From the author of the best-selling Harry Hole series comes an electrifying tale of vengeance set amid Oslo's brutal hierarchy of corruption. Sonny Lofthus has been in prison for almost half his life: serving time for crimes he didn't commit. In exchange, he gets an uninterrupted supply of heroin—and a stream of fellow prisoners

seeking out his Buddha-like absolution. Years earlier Sonny ' s father, a corrupt cop, took his own life rather than face exposure. Now Sonny is the center of a vortex of corruption: prison staff, police, lawyers, a desperate priest—all of them focused on keeping him stoned and jailed. When Sonny discovers a shocking truth about his father ' s suicide, he makes a brilliant escape and begins hunting down the people responsible for his and his father ' s demise. But he's also being hunted, and by enemies too many to count. Two questions remain: who will get to him first, and what will he do when he ' s cornered?

Indridason and Henning Mankell, Where the Shadows Lie is a heart-pounding new series from an established master. The Leopard Random House Inspector Harry Hole tracks a Norwegian serial killer in this installment of Jo Nesbø's New York Times bestselling series. One night, after the first snowfall of the year, a boy named Jonas wakes up and discovers that his mother has disappeared. Only one trace of her remains: a pink scarf, his Christmas gift to her, now worn by the snowman that inexplicably appeared in their yard earlier that day. Inspector Harry Hole suspects a link between the missing woman and a suspicious letter he's received. The case deepens when a pattern emerges: over the past decade, eleven women have vanished—all on the day of the first snow. But this is a killer who makes his own rules . . . and he'll break his pattern just to keep the game interesting, as he draws Harry ever closer into his twisted web. With brilliantly realized characters and hair-raising suspense, international

bestselling author Jo Nesbø presents his most chilling case yet—one that will test Harry Hole to the very limits of his sanity. **My Years with Robert Fisk** Simon and Schuster The internationally acclaimed author of Blood on Snow and the Harry Hole novels now gives us the tightly wound tale of a man running from retribution, a renegade hitman who goes to ground far above the Arctic circle, where the never-setting sun might slowly drive a man insane. He calls himself Ulf—as good a name as any, he thinks—and the only thing he's looking for is a place where he won't be found by Oslo's most notorious drug lord: the Fisherman. He was once the Fisherman's fixer, but after betraying him, Ulf is now the one his former boss needs fixed—which may not be a problem for a man whose criminal reach is boundless. When Ulf gets off the bus in Kåsund, on Norway's far

northeastern border, he sees a "flat, monotonous, bleak landscape . . . the perfect hiding place. Hopefully." The locals—native Sami and followers of a particularly harsh Swedish version of Christianity—seem to accept Ulf's explanation that he's come to hunt, even if he has no gun and the season has yet to start. And a bereaved, taciturn woman and her curious, talkative young son supply him with food, the use of a cabin deep in the woods, a weapon—and companionship that stirs something in him he thought was long dead. But the agonizing wait for the inevitable moment when the Fisherman's henchmen will show—the midnight sun hanging in the sky like an unblinking, all-revealing eye—forces him to question if redemption is at all possible or if, as he's always believed, "hope is a real bastard." **Headhunters** Vintage Books Canada A NEW YORK TIMES NOTABLE BOOK OF

2018 Shakespeare's dark and tragic play retold in a heart-pounding New York Times bestselling thriller from the author of *The Snowman* and *The Thirst*. Set in the 1970s in a run-down, rainy industrial town, Jo Nesbo's *Macbeth* centers around a police force struggling to shed an incessant drug problem. Duncan, chief of police, is idealistic and visionary, a dream to the townspeople but a nightmare for criminals. The drug trade is ruled by two drug lords, one of whom—a master of manipulation named Hecate—has connections with the highest in power, and plans to use them to get his way. Hecate's plot hinges on steadily, insidiously manipulating Inspector Macbeth: the head of SWAT and a man already susceptible to violent and paranoid tendencies. What follows is an unputdownable story of love and guilt, political ambition, and greed for more, exploring the darkest corners of human nature, and the aspirations of the criminal mind.

From the internationally acclaimed author of the *Harry Hole* novels—a fast, tight, darkly lyrical stand-alone novel that has at its center the perfectly sympathetic antihero: an Oslo contract killer who draws us into an unexpected meditation on death and love. This is the story of Olav: an extremely talented “fixer” for one of Oslo's most powerful crime bosses. But Olav is also an unusually complicated fixer. He has a capacity for love that is as far-reaching as is his gift for murder. He is our straightforward, calm-in-the-face-of-crisis narrator with a storyteller's hypnotic knack for fantasy. He has an “innate talent for subordination” but running through his veins is a “virus” born of the power over life and death. And while his latest job puts him

at the pinnacle of his trade, it may be mutating into his greatest mistake. . . .
