"If you must read a book on Columbus," declared the Los Angeles Times in its review of *The Heirs of Columbus*, "this is the one." Gerald Vizenor's novel reclaims the story of Christopher Columbus on behalf of Native Americans by declaring the explorer himself to be a descendent of early Mayans and follows the adventures of his modern-day, mixedblood heirs as they create a fantastic tribal nation. The genetic heirs of Christopher Columbus meet annually at the Stone Tavern at the headwaters of the Mississippi to remember their "stories in the blood" and plan their tribal nation. They are inspired by the late-night talk radio discourses of Stone Columbus, a trickster healer who became rich as the captain of the sovereign bingo barge Santa Maria Casino, anchored in the international waters of the Lake of the Woods. The heirs' plan to reclaim their heritage enrages the government and inspires the tribal nations in a comic tale of mythic proportions. Vizenor is a mixedblood Chippewa who writes fiction in the trickster mode of Native American tradition, using humor to challenge received ideas and subvert the status quo. In *The Heirs of Columbus* he "reveals not only how Indians have staved off the tidal wave of assimilation," noted the San Francisco Chronicle, "but also how, through humor and persistence, they sometimes reverse the direction of cultural appropriation and, in the process, transform the alien values imposed on them." "Vizenor understands the

wilder, irrational, half-mad parts of the Discoverer's soul as few people ever have," noted Kirkpatrick Sale in the Nation; "Columbus is appropriated here in an entirely new way, made to be an Indian in service to his Indian descendents." And the Voice Literary Supplement said "Even more rousing than Vizenor's deconstruction of Columbus, though, is his alternative vision of an American identity."

The animal-rights organization PETA asked "Are Animals the New Slaves?" in a controversial 2005 fundraising campaign; that same year, after the Humane Society rescued pets in the aftermath of Hurricane Katrina while black residents were neglected, some declared that white America cares more about pets than black people. These are but two recent examples of a centuries-long history in which black life has been pitted against animal life. Does comparing human and animal suffering trivialize black pain, or might the intersections of racialization and animalization shed light on interlinked forms of oppression? In *Afro-Dog*, Bénédicte Boisseron investigates the relationship between race and the animal in the history and culture of the Americas and the black Atlantic, exposing a hegemonic system that compulsively links and opposes blackness and animality to measure the value of life. She analyzes the association between black civil disobedience and canine repression, a history that spans the era of slavery through the use of police dogs against protesters during the civil rights movement of the 1960s to today in places like Ferguson, Missouri. She also traces the lineage of blackness and the animal in Caribbean literature and struggles over minorities' right to pet ownership alongside nuanced readings of Derrida and other French theorists. Drawing on recent debates on black lives and animal welfare,

Afro-Dog reframes the fast-growing interest in human–animal relationships by positioning blackness as a focus of animal inquiry, opening new possibilities for animal studies and black studies to think side by side.

J. K. Rowling's "Harry Potter" series (1997–2007) has turned into a global phenomenon and her Potterverse is still expanding. The contributions in this volume provide a range of inter- and transdisciplinary approaches to various dimensions of this multifaceted universe. The introductory article focuses on different forms of world building in the novels, the translations, the film series and the fandom. Part I examines various potential sources for Rowling's series in folklore, the Arthurian legend and Gothic literature. Further articles focus on parallels between the "Harry Potter" series and Celtic Druidism, the impact Victorian notions of gender roles have had on the representation of the Gaunt family, the reception of (medieval and Early Modern) history in the series and the influence of Christian concepts on the world view expressed in the novels. Part II focuses on a range of prominent political and social themes in the series, including conspiracy, persecution and terror, racism as well as the role of economic, social and cultural capital. Other articles explore the concept of a Magical Criminal Law and its consequences as well as the significance of secrets and forbidden places. The articles in Part III go beyond the novels by taking the stage play "Harry Potter and the Cursed Child", the movie "Fantastic Beasts and Where to Find Them", Pottermore and fan fiction into account. Main topics in this part include trauma theory/PTSD, queerbaiting, a 'post'-colonial analysis of the representation of Native Americans in Rowling's "History of Magic in North America" and the depiction of violence, incest and rape in fan fictions. The concluding article highlights the diversification of the Potterverse and analyses strategies informing its ongoing expansion.

White Cat, Black Dog Houghton Mifflin Harcourt

This book explores the experience of childhood and adolescence in later medieval English rural society from 1250 to 1450. Hit by major catastrophes – the Great Famine and then a few decades later the Black Death – this book examines how rural society coped with children left orphaned, and land inherited by children and adolescents considered too young to run their holdings. Using manorial court rolls, accounts and other documents, Miriam Müller looks at the guardians who looked after the children, and the chattels and lands the children brought with them. This book considers not just rural concepts of childhood, and the training and schooling young peasants received, but also the nature of supportive kinship networks, family structures and the roles of lordship, to offer insights into the experience of childhood and adolescence in medieval villages more broadly.

Very often, the Father gives to His children special presents! They are given, along with thousands of other blessings, on a daily basis, and if we are truly honest with ourselves and look at these presents, we will be all the more grateful! This is an account based on the facts

presented in the Bible, and largely on the prophetic Scriptures. I realize that many in the church—those who claim to be Christians—will not allow themselves to believe on these Scriptures. This is heartbreaking, for I believe this will be to their great harm! This book will try to convince the reading Christian of how truly dear he or she is to the Father, and how He longs for us to be close to Him in His Son. (And no, it isn't inspired, but God did through His Word turn the lights on!) This is more than a bedtime story for children of all ages. My hope is that it will be a great encouragement—for though we may grow a bit weary in our journey, we still enjoy the good fight. We are very dear to the One who has already won it, and He looks forward to greeting us on the other side . . . And men everywhere should seek Him with a new zeal, for He will soon rise to shake violently the earth! Even so, come Lord Jesus!

Seven ingeniously reinvented fairy tales that play out with astonishing consequences in the modern world, from one of today's finest short story writers—MacArthur “Genius Grant” Fellow Kelly Link, bestselling author of the Pulitzer Prize finalist *Get in Trouble* Finding seeds of inspiration in the Brothers Grimm, seventeenth-century French lore, and Scottish ballads, Kelly Link spins classic fairy tales into utterly original stories of seekers—characters on the hunt for love, connection, revenge, or their own sense of purpose. In “The White Cat’s Divorce,” an aging billionaire sends his three sons on a series of absurd goose chases to decide which will become his heir. In “The Girl Who Did Not Know Fear,” a professor with a delicate health condition becomes stranded for days in an airport hotel after a conference, desperate to get home to her wife and young daughter, and in acute danger of being late for an appointment that cannot be missed. In “Skinder’s Veil,” a young man agrees to take over a remote house-sitting gig for a friend. But what should be a chance to focus on his long-avoided dissertation instead becomes a wildly unexpected journey, as the house seems to be a portal for otherworldly travelers—or perhaps a

door into his own mysterious psyche. Twisting and winding in astonishing ways, expertly blending realism and the speculative, witty, empathetic, and never predictable—these stories remind us once again of why Kelly Link is incomparable in the art of short fiction.
