exaggerate and invent the Cold War in order to capture the Russian Baku oil fields. Based on autobiographies of the Reagan family, Cabinet, and White House Staff, the 650-page book includes a 250-page epilog of documentation and a 50-pg researchers' index, footnotes, and an extensive appendix including charts from: Staff Report, Committee on Banking, Currency & Housing, House of Representatives, 94th Congress, 2d session, Aug. 1976 -- Federal Reserve Directors, a Study of Corporate & Banking Influence. The charts trace

from 1913 to present the family dynasties of the private owners and interlocking directorate of the Federal Reserve Bank and other G-8 central banks (the World Order and New World Order) whom Bill Casey, George Shultz, the Bushes, bin Ladens, Thyssens, Rockefellers, Rothschilds, Browns, Harrimans and Reinhard Gehlen worked for and against whose family ancestors the American Revolution was fought and whose family decendents today continue to dominate the financial, political, economic, and

bailout and foreclosure landscape with financial terrorism. Additionally, the historical novel follows the family dynasties of the private owners of the interlocking directorate of the Fed/G8 including Bank of England and Bundesbank and other central banks involved in the American Revolution of 1776, the American Civil War, the depressions in the late 1800s and early 1900s, the founding of the privately owned Federal Reserve Bank in 1913, WWI, the financing of the Bolshevik party from New York and

thru Ruskombank which supplied U.S. technology and weapons and military vehicles to communist Russia who supplied them to the Viet Cong to kill Americans. Appendices also document the previously hypothesized money-issuing class that prints and owns our money that rules the upper class, middle class, working class, and unemployed classes. The appendix also includes documentation of the Clinton-era involvement with HUD corruption when Bill was Governor and Hillary was a HUD attorney. HUD sold

billions of dollars of foreclosed properties in East L.A. at ten cents on the dollar to the Fed-founded Dillion-Read bank. Ronnie was advised about the marriage of the oil and illegal drug industries, and the case by the European Union and Central and South American countries against Reynolds Tobacco for laundering heroin and cocaine profits with Camel Cigarettes. American Home High Crimes is journalist Michael Kudas's gripping account of life on top of the world--where man is every bit as deadly as Mother Nature. In the years following the publication of Into Thin Air, much has changed on Mount Everest. Among all the books documenting the glorious adventures in mountains around the world, none details how

---

the recent infusion of wealthy climbers is drawing crime to the highest place on the planet. The change is caused both by a tremendous boom in traffic, and a new class of parasitic and predatory adventurer. It's likely that Jon Krakauer would not recognize the camps that he visited on Mount Everest almost a decade ago. This book takes readers on a harrowing tour of the criminal underworld on the slopes of the world's most majestic mountain. High Crimes describes two major expeditions: the tragic story of Nils

Antezana, a climber who died on Everest after he was abandoned by his guide; as well as the author's own story of his participation in the Connecticut Everest Expedition, guided by George Dijmarescu and his wife and climbing partner, Lhakpa Sherpa. Dijmarescu, who at first seemed well-intentioned and charming, turned increasingly hostile to his own wife, as well as to the author and the other women on the team. By the end of the expedition, the three women could not travel unaccompanied in base camp due to the threat of violence. Those that

tried to stand against the violence and theft found that the worst of the intimidation had followed them home to Connecticut. Beatings, thefts, drugs, prostitution, coercion, threats, and abandonment on the highest slopes of Everest and other mountains have become the rule rather than the exception. Koda describes many such experiences, and explores the larger issues these stories raise with thriller-like intensity. Moody's Manual of Railroads and Securities Fueloil & Oil Heat
