Amateur Radio Station WD8RIF | Heathkit HW-8

The HW-8 was the second QRP transceiver offered by Heathkit. It replaced the HW-7 and was offered between 1976 and 1983. While it looked similar to and was the same size as the HW-7, the HW-8 featured a much more sophisticated direct-conversion receiver design and included 80 meters. Shop | heathkit.com

The HW-101 was born out of three previous models, the SB-100, SB-102, and the HW-100. Like the previous models, it covered the 80 through 10 meter amateur radio bands on Single Side Band or CW at 100 watts, and was one of the most popular of Heathkit's ham radio products. It was a dependable and well designed radio that was sold in kit form for

Heathkit Radio Manuals - pestingers.net

A ham gave me his old Heathkit HW-101 and HP-23 power supply. It did not work. Some local hams (Elmers) helped me get the receiver working. Then eventually the transmitter. One ham came over to show me how to set it up and make a contact - first contact was a ham in the state of New York on 40 meters. So from Richmond, Virginia to New York is ...

Heathkit Hw 101 Manual

Use the Troubleshooting Charts supplied by Heathkit in the Operations Manual as a starting point. There is a sequence to debug which seems to work best: check power first and recheck it at every card being debugged, then get the receiver to work starting with any noise from the speaker and working back to the antenna, then work on the ...
