, Ransom Olds and other famous automobile manufacturers, their contributions to the automotive industry are just as significant. They were responsible for one of the first functioning automobiles, if not the first, in the United States. After building their automobile in 1894, the three men formed the Haynes-Apperson Automobile Company in Kokomo, Indiana, one of the first car manufacturing companies in the country. Three years after incorporation, a dispute over money caused the partnership to split up and Edgar and Elmer Apperson formed their own company. Both companies lasted until the mid-1920s. This

book is a history of these automotive pioneers and their companies: the Haynes-Apperson Automobile Company, the Haynes Automobile Company, and the Apperson Brothers Automobile Company. It is richly illustrated with photographs of the factories, automobiles, personalities and advertisements. *Small Engine Repair Manual* Haynes Manuals Covers rear wheel drive 6-Cyl. and V8 gas engines. Does not include diesel engine or front wheel drive models. Engine Performance Haynes Manuals N. America, Incorporated
