Fundamentals of Communication Systems  
Northwestern University Press

Living and Dying with Grace is a book of aphoristic Sufi teachings on how to make one's way in the world—especially on how to bring spiritual insight to the affairs of daily life. Sufism, the mystical branch of Islam, contains a vast body of knowledge concerning the inner development of the complete human being. Among the greatest of Sufi masters, Hadrat 'Al î (598-661 CE), cousin and son-in-law of the Prophet Muhammad, is regarded as a paragon of compassion and virtue and a master of both exoteric and esoteric knowledge. He was not only a great warrior, statesman, and scholar, but also a devoted husband and father. Success in this life, 'Al î teaches, is bestowed on those who

maintain generosity, intelligence, perseverance, integrity, and calm reflection. As for success in the hereafter, 'Al î says, "God, the Glorified, admits to Paradise anyone, at will, for truthfulness of intention and goodness of innermost thoughts." This book contains four hundred of Hadrat 'Al î 's teachings, showing how people can use the everyday realities of their lives to cultivate wisdom and well-being, both temporal and eternal, offering a path to living and dying with grace.

**The Sympathizer** Don Mills, Ont. :

Addison-Wesley

Now an HBO Limited Series from Executive Producers Park Chan-wook and Robert Downey Jr., Streaming Exclusively on Max Winner of the 2016 Pulitzer Prize for Fiction Winner of the 2016 Edgar Award for Best First Novel Winner of the 2016 Andrew Carnegie Medal for Excellence in

Fiction One of TIME's 100 Best Mystery and Thriller Books of All Time "[A] remarkable debut novel." —Philip Caputo, New York Times Book Review (cover review) Winner of the 2016 Pulitzer Prize, a startling debut novel from a powerful new voice featuring one of the most remarkable narrators of recent fiction: a conflicted subversive and idealist working as a double agent in the aftermath of the Vietnam War. The winner of the 2016 Pulitzer Prize for Fiction, as well as seven other awards, *The Sympathizer* is the breakthrough novel of the year. With the pace and suspense of a thriller and prose that has been compared to Graham Greene and Saul Bellow, *The Sympathizer* is a sweeping epic of love and betrayal. The narrator, a communist double agent, is a "man of two minds," a half-

---

French, half-Vietnamese army captain who arranges to come to America after the Fall of Saigon, and while building a new life with other Vietnamese refugees in Los Angeles is secretly reporting back to his communist superiors in Vietnam. *The Sympathizer* is a blistering exploration of identity and America, a gripping espionage novel, and a powerful story of love and friendship.

The Department of Energy Fundamentals Handbook entitled Electrical Science was prepared as an information resource for personnel who are responsible for the operation of the Department's nuclear facilities. A basic understanding of electricity and electrical systems is necessary for DOE nuclear facility

operators, maintenance personnel, and the technical staff to safely operate and maintain the facility and facility support systems. The information in the handbook is presented to provide a foundation for applying engineering concepts to the job. This knowledge will help personnel more fully understand the impact that their actions may have on the safe and reliable operation of facility components and systems.

Engineering Haarlem : SOTA ; Geneva demonism: the Russian Orthodox and folk tradition, the demonization of historical figures, and views of art as intrinsically demonic. The second part traces the development of a literary tradition of demonism in the works of authors ranging from Pushkin and Lermontov, Gogol and Dostoevsky, through to the poets and prose writers of modernism (including Blok, Akhmatova, Bely, Sologub, Rozanov, Zamiatin), and through to the end of the 20th century.

**From Paragraph to Term Paper**

"O'Reilly Media, Inc."

Abi Talib, son-in-law and cousin of the Prophet Muhammad, first Shi'i imam and fourth caliph, is a monumental figure within the Islamic tradition. But despite the

Merezhkovsky's bold claim that "all Russian literature is, to a certain degree, a struggle with the temptation of demonism" is undoubtedly justified. And yet, despite its evident centrality to Russian culture, the unique and fascinating phenomenon of Russian literary demonism has so far received little critical attention. This substantial collection fills the gap. A comprehensive analytical introduction by the editor is followed by a series of fourteen essays, written by eminent scholars in their fields. The first part explores the main shaping contexts of literary

---

immense importance of Ali, there is to students and scholars of Islamic a dearth of literature in Western thought, as well as to those languages about his life and interested in the relationship thought. personal flair to any ensemble. Following the successful "Art Smart" series, "Craft Smart" presents a fresh, fun approach to four creative skills: knitting, jewelry-making, papercrafting, and crafting with recycled objects. Each book contains 12 original projects to make, using a range of readily available materials. There are projects for boys and girls, carefully chosen to appeal to readers of all abilities. A special "techniques and materials" section encourages young crafters to try out

their own ideas while learning valuable practical skills.

**Body Part Terms in Conceptualization and Language Usage**

World Wisdom, Inc  
The volume focuses on body part terms as the vehicle of embodied cognition and conceptualization. It explores the relationship between universal embodiment, language-specific cultural models and linguistic usage practices. The chapters of the volume add to the previous research in a novel way. The presentation of original data from previously undescribed languages spoken by small communities in Africa and

---

South America allows to discover unknown aspects of embodiment and to propose new interpretations. Well-known languages are analyzed from a new perspective relying on the benefits of linguistic corpora. Contrastive and theoretically oriented studies help to pinpoint similarities and differences among languages, as well as tendencies in conceptualization patterns and semantic development of the lexis of body part terms. The volume contributes to the field of linguistics, but also to cognitive science, anthropology and cultural studies.

### **Dostoevsky and Romantic**

**Realism** Simon and Schuster  
A unique introduction to the design, analysis, and presentation of scientific projects, this is an essential textbook for undergraduate majors in science and mathematics. The textbook gives an overview of the main methods used in scientific research, including hypothesis testing, the measurement of functional relationships, and observational research. It describes important features of experimental design, such

---

as the control of errors, instrument calibration, data analysis, laboratory safety, and the treatment of human subjects. Important concepts in statistics are discussed, focusing on standard error, the meaning of p values, and use of elementary statistical tests. The textbook introduces some of the main ideas in mathematical modeling, including order-of-magnitude analysis, function fitting, Fourier transforms, recursion relations, and difference approximations to differential equations. It also provides

guidelines on accessing scientific literature, and preparing scientific papers and presentations. An extensive instructor's manual containing sample lessons and student papers is available at [www.cambridge.org/Marder](http://www.cambridge.org/Marder).

**Principles** World Wisdom, Inc Annotation Scholars bring philosophy, social and political thought, women's studies, theology, Holocaust studies, and other offerings to a forum presenting current discussion on the connection and divide between ethics and aesthetics, posed as one of the most important issues in contemporary theoretical debates. "A searing and profound  
Southern odyssey through  
Mississippi's past and  
present"--

*Towards a Sociology of the Cinema*  
(ILS 92) State University of New  
York Press

The author, Professor Z. V. Togan,  
staged a counterrevolution, who  
first interacted and bargained  
with Lenin, Stalin, Trotsky and  
the rest of the Soviet and  
Bolshevik luminaries of his own  
time for Baskurdistan and  
Turkistan. It can be read

profitably in the context of anti-  
colonialism, Sub-altern studies,  
Russian and Soviet studies.

*The History of British India*

Bloomsbury Publishing

Dostoevsky and Romantic Realism is  
Donald Fanger's groundbreaking  
study of the art of Dostoevsky and  
the literary and historical  
context in which it was created.

Through detailed analyses of the  
work of Balzac, Dickens, and  
Gogol, Fanger identifies romantic  
realism, the transformative fusion  
of two generic categories, as a  
powerful imaginary response to the  
great modern city. This fusion  
reaches its aesthetic and  
metaphysical climax in Dostoevsky,  
whose vision culminating in *Crime  
and Punishment* is seen by Fanger

---

as the final synthesis of romantic realism.

The use of MATLAB is ubiquitous in the scientific and engineering communities today, and justifiably so. Simple programming, rich graphic facilities, built-in functions, and extensive toolboxes offer users the power and flexibility they need to solve the complex analytical problems inherent in modern technologies. The ability to use MATLAB effectively has become practically a prerequisite to success for engineering professionals. Like its best-selling predecessor, *Electronics and Circuit Analysis Using MATLAB*, Second Edition helps

build that proficiency. It provides an easy, practical introduction to MATLAB and clearly demonstrates its use in solving a wide range of electronics and circuit analysis problems. This edition reflects recent MATLAB enhancements, includes new material, and provides even more examples and exercises. New in the Second Edition: Thorough revisions to the first three chapters that incorporate additional MATLAB functions and bring the material up to date with recent changes to MATLAB. A new chapter on electronic data analysis. Many more exercises and solved examples. New sections added to the chapters on two-port networks, Fourier analysis, and semiconductor physics. MATLAB m-files available

---

for download Whether you are a student or professional engineer or technician, *Electronics and Circuit Analysis Using MATLAB, Second Edition* will serve you well. It offers not only an outstanding introduction to MATLAB, but also forms a guide to using MATLAB for your specific purposes: to explore the characteristics of semiconductor devices and to design and analyze electrical and electronic circuits and systems. *Improving Vocabulary Skills*  
John Benjamins Publishing Company

This is the definitive introduction to the writings of 'Ali, who was the son-in-law to the Prophet Muhammad,

the fourth caliph to Sunni Muslims, and the central figure in Shi'a Islam. Two essays in this anthology won awards at the International Congress on Iman 'Ali, Tehran, 2001. Seyyed Hossein Nasr, pronounced them, among the best writings on this extraordinary figure in Western languages and are obligatory reading for anyone interested in 'Ali.
