The saxophone is arguably the most iconic of all instruments, but with its graceful form and soulful tone it's easy to forget that it's still a machine. It's a complicated machine, too, and even a slight fault in the mechanism can affect the way it feels and plays. This innovative manual explains clearly and simply how the mechanism functions and what can be done to maintain it, as well as to improve its performance with professional set-up techniques, with few or no specialist tools. This manual is essential reading for everyone who plays the saxophone.

Auto Repair For Dummies Haynes Publishing

The unofficial Dyson DC07 workshop manual. All you need to know to perform any DIY repair to your Dyson DC07 vacuum cleaner. There is nothing that can go wrong with your Dyson DC07, which if you are practically inclined, you cannot source the parts and repair yourself for a fraction of the cost of a new Dyson. More importantly, armed with this book, you will have the information you need to get it right the first time and have your Dyson up and running again quickly - without breaking the bank! Everything is covered from filters and basic maintenance right through to a motor swap. You will also learn where to buy special tools and how to troubleshoot a faulty machine. Why pay excessive repair charges to vacuum cleaner engineers when you can do it yourself? Repairing and extending the life of your Dyson is green. It's a small cog in the large machine that is our future sustainability. This book is unofficial. That means it is not authorised, approved, or endorsed by Dyson Ltd.

Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox,

through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.'
Content includes: Introduction
The history of specials
Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal.
