### Strengthening Forensic Science in the United States Samaira Book Publishers

The S.I.N. series continues with the seductive follow-up to the Stark International Novel *Dirtiest Secret*, from the New York Times bestselling author of “red-hot and angsty” fiction that “keeps readers guessing” (Publishers Weekly, on *Under My Skin*). No one can know about our love—and hiding only makes it hotter. Dallas Sykes has a reputation. He is known for his parties, his money, and the countless women on his arm. Yet the Dallas I know is a different man—darker, smarter, and unbearably sexy. Just one look from him can leave me breathless; the anticipation of his touch can make me lose control. Inextricably bound by our past, we keep each other’s secrets. And while there are people who have the power to hurt us, it’s the truth that threatens us most of all. Dallas can be mine only behind closed doors, our passion as searing as it is forbidden. Yet nothing in this world has ever felt so desperately, deliciously right. Praise for *Hottest Mess* “J. Kenner has done an amazing job writing about this delicate subject. . . . NEW YORK TIMES BESTSELLER • For fans of *Release Me* comes a series of three enigmatic and powerful men, and the striking women who can bring them to their knees. I knew better than to risk my heart. But fierce passion comes at a high price. I grew up believing in right and wrong, good and evil, black and white. I knew better than to trust. And then I met Tyler Sharp. Bold, charming, and dangerously sexy, Tyler always gets what he wants. But his smile can be deceiving, his dealings sordid, his ambitions ruthless. I thought I was the one woman strong enough to resist him, but our need for each other was too urgent to deny. One look and I was in trouble. One touch and I was hooked. One night and I became his. New York Times bestselling author J. Kenner follows up her breathtaking *Stark* Trilogy with three sizzling standalone novels featuring unforgettable alpha males—and the seductive games they play. This is the series that led RT Book Reviews to proclaim, "Kenner may very well have cornered the market on sinfully attractive, dominant antiheroes and the women who swoon for them." Now all three installments are available in one addictive ebook bundle: *WANTED* He is everything I crave, all

I desperately want—and he is everything I can't have. Evan Black embodies my every fantasy. He is brilliant, fierce, and devastatingly handsome. But he is also headstrong, dangerous, and burdened with secrets. My family warned me to stay away, that I could never handle Evan's dark dealings or scarred past. Maybe I should have listened. Maybe I should have run. But our desire is undeniable, and some temptations you just can't fight. And from the moment we touch—the passion between us consuming us both—I know that I will never be the same. HEATED I knew better than to risk my heart. But fierce passion comes at a high price. I grew up believing in right and wrong, good and evil, black and white. I knew better than to trust. And then I met Tyler Sharp. Bold, charming, and dangerously sexy, Tyler always gets what he wants. But his smile can be deceiving, his dealings sordid, his ambitions ruthless. I thought I was the one woman strong enough to resist him, but our need for each other was too urgent to deny. One look and I was in trouble. One touch and I was hooked. One night and I became his. And now that I've fallen, there's no going back. IGNITED He promised to take me as far as I could go—and I wanted to go to the edge. My whole life has been a cover, a con, a lie. I was born into the grift, raised on the thrill of playing someone I'm not. As a rule, I never let anyone get too close—until Cole August makes it impossible for me to stay away. Cole is tough, sexy, and intensely loyal, yet his secrets are dark and his scars run deep. Not many women can handle his past, or the truth behind his fierce demands. But something about him beckons me—and our desire is a game I must play. I know he's dangerous, that even his touch is trouble, but what is passion without a little risk? Praise for the *Most Wanted* series "Wanted is another J. Kenner masterpiece. . . . This was an intriguing look at self-discovery and forbidden love all wrapped into a neat little action suspense package. There was plenty of sexual tension and eventually action. secrets. Moreover, the characters are complex, the passion is intense and the ultimate message that love can heal all is inspiring."—The Romance Reviews (five stars) The *Most Wanted* series is intended for mature audiences.

*Hatchet* Martini & Olive

A New York Times Bestseller Winner of the James Beard Award for General Cooking and the IACP Cookbook of the Year Award "The one book you must have, no matter what you're planning to cook or where your skill level falls."—New York Times Book Review Ever wondered how to pan-fry a steak with a charred crust and an interior that's perfectly medium-rare from edge to edge when you cut into it? How to make homemade mac 'n' cheese that is as satisfyingly gooey and velvety-smooth as the blue box stuff, but far tastier? How to roast a succulent, moist turkey (forget about brining!)—and use a foolproof method that works every time? As *Serious Eats's* culinary nerd-in-residence, J. Kenji López-Alt has pondered all these questions and more. In *The Food Lab*, Kenji focuses on the science behind beloved American dishes, delving into the interactions between heat, energy, and molecules that create great food. Kenji shows that often, conventional methods don't work that well, and home cooks can achieve far better results using new—but simple—techniques. In hundreds of easy-to-make recipes with over 1,000 full-color images, you will find out how to make foolproof Hollandaise sauce in just two minutes, how to transform one simple tomato sauce into a half dozen dishes, how to make the crispiest, creamiest potato casserole ever conceived, and much more.

"With each novel featuring a favorite romance trope—beauty and the beast, billionaire bad boys, friends to lovers, second chance romance, secret baby, and more—[the *Man of the Month*] series hits the heart and soul of romance." This collection contains the first three books in

the series. Down On Me Tight muscles. Vibrant Ink. Meet Mr. January. Winter's never looked so hot... Certified bachelor Reece Walker wants two things — to save the local bar he manages and to get Jenna Montgomery into his bed. He has a few ideas for the bar. But Jenna... well, he's going to have to rely on cold showers, because she's been his best friend for years, and that's a line he just can't cross. Until one wild kiss on a dark night changes everything. Now Reece is certain Jenna's meant to be his. And with long nights in bed, sensual caresses, and deep, lingering kisses, he sets out to thoroughly convince her that friends can be lovers, too. Hold On Tight A hard body. A dangerous past. Meet Mr. February. Sometimes, revenge is sweet. A former reality-TV star, remodeling expert Spencer Dean doesn't trust women. Not after his fiancée, Brooke, left him at the altar five years ago, breaking his heart and hardening his soul. Now, Brooke is close to a deal for her own show that will launch with the remodel of a popular Austin bar. The problem? The network insists that Spencer step in as her partner. He's tried to forget her—but he can't deny that he still wants her. More than that, he wants to punish her. And so he agrees, but only on terms that are provocative, demanding, and wildly sensual. It's the perfect set-up for extracting revenge. But he doesn't expect to fall for Brooke all over again... Need You Now Charming smile. Wicked skills. Meet Mr. March. Taking a risk never felt so right. With his tousled hair, cocky grin, and surprising abs hidden under a conservative button-down, bartender Cameron Reed is no stranger to the attention of women. He dates, but never gets serious, claiming that he's too focused on his studies. But it's not really school that preoccupies him; it's sensual fantasies of his best friend's sister. Mina Silver might be absolutely off-limits because of her overprotective brother and father, but that doesn't stop Cam from imagining the feel of her in his arms, the brush of his lips over her soft skin, or the sparks that would fly between them if he ever got her into bed. But for Cam, the bonds of family and friendship are sacrosanct, and there is no way that he'd ever violate his friend's trust. Or would he? Because with love on the line, maybe it's time for Cam to break a few rules. Each book is a STANDALONE romance with an HEA and an overarching story about a group of friends and the local bar they love. Totally hot and utterly binge-worthy! #### **Good Ghouls Do** Bantam

This newly reissued debut book in the Rutgers University Press Classics Imprint is the story of the search for a rocket propellant which could be trusted to take man into space. This search was a hazardous enterprise carried out by rival labs who worked against the known laws of nature, with no guarantee of success or safety. Acclaimed scientist and sci-fi author John Drury Clark writes with irreverent and eyewitness immediacy about the development of the

explosive fuels strong enough to negate the relentless restraints of gravity. The resulting volume is as much a memoir as a work of history, sharing a behind-the-scenes view of an enterprise which eventually took men to the moon, missiles to the planets, and satellites to outer space. A classic work in the history of science, and described as “a good book on rocket stuff...that's a really fun one” by SpaceX founder Elon Musk, readers will want to get their hands on this influential classic, available for the first time in decades.

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful

conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.
