The fabulous success of Ford's Mustang in America inspired Ford's British and German branches to do likewise. The sporty coupe they created, the Ford Capri, was launched in 1969 as the first joint production of the brand-new Ford of Europe. Billed as "The car you always promised yourself", the Capri was a signal success with almost 1.9 million made when production ended in 1987. Its rakish lines, keen pricing and broad power offerings gave the Capri wide appeal not only in Europe but also in America, which imported the Mark I and II versions from 1970 to 1977 for sale through Lincoln-Mercury dealers. The Mark III for Europe followed in 1978. No paper tigers, these classy coupes were formidable rally and racing cars as this book's illustrations reveal. A Capri insider, former Ford of Europe executive Karl Ludvigsen introduces the Capri saga and illuminates the many rare images from his world-famous Ludvigsen Library. A feast for fans of the Blue Oval, this book's pages bring to life the exciting story of one of the best-loved Fords of all time.

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been

interviewed on the Today show, NBC Nightly News, and other television programs.
