Blood Heat London Bridge In the spirit of Bill Bryson and Ian Frazier comes this fascinating examination of our past, present, and future beneath the waves. In an age of unprecedented exploration and innovation, our oceans remain largely unknown, and endlessly fascinating: full of mystery, danger, beauty, and inspiration. Bill Streever—a longtime deep-sea diver himself—has masterfully woven together the science and history of Earth's last remaining frontier: the sea. In *Oceans Deep* celebrates the daring pioneers who tested the limits of what the human body can endure under water: free divers able to reach 300 feet on a single breath; engineers and scientists who

uncovered the secrets of decompression; teenagers who built their own diving gear from discarded boilers and garden hoses in the 1930s; saturation divers who lived under water for weeks at a time in the 1960s; and the trailblazing men who voluntarily breathed experimental gases at pressures sufficient to trigger insanity. Tracing both the little-known history and exciting future of how we travel and study the depths, Streever's captivating journey includes seventeenth-century leather-hulled submarines, their nuclear-powered descendants, a workshop where luxury submersibles are built for billionaire clients, and robots capable of roving unsupervised between continents, revolutionizing access to the ocean. In this far-flung trip to the wild, night-dark place of shipwrecks, trapped submariners, oil wells, innovative technologies, and people willing to risk their lives

while challenging the deep, we discover all the adventures our seas have to offer—and why they are in such dire need of conservation.

winter heaters, do we really understand heat? A bestselling scientist and nature writer who goes to any extreme to uncover the answers, Bill Streever sets off to find out what heat really means. Let him be your guide and you'll firewalk across hot coals and sweat it out in Death Valley, experience intense fever and fire, learn about the invention of matches and the chemistry of cooking, drink crude oil, and explore thermonuclear weapons and the hottest moment of all time—the big bang. Written in Streever's signature spare and refreshing prose, *Heat* is an adventurous personal narrative that leaves readers with a new vision of an everyday experience—how heat works, its history, and its relationship to daily life.

The Path of Return Trilogy is a remarkable literary contribution outside the commercial romance and detective formulas - a raw tale

Painted with heartfelt humor which captures the innocence of imagination and the mystical forces that navigate life. In the first novel, *Jamayah: Adventures on the Path of Return*, baby-boomer Bob Kramer arrives in mid-life crisis with a job loss and recent divorce. Jamayah, an unlikely cosmopolitan guru, mysteriously recruits Bob as an initiate on the Path of Return - a fusion of wisdom traditions tempered toward paranormal mastery and cosmic awareness. The progressively intense challenge is how Bob will reconcile his scientific skepticism in a mystical adventure that embraces a strip bar and the horrors of war. In the end, Bob returns to ordinary life, but feels detached, alone, and indifferent - a malaise Jamayah reframes as having passed a sacred rite of passage. The sequel, *Collateral Karma*, opens after Rickshaw Lubowski (formerly Bob Kramer) has ditched the Path of Return in search of more tangible things - like sex, occultism, and sorcery. As a result, he becomes the target of a curse cast by the evil leader of a ceremonial cult who practices ritual sex and black magick. Rickshaw's descent into the world of sensation and desire incurs mysterious

nightmares all too real, starting with the obsessively expected death of his new fiancée.

Desperate, he meets a blind fortuneteller who knows more about his destiny than anyone should and with whom he falls in love. Only when he loses touch with reality does his mentor, Jamayah, appear.

Together, they join forces with shamanic sorcerers to reverse the deadly curse. The last novel in the series, *Letters from the Afterworld*, begins with Rickshaw reminiscing about his marriage to Crystal a year before. Rickshaw attends a seance in Los Angeles conducted by a medium with a gift for automatic writing and receives a channeled letter for his friend Murdock. Evidently, Murdock is on a soul recall list for people whose souls prematurely inhabited their selected bodies. Other friends of Rickshaw have dreams of the same recall letters and incur near fatal illnesses and accidents. Jamayah distrusts the source of the afterworld letters and believes hybrid souls (who formerly incarnated on an alien planet), are exploiting humans for metabolic enzymes through enzymatic blood transfusions. Stakes are raised when Rattlesnake Dan and Murdock are kidnapped and a ten year old boy is murdered. Finally,

We went tiptoeing along a path amongst the trees back towards the end of the widow's garden, stooping down so as the branches wouldn't scrape our heads. When we was passing by the kitchen I fell over a root and made a noise. We scrouched down and laid still. Miss Watson's big nigger, named Jim, was setting in the kitchen door; we could see him pretty clear, because there was a light behind him. He got up and stretched his neck out about a minute, listening. Then he says: "Who dah?" He listened some more; then he come tiptoeing down and stood right between us; we could a touched him, nearly. Well, likely it was minutes and minutes that there warn't a sound, and we all there so close together. There was a place on my ankle that got to itching, but I dasn't scratch it; and then my ear begun to itch; and next my back, right between my shoulders. Seemed

like I'd die if I couldn't scratch. Well, I've noticed that thing plenty times since. If you are with the quality, or at a funeral, or trying to go to sleep when you ain't sleepy-if you are anywheres where it won't do for you to scratch, why you will itch all over in upwards of a thousand places. Pretty soon Jim says: "Say, who is you? Whar is you? Dog my cats ef I didn' hear sumf'n. Well, I know what I's gwyne to do: I's gwyne to set down here and listen tell I hears it agi

By the early 1930s America had one literary treasure that risked his life to please its readers. Richard Halliburton had already become a best-selling travel author and could have retired comfortably on the immense wealth gained from the sale of his first two books. Yet some men are born to dare, and Halliburton was one of these. **NEW WORLDS TO CONQUER** was Halliburton's third book and contains a knapsack full of that adventurer's gold—dreams brought to reality by the alchemy of his courage and daring. The book details how Halliburton set off for Latin America in search of adventure, and find it he did. He dived to the bottom of the Mayan Well of Death, from which hundreds of skeletons had been dredged, then swam fifty miles down the length of the Panama Canal. Not content, he climbed to the crest of Mexico's lofty Mount Popocatepetl, twice, and roamed over the infamous Devil's Island. Yet his most amazing adventure occurred when he had himself marooned on the same island which had once held Robinson Crusoe captive.  
“ Somewhere a lizard

stirred the leaves...Furtively I looked about me, realizing that in the darkness the boa-constrictors would be abroad creeping forth from the ancient tombs and slinking down the leafy avenues, ” Halliburton wrote. This is Halliburton at his best—fatalistic about his own safety, poetic about his chances of survival, and determined to bring home a hair-raising tale of adventure from the Latin lands of legend.

Serious Reflections During the Life and Surprising Adventures of Robinson Crusoe with his Vision of the Angelick World, first published in 1720 and considered a sequel to The Farther Adventures of Robinson Crusoe, is a collection of essays written in the voice of the Crusoe character. Expressing Defoe's thoughts about many moral questions of the day, the narrator takes up isolation, poverty, religious liberty, and epistemology. Defoe also used this volume to revive his interest in poetry, not the satiric poetry of the early eighteenth century, but the more inspirational verse that appeared in some of his later works. Serious Reflections also includes an imaginative flight in which Crusoe wanders among the planets, a return to the moon voyage impulse of Defoe's 1705

work The Consolidator.

Illuminating the ideas and philosophy of this most influential of English novelists, it is invaluable for any student of the period.

Joseph Conrad is famous for being an unusual, strange, and even eccentric English writer. However, despite his difference, English criticism has primarily interpreted his fiction from the perspective of the English culture.

In turn, Polish criticism has portrayed Conrad as a Pole who happened to write in English. Considering Conrad's transcultural background, neither exclusively English nor an exclusively Polish writer, this volume investigates the essential features of his expatriate writing as a form distinctly different from any writing done within a single culture. Conrad's unique contribution to English literature and sensibility stems from his

ability to incorporate the complexity of the exilic condition without discussing it explicitly. Furthermore, this book establishes Conrad's expatriation archetypes and examines them as they manifest themselves not only in a realistic, but, more importantly, in a symbolic mode. Those archetypal features demonstrate themselves through Conrad's thematic choices, narrative structure, and critical discourse that reflect his complex relationship with both the parent and the adopted reader. While the existence of these patterns in Conrad's fiction are not entirely obvious, this book aims to illuminate Conrad's contributions to the current critical debate concerning the place of the author in his/her own narrative.
